Bishop McFaul Tells Catholics of Evils That Have Followed Occupation.

CHURCHES DESECRATED BY AMERICAN TROOPS

Also Refers to Water Cure, Murderous Orders and Frightful Spread of Immorality—Friars Have Been Caluminated and Unfairly Treated.

Chicago, August 5.—The American Federation of Catholic Societies met this afternoon at the Young Men's Christian hall. In the afternoon after the addresses of welcome by Dr. H. S. Taylor on behalf of Mayor Harrison and M. F. Girten on behalf of the Catholic societies of the city, the convention went into executive session and organized. Short addresses were made by Bishops Messmer, of Green Bay, Wis.; McFaul, of Trenton, N. J., and by the president of the federation. It was evident from the tenor of the remarks made in the afternoon that the convention would not regard the manifesto of Archbishop Ireland warning them against a discussion of the administration methods in the Philippines.

Catholic Churches Desecrated.

At the evening meeting Bishop McFaul was the principal speaker and directed his attention to the treatment of the friars and the school question in the Philippines. The bishop said in part:

"The calm, intelligent observer must admit that some of the statements made in the public press regarding the situation in the Philippines were either incorrect or exaggerated.

"There was, nevertheless, a very substantial foundation of truth in most of the reports, which amply justified the strictures made upon those accountable for the abuse of power.

"No one is foolish enough to admit that in affairs of so important a nature mere denials are conclusive, particularly when made by interested parties. We had already been warned to be on our guard by previous contradictions of reports which were afterwards proved true and found worse than at first suspected.

"When the news arrived that the Catholic churches in the Philippines were desecrated and looted, officers of high rank in the army attempted to refute the charges, yet the desecration and looting of those sacred edifices are now so certain that claims for damages to ecclesiastical property will be accepted by the government.

WATER CURE AND MURDEROUS

"Reports, too, of the frightful spread of drunkeness and immortality after the occupation of Manila by the American army were vigorously assailed. Is there now any one who has the audacity to question their truth? Since then we have all heard of the 'water cure' and the murderous orders issued by an American general. The perpetration of those outrages were not known for a time; they were, however, so flagrant that it was impossible to keep them from the knowledge of the public. The introduction alone of the public school system was just cause for alarm."

The speaker then declared that the federation is deeply interested in obtaining just treatment for the friars in the Philippines who had suffered, he declared, "under so many cruel calumnies."

Bishop McFaul charged that in selecting school teachers for the Philippines discrimination had been practiced against the Catholics, because of a total of 967 teachers who, he said, had been sent to the islands, but eighteen or nineteen were Catholics.

"The impression has gone abroad," the bishop said, "that America is furnishing educational facilities to the Filipinos for the first time and that the people were in a state of dense ignorance. This is another calumny. For centuries the friars dwelt with the tribes of the Philippines and it is to them that they are indebted for whatever they possess of education and religion. They are a chaste and a pure people, unaware of many of the vices of civilization until American soldiers occupied their soil."

Archbishop Ryan Explains.

Philadelphia, August 5.—Archbishop Ryan, who returned today from his visit to President Roosevelt at Oyster Bay, stated he was misquoted in regard to his attitude on the question of the retention of the friars in the Philippine islands. He said:

"My position in regard to the friars in the Philippines is not that they should be expelled, which we have no right to do, but they should be left to the pope and their generals to be exchanged for members of their orders of other nationalities, especially Americans, when this can be effected. I believe that the opposition of some of the Filipinos arises from the fact that some of the friars are Spaniards."

ROUND CIRCLE HE'LL SWING

President Roosevelt Will Tour the States in the Northeast.

HE WILL MAKE SPEECHES AT A NUMBER OF POINTS

He Will Spend a Week in Maine and New Hampshire and Then Return to Massachusetts—No Public Receptions Are Wanted.

Boston, Mass., August 5.—The secretary to the president, Mr. Cortelyou, has telegraphed to Senator Lodge and Senator Hoar that the president will reach Boston on Saturday, August 23, late in the afternoon and will go to Nahant, where he will pass Sunday with Senator Lodge. The next morning the president will go to Newport, making ten-minute stops at Taunton and Fall River. He will return from Newport the same day, reaching Boston about 8 o'clock, where he will be received by the governor, the mayor and the Boston congressmen.

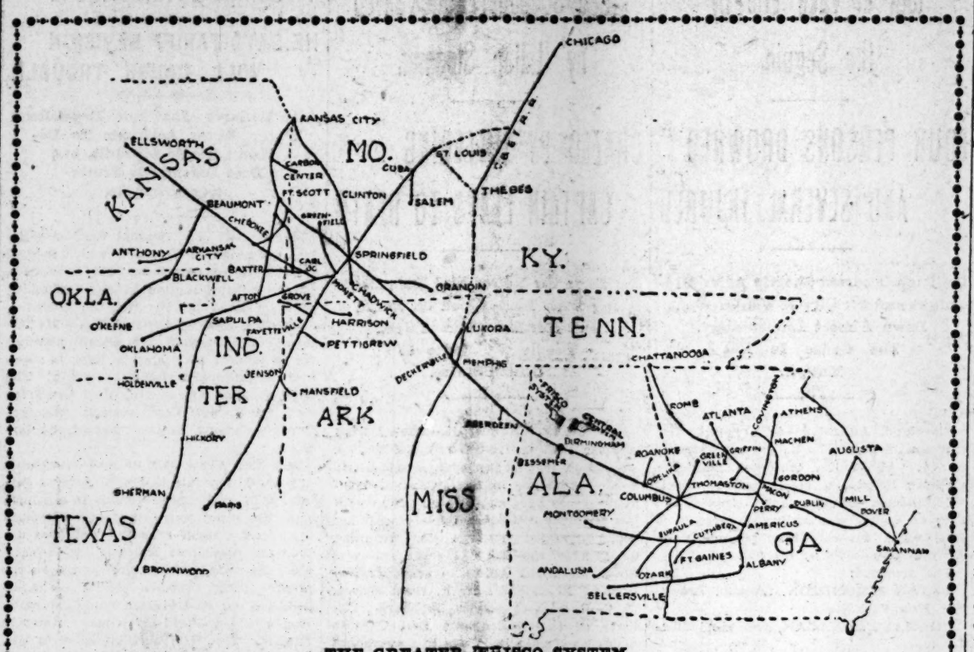

Tuesday morning he will go via the Boston and Maine to New Hampshire, making fifteen-minute stops at Lowell, South Lawrence and Haverhill.

After a week in Maine and New Hampshire he will return to Massachusetts on Monday, September 1, reaching Northfield late that afternoon. He will pass the night at Northfield and will arrive at Worcester, where he goes to see Senator Hoar, at 12:40 p. m. The president will next stop at Westfield, going later to Dalton, where he may pass the night with Governor Crane or go to New Haven.

Mr. Cortelyou states that it is the president's desire that there shall be no public receptions held anywhere. The president will, however, speak briefly at the various points indicated.

Governor Crane, Secretary Moody and Senator Lodge conferred with such members of the congressional delegation as could be reached today and it was agreed that the congressmen in each district should take charge of the president's visit at every place where he stops. The arrangements in Boston for Monday will be in charge of the governor, the mayor of the city and the congressmen.

GIANT RAILWAY DEAL MAY LINK THE SOUTH TO GREAT NORTHWEST

TRACY LEAVES NOTES ON TRAIL

Amuses Himself by Writing Messages to Men Who Pursue Him.

HE WARNS THE SHERIFF TO GO BACK AND SIT DOWN

Failing To Obey Tracy Says He Will Fix the Officer a Plenty. Wherever Tracy Stops He Takes Possession of the House.

Spokane, Wash., August 5.—The sheriff's office at Davenport today received a message from Preston stating that Outlaw Tracy spent all day Monday at the home of L. B. Eddy, a rancher on Lake creek, 3 1-2 miles south of Fellows.

The outlaw made his appearance there Sunday evening and took possession of the place. He is reported to have been there last night, leaving about 7:30.

Pinned to the wall on a farm house about a mile north of Odessa, where Tracy apparently had watered his horses, the following note was found today:

"To Whom It May Concern: Tell Mr. Cudihee to take a tumble and let me alone or I will fix him plenty. I will be on my way to Wyoming. If your horses are any good would swap with you. Thanks for a cool drink.

"HARRY TRACY."

The Regatti of Cowes.

Cowes, England, Aug. 5.—The second day of the Royal Yacht Squadrons regatta was favored with beautiful weather; but the wind was rather light. There were 12 starters in the race for the King's cup, with the German emperor's Meteor III at the scratch. The Brynhild won the race for the King's cup, Meteor III finished second and the Glory third.

Rumored 'Frisco-Central of Georgia Deal Excites Interest.

JAS. J. HILL'S PET SCHEME INVOLVED IN TRANSFER

Statements Given Out Seemingly Confirming Theory That Central of Georgia Will Be Controlled by the 'Frisco.

By Robert N. Burnett.

New York, N. Y., August 5.—(Special.)—That negotiations are in progress between representatives of the St. Louis and San Francisco and those in control of the Central of Georgia was confirmed today by a leading director of one of the companies, who is personally interested in the deal, but who refused to be quoted. In a word he said:

"The 'Frisco may buy the Central of Georgia, or, if this is impossible, make traffic arrangements with the latter. It wants to buy, but of course the whole deal may fall through. Negotiations, so far, have been only tentative, and it is scarcely possible to give any details. Those interested would have preferred it to be kept secret until the plans are worked out, but if consummated it will be found to be a part of a more comprehensive programme, some details of which are to be yet worked out.

"As to how intimate relations between the 'Frisco and the Southern would be if the deal goes through, or whether there will be any relations at all, I do not care to say. You'll have to figure that out yourself.

"This much you can say: The Illinois Central has nothing to do with it, and the Seaboard Air Line is not in it. The Seaboard, so far as I have learned, is entirely independent, although it is building to Birmingham, and we will doubtless have the privilege of making connections with it if agreeable to parties just as is the case with any two companies whose lines meet. Further particulars I am not prepared to give until I know whether the negotiations materialize."

Southern Is Satisfied.

Such are the hints of a very big scheme which met with denials at J. P. Morgan & Co.'s office today and from some of the 'Frisco people. If consummated it is believed here that it means the Southern railway is back of the 'Frisco and is entirely satisfied with the deal, which it could prevent if it saw fit through its large influence in Central of Georgia. There is a growing belief that it is part of the plan of the Southern to fortify itself against the encroachments of the Harriman and Moore syndicate interests, which some think want to invade the Southern's territory with an outlet perhaps at Charleston.

Through the Choctaw, the Rock Island gets into Memphis, connecting with the Illinois Central. There is nothing as yet to indicate a combination of these interests, but it is known that some dissatisfaction was manifested by Harriman over Morgan's purchase of the Louisville and Nashville, which, according to the belief entertained here, will be operated more to the advantage of the Southern railway than any other company. The question is asked here whether Morgan did not see a hostile combination forming and has decided to counteract it by securing control of the 'Frisco, using the latter to get Eastern Illinois.

Hill's Favorite Scheme.

The Central of Georgia, through the 'Frisco, could be put in permanent shape and no violation of law could be urged against it.

It is worth noting that James J. Hill has been advocating an alliance of northern and southern lines so that the Great Northern and Burlington could ship northern products south and bring back

DONE TO DEATH BY GAMBLERS

Crusader Against the Green Cloth Men Is Murdered at Des Moines.

HE SUCCEEDS IN CLOSING EIGHT GAMBLING HOUSES

While on His Way Home the Skull of the Crusader Is Crushed by Men in Ambush—No Clew to Murderers Discovered.

Des Moines, Iowa, August 5.—Isaac Finkelstein, whose crusade closed the eight gambling houses in Des Moines two weeks ago, was murdered tonight near the alley on southeast Walnut street. He was on his way home, less than a block away, when a man stepped out of the shadow of the alley and struck him a blow over the head with a heavy stick. Finkelstein fell to the ground. Four men less than a block away saw him fall and ran to assist him. He was dead when they arrived, his skull having been crushed.

Beyond the bloody stick which was left beside the victim the only clew to the murderer is a report that a little after the time of the murder one unrecognized man was overheard to say to another: "I killed the —" and at another time one man was heard to tell another: "Keep your mouth shut."

The murder is supposed to have resulted from Finkelstein's action in prosecuting the gamblers. He did not object to public gambling, but wanted the city to receive a revenue from it, he said, and when the police did not raid the houses he filed complaints with the sheriff. The resultant raids proved so expensive the gamblers closed their places.

OAT CORNER IN THE COURTS.

More Injunctions Granted by the Chicago Judge.

Chicago, August 5.—Injunctions were secured today from Judge Chytraus by Wait, Thoburn & Co., grain commission men, against the other board of trade firms to prevent settlements in the July oats deal. President Warren is restrained from indorsing down margins to the firms who bought July oats of the complainants to the extent of $20,000. The bank of Montreal is also enjoined from paying over the margins. To date thirty-four injunctions have been issued by Judges Chytraus and Chetlain as the outcome of the charge by this board of trade firm that leading bulls were engineering a corner in July oats.

The firm of Wait & Thoburn was suspended from the board of trade by a vote of the directors late this afternoon. Complaint was made by Harris, Gates & Co. that an indebtedness of $36,000 incurred during the recent corner of corn had been unsatisfied. Mr. Thoburn asked the directors for more time in which to make a defense, but the request was denied.

BUTCHERS ATTACK THE TRUST.

They Are in Convention at National Capital.

Washington, August 5.—The National Retail Butchers and Meat Dealers' Protective Association met in convention here today. About fifty delegates were present. Most of the session was devoted to the addresses of the officers.

The so-called beef trust was vigorously assailed and President William G. Wagner, of New York, in his address, recommended that the tariff be taken off of meat and feed products. It is likely that there will be a movement made at this meeting to urge the payment of a bounty either by the federal or state governments looking to the encouragement of the beef raising interests in the east. The delegates spent this afternoon at Mount Vernon.

FREIGHT RATES REDUCED.

Hill Says Railroads Cut Off Quarter of Profits.

Spokane, Wash., August 5.—The second freight rate conference between the railway presidents and the farmers was held at Colfax today. A 10 per cent reduction in the rates on wheat east and west was announced. President Hill said this would cut off one-fourth of the entire profits of the railways.

ROYAL TO COME HERE THIS FALL

So Says Dispatch to The Constitution from Chicago, Ills.

MANAGER DARGAN HAS REPORTED FORMALLY

Additon of the Southern Department of the Royal Would Make Atlanta One of the Largest Insurance Centers in the Country.

The southern headquarters of the Royal Insurance Company of London will probably be moved from Louisville, Ky., to Atlanta before the close of the present year, bringing a small army of officials and clerks to be added to the city's growing insurance directory.

It will be recalled that while on a recent visit to Atlanta, his old home, Manager Milton Dargan, of the Royal, stated that there was a strong probability that the southern headquarters of his company would eventually be moved to Atlanta.

In a dispatch to The Constitution from Chicago comes a practical confirmation of the statement that Atlanta is to get the southern headquarters of the company. The following dispatch tells of the proposed change:

Chicago, August 5.—(Special.)—It is understood that the southern department of the Royal Insurance Company, for many years located in Louisville, is to be removed to Atlanta before January 1.

Manager Milton Dargan, recently appointed to the position, is siad to have looked into the question of an Atlanta headquarters during his recent visit to that city.

When the change was made in the southern management of the Royal and Milton Dargan succeeded Barbee & Castleman, it was freely predicted that the department headquarters would be transferred to Atlanta, which is the fire underwriting center of the southern field.

In Louisville, too, a report coming from apparently good authority is that the change in location will be made late this fall. It is also stated in the south that a number of changes in the field force of the Royal are impending.

INDIANS AFTER HITHCOCK.

They Seek To Enjoin Secretary of the Interior.

Washington, Aug. 5.—Thlechumi Fixico, Gosofixico Chee, Ufoula Horigo and James L. Gray, representing themselves as agents and delegates of the Creek Indian tribe in Indian Territory, today brought suit to enjoin Secretary Hitchcock and Commissioner of Indian Affairs Jones from proceeding in execution of what is known as the Creek agreement for allotments, etc. They ask to be allowed to remain in undisturbed enjoyment of their landed interests and that such property as already has been taken from them under the agreement and the ratifying act be restored.

They allege that the government has failed to comply with the terms of the agreement and the act of congress ratifying the agreement.

WANTS WALLER AS COUNSEL.

Penrose Requests the Marine Officer To Defend Him.

Washington, August 5.—Paymaster Penrose, who is to be tried by courtmartial at Erie, Pa., on Thursday, on several charges, the principal one of which is embezzlement, has asked the navy department to assign Major L. W. T. Waller, of the Marine corps, to act as his counsel. His request will be complied with and the assignment will be made. Major Waller is now at the Marine barrack, Norfolk.

LINES DRAWN SO VERY TAUT THEY MAY SNAP

Situation at Shenandoah Is Strained Almost To Point of Danger.

SOLDIERS ARE CHASED BY PARTY OF STRIKERS

Feeling Is Growing That More Trouble Will Result—Troops Raid the Foreign Settlement at Shenandoah and Make Two Arrests.

Shenandoah, Pa., August 5.—The peace of this troop-protected town remains unbroken. The unsettled feeling which has been apparent for the past few days, however, continues. It was a lively day at brigade headquarters, where all the staff officers were kept busy in connection with the movements of the troops and in keeping in touch with the situation of the entire country. There were many rumors of trouble, but excepting at Girardville, where a workman was shot and slightly injured, nothing of a serious nature occurred anywhere.

Brigadier General Gobin was unusually alert, however, and kept soldiers in readiness for instant use all day long. Many stories of threatened trouble reached him, but he was able in every instance to run them down without sending out a detail of men. Officers around headquarters feel that the tension is increasing and would not be surprised if some of the troops now in camp here were sent into the surrounding region. The brigadier general says he will not send for additional men until there is need for them. It is not unlikely, however, that a battery and another troop of cavalry will be in the field by the end of the week.

Two Rioters Arrested.

Probably the most important development in the Shenandoah region today was the arrest and commitment to the county jail of two wounded Lithuanians who participated in the riot of last week. The arrests were attended with a considerable show of military force. The men were taken into custody by constables, who were surrounded by a platoon of infantrymen, and taken through the streets under a strong guard. The prisoners are Antony Klimovitz and Stanislau Zukowski. Each had been shot in the foot during the riot and was unable to walk. They were located in boarding houses in the heart of the foreign quarters of the town.

The constable feared that trouble would ensue if they attempted to make the arrest themselves and upon their suggestion General Gobin sent a platoon of company I of the Twelfth regiment to protect them. The soldiers formed a line around the houses and the two Lithuanians were carried from the house and placed in an open wagon. By this time a crowd of foreigners of different nationalities had gathered around the soldiers and followed them and the prisoners to the office of Squire W. H. Shoemaker, where the prisoners were given a hearing.

While the hearing was in progress the platoon kept the crowd some distance

THEY WEDDED AS SUN ROSE

Mr. Beebe and Miss Rice Made Man and Wife at an Unconventional Hour.

Richmod, Va., August 5.—(Special.)—With a true appreciation of the romantic Mr. Charles William Beebe and Miss Mary Blair Rice will be married at sunrise tomorrow at "The Oaks," the residence of the young lady's parents, Mr. and Mrs. Henry Crenshaw Rice, at Coles Ferry, Va.

Miss Rice is a grand-daughter of Justice and Mrs. Roger A. Pryor, of New York. She selected the hour because of the beauty of nature at that time and the handsome old garden for the many year associations which center there.

A house party of intimate friends will witness the ceremony, which will be performed by Rev. William Miller, of Bryn Mawr, Pa. They will live in New York, where Mr. Beebe is one of the curators of the New York zoological park.

SNAKE CRAWLS OVER HER HEAD

Mrs. Keefe Awakes To Find a Copperhead Disporting in Her Bed.

Carbondale, Ills., August 5.—A snake crawled into the bed occupied by Mr. and Mrs. N. J. Keefe, at their home in Murphysboro, yesterday. Mrs. Keefe awoke about 4 o'clock this morning and feeling something cold near her feet, moved one of them toward the foot of the bed. Just then she thought she struck a hat pin and her screams aroused her husband.

When a light was brought a copper head snake was found crawling over the bed covers toward the woman's head. Mrs. Keefe leaper from the bed and Keefe grabbed a broom. After making several unsuccessful attempts to kill the snake with the broom Mrs. Keefe dispatched the reptile with a poker. She is very weak and her ankle is badly swollen.

PRAYER HEALS BLIND WOMAN

While on Her Knees a White Light Breaks on Blind Eyes of Mrs. Nessler.

Denver, Colo., August 5.—Mrs. Sarah Nessler, of this city, who has been blind for seven years and whose case was pronounced incurable by oculists, is said to have recovered her eyesight in a miraculous manner.

She says that while praying at a revival meeting of the Holiness sect, at the Pentecostal union, a white light broke upon her eyes and soon she was able to distinguish objects. Her vision, she declares, is now nearly as good as it was before she became blind.

King of Siam Not Dead.

London, Aug. 5.—When questioned today regarding the reported assassination of the King of Siam, the Siamese legation said it had heard nothing of the matter and declared it did not believe it to be true.

TWO MASKED MEN HOLD UP TRAIN AND GET AWAY WITH $20,000

Dubuque, Iowa, August 6.—Two masked men held up the Chicago, Burlington and Quincy limited northbound 2 miles east of Savannah hills at 11:30 o'clock Tuesday night. They cut off the Adams express car, forced the engineer to run up the track and then blew up the express car.

The robbers torpedoed the track and when the torpedoes exploded the engineer quickly brought the train to a stop. One man boarded the engine, ordered the engineer to run ahead, while the other man cut the exprss car off.

The train crew hurried on to Savannah and gave the alarm and a posse of officers and citizens, armed with shotguns and revolvers, hastened to the scene. The limited is said to carry a heavy and valuable express package nightly. It is said that the robbers secured about $20,000.

Chicago, August 6.—At the Burlington offices in this city the news of the daring and successful work of the bandits was confirmed. The train which was looted is known as No. 47, leaving Chicago at 6:30 p. m. It is a through train for Minneapolis. The officials of the railroad company were unable to give any information as to the amount of booty secured by the robbers, or to say definitely whether any of the trainmen had been injured during the exciting encounter.

TENSION GROWS IN MINE REGION

Situation Is Very Much Strained at Shenandoah.

Three Soldiers Are Chased by Party of Strikers—Troops Raid the Foreign Settlement and Make Two Arrests—Situation Seems Ominous.

from the place. The Lithuanians, along with a fellow countryman named Waldo Rowinski, who was arrested late Saturday night on the charge of being a participant in the riot, were then arraigned.

Through Line of Bayonets.

The principal witness was Thomas R. Beddal, a deputy sheriff, who was in the riot. He identified the men and testified to having deliberately shot Klimovitz and Zukowski, wounding them in the feet. The three men were then held in $2,000 bail each, and in default they were taken to the jail at Pottsville.

After the hearing they were taken in a carriage surrounded by a company of soldiers to the Pennsylvania railroad station. The journey to the station was made on a run through the foreign settlement. At the depot company K, of the Fourth regiment, was lined up in charge-bayonet formation. On the bluff overlooking the station there were more than 1,000 strikers. The crowd was kept at a distance and the men were soon on their way to the Pottsville jail.

At Girardville, 6 miles from here, a workman coming from the Girard washery operated by W. R. McTurk & Co. was shot in the leg and slightly injured. The injured man is James Caparelli, an Italian. He had been engaged at work which had been forbidden by the union and had been warned several times to quit. This morning on the way home he was met on the road by half a dozen unknown men who began to beat him. Caparelli ran and as he did so one of the men fired at him. Some of the buckshot hit him in the leg. He managed to walk to a physician's office and after having the shot extracted from his leg he walked to the Lehigh Valley railroad station and boarded a train for Hazleton. Burgess Jones is investigating the assault.

Soldiers Put to Flight.

Report was made to headquarters today that three members of company I of the Twelfth regiment were chased by a crowd of men last night on the outskirts of the town, and that the soldiers had sought refuge in the house of 'Squire McGuinn at Frackville. The militiamen met the 'squire and he took them to his home and kept them there until ..y, when they returned to camp. Brig.. General Cobin in the meantime ..d of the incident and sent the cav.. over to Frackville, but before the ..ps reached there the three men had ..urned to camp. General Cobin said ..e three soldiers will be courtmartialed. ..burgess Brown, president of Council ..David R. Jones, and Chief of Police John F. ..y held a conference with General Gobin today and confessed their inability to cope with the situation as it exists in the southern section of the Senandoah. The Cambridge colliery, owned by Mr. Jones and 'Squire McGunnes, is located there. The borough officials told the general that men gather in that part of the town and molest every person, not excepting the women, that happens along. Men, they said, cannot longer work there in safety. The burgess said that one man in this crowd had boasted that their object was murder if they can find the man they are seeking. Threats are openly made, and the officials requested that troops be sent there. General Gobin consented to station two companies of infantry in that locality and on the road leading to Turkey Run hill.

Strikers Post Pickets.

Wilkesbarre, Pa., August 5.—Lest some of the coal companies might attempt to spring a surprise on the strikers and start up some of their mines today, pickets were stationed in the vicinity of nearly ever colliery, but no attempt was made to resume operations at any of the mines. At Nanticoke four men were arrested charged with inciting a riot. It is alleged they interfered with the deputies in charge of one of the mines of the Susquehanna Coal Company. The defendants were held in $500 bail for trial at court. At the office of the local companies it is said that reports are being received daily that there is more or less dissatisfaction among the strikers. A large element, it is claimed, is not in favor of the present method of distributing relief or of a continuance of the strike under present conditions. At strike headquarters it is said that these reports are only mere rumors.

Aid for the Strikers.

Shamokin, Pa., August 5.—From the ninth United Mine Workers' district headquarters it was announced tonight that all miners, whether they belong to the union or not, will receive financial aid. Idle non-union men have the past week been threatening to go to work unless they were aided by the union.

One Colliery Resumes.

Scranton, Pa., August 5.—The Dickson colliery, of the Delaware and Hudson Railroad Company, in Green Ridge, resumed operations today with returned strikers. Superintendent Rose says the company has been cutting and loading coal at this mine for two weeks. The coal was hoisted and sent through the breaker. The company will not give out the number of men working. This makes three collieries now in operation in this city. Superintendent Tobey, of the Delaware, Lackawanna and Western, said today that his company will start another colliery tomorrow.

TROLLEY FIGHT WON BY UNION

Camden Inter-State Street Railway Strike Is Declared Off.

RECOGNITION OF UNION GRANTED BY COMPANY

Restoration of Men Discharged for Cause To Be Left to Arbitration—Trouble Is Threatened on the Manhattan Elevated Road.

Huntington, W. Va., August 5.—The Camden Interstate Street railway strike, which has been on since Sunday last, was declared off today and all the cars on the Ohio, Kentucky and West Virginia divisions are being operated tonight on schedule time by union crews.

At a conference here today President Graham, of the Camden company, and members of the national executive board of railway employees, the strike was satisfactorily adjusted, the company agreeing to recognize the union and restore all men discharged without cause to their former places. The restoration of men discharged for cause is to be left for arbitration, the governor, one member of the supreme court and another to be selected, to be the arbitrators.

The settlement was reached during the trial before Judge Lallance, of the police court, of two non-union men arrested for carrying concealed weapons. Colonel Z. T. Vinson, of the Camden company, was present to defend them. While the trial was proceeding Colonel Vinson asked the judge if he would stop the trial for a moment and grant a private conversation between the union officers and officials of the company who were in the court room. The judge consented and after a conference lasting an hour the judge announced that the trial would not proceed further and ordered both prisoners released, stating that both sides had reached a satisfactory agreement and that the strike was declared off.

All the men on the various divisions ratified the agreement later and traffic on all the lines was resumed this evening.

There was no violence of a serious nature on any of the lines today.

Strike Threatened on Manhattan.

New York, August 5.—Vice President Skitt, of the Manhattan Elevated railway, today gave to a committee representing the 500 engineers and motormen of the road a refusal of their request made two weeks ago for a nine-hour day and other concessions.

When the company's reply became known among the men there was immediately talk of a strike. The committee after leaving Mr. Skitt's office went at once to a telegraph office and sent the following message to P. M. Arthur, grand master of the Brotherhood of Locomotive Engineers:

"To P. M. Arthur, Cleveland, Ohio: Come at once. Everything refused."

Chief Jenks, of division No. 105 of the brotherhood, says of the grievances:

"Since the introduction of motor cars into the service we have been compelled to make six round trips daily between One Hundred and Twenty-ninth and South ferry, consuming ten hours and travelling on the average of 108 miles a day. On the engines we never made more than five trips, and four and a half was the usual number. The company claims that the motor cars being faster would be able to make the additional trip. They also say that the strain on us in running the electric trains is less. The first statement may be true, but the second is not. We are willing to make five trips a day in nine hours and no more.

"We also want a relay system that will give each man a chance to get a bite to eat and a few minutes to himself at the end of each run."

Grand Master Arthur is expected to arrive tomorrow or Thursday.

HUNDRED THOUSAND LOSS.

THIRTY-FIVE BUILDINGS DESTROYED BY FIRE.

Washington, La., Suffers Great Damage from Flames—Insurance About One-Third.

Washington, La., August 5.—Thirty-five buildings in the business section of the town were destroyed by fire this afternoon. The fire originated in the livery stable of A. Meyer and spread in a southeasterly direction, destroying the Meyer residence and store building, the opera house, Carl Wolff's two-story building, the Baillco saloon, Jacob Plohnsky's store and residence, drug store, bank, Claude's grocery, Screen's saloon, Richt & Olanger's grocery and a number of residences. Loss is about $100,000; insurance about one-third.

LONE HIGHWAYMAN AT WORK.

He Holds Up Red Rock Stage in Idaho.

Salmon, Idaho, Aug. 5.—The Red Rock stage was held up by a lone highwayman this morning while enroute to this place and the treasure box lifted. It is not known what the robber secured. There was but one passenger, a woman, and she was not molested. The sheriff and a posse are in pursuit.

STEAMER CUT IN TWAIN; STARVING SEAMEN SAVED

City of Venice Is Sent to Bottom of Lake Erie by the Seguin.

FOUR PERSONS DROWNED AND SEVERAL INJURED

Collision Occurred Shortly After Midnight and the City of Venice Went Down Almost Immediately. The Cause Is Not Known.

Cleveland, August 5.—As a result of a collision on Lake Erie between the steamer City of Venice, ore-laden, and the steamer Seguin, a steel lumber vessel, off Rondeau, Canada, last midnight, the City of Venice was sunk and three lives lost, while several other persons were more or less seriously injured.

The drowned:

PETER SIMONDSON, fireman, Brooklyn, New York.

THOMAS FLANAGAN, deck hand, Buffalo.

GEORGE WEIR, watchman, residence unknown.

The cause of the collision is not known. There was no fog whatever and the night was fairly clear. The lights of the City of Venice were burning brightly. To this the crew and passengers all testify, saying they could see the lights on the Venice as she was sinking. The second mate of the Seguin, W. A. Lavigne, who was on watch, refuses absolutely to give any information in regard to the way it happened.

It was shortly after midnight when the accident happened. The City of Venice, laden with 3,600 tons of ore, was bound to Buffalo, while the Seguin was going north to Perry Sound from Ogdensburg. On board the Seguin all were asleep save the second mate, W. A. Lavigne, and the watchman who was with him in the pilot house.

The first that was known that anything had happened was a terrible crash, which brought both boats almost to a standstill. The Seguin had struck the Venice fairly amidship and ploughed its way half through the boat. The crew and passengers aboard both boats hear the tearing of timbers mingled with calls for help from those on deck.

Those who were sleeping rushed out on deck and there was a frightful panic for a time. The Venice, which had been split almost in two, was sinking rapidly.

Captain Broderick, of the boat, ran on deck and immediately called to the men to man the life boats. The members of the crew who had not been hurt rushed to his assistance and in five minutes they had the boats in the water. Several of the men, fearing that the ship would sink before they had an opportunity to escape, threw themselves overboard. They were later picked up by the life boats from the Seguin. The City of Venice went down in very deep water in less than fifteen minutes after the collision occurred. After standing by for an hour the Seguin headed for Cleveland with the survivors, arriving here early today.

The City of Venice was a wooden vessel 301 feet long and 42 feet beam. She was owned by the McGraw Transportation Company, of Bay City, Mich., and valued at about $175,000. She was commanded by Captain Broderick.

The Seguin is an iron vessel 205 feet long and 34 feet beam. She is woned by J. B. Miller, of Perry Sound, and commanded by Captain J.B.Sims.

First Mate Sullivan, of the City of Venice, who is lying in a critical condition at the Marine hospital, rallied slightly this afternoon and made a statement regarding the collision.

"I was on the night watch," he said, "and it was something after midnight when I first saw another boat ahead. It was still some distance away, but I blew the whistle to signal the boat. She did not answer. I thought that it was strange, but as she was some distance away I made no attempt to get out of the way. All our lights were burning, and there was no fog, so I don't see how they could have helped seeing our vessel. When the boat was considerably closer I whistled again, but still there was no answer. I was then frightened and signaled still another time. I saw that we were not seen; at least, there was no attention paid to our signals, and the boat was bearing directly down upon us.

"I then attempted to get out of the way and veered the ship diagonally in her course, hoping to escape with a slight rub, the collision that I began to see was inevitable. She was even nearer than I supposed, however, and going at a fast rate. Suddenly the bow loomed up high above us and there was a sickening crash and then for a moment I scarcely realized what had happened I was thrown from my feet by the jar, and the pilot house was crushed and piled on top of me. I felt a terrible pain in my back and chest, and then I was swept overboard with the pilot house."

Sullivan was picked up after being in the water a short time. Including the crew and passengers there were about twenty-five persons on the City of Venice.

MACHINISTS ARE OUT AGAIN.

They Are Trying To Bar All Non-Union Men.

Chicago, August 5.—The machinists of the Allis-Chambers company, who were on strike for the greater part of a year, and returned to work June 13, are out again. The trouble originated through the determination of union men to force all the non-union men from the shop. There are sixteen of these, all high-grade machinists. At noon today the union men, 200 in number, seized eight of the non-union men and compelled them to run the gauntlet between two lines of men armed with shingles. The eight men were badly bruised and such a disturbance was raised that the police were called. The officials of the company promptly discharged five of the ring leaders in the assault upon the non-union men and the others left their places at once.

To Reorganize Grain Inspection.

New Orleans, La., August 5.—The board of trade today received a letter from Liverpool Corn Association, announcing the board of directors of the institution had decided not to recognize the grain inspection of the Maritime Association of this city. The action of Liverpool is expected to give the board of trade a considerable advantage over the Maritime Association.

Crew and Passengers of Disabled Schooner Notice Saved by Italian Steamer.

CRAZED BY SUFEERING CAPTAIN LEAPS TO DEATH

For Days the Notice Had Been Drifting with Little Food on Board and Her Hold Packed with People En Route to United States.

New York, August 5.—The Italian steamer Sardina, from Genoa and Naples, arrived in port today with a small two masted schooner in tow. Captain Montana, of the Sardinia, said he fell in with the schooner drifting helplessly with her decks crowded with people. Running down near the disabled craft she was found to be the American schooner Notice, of Providence, R. I., from Brava, C. V. I., with 64 persons on board. The mate of the Notice said that Captain Antoniao Romos had been lost overboard and was thought to have committed suicide.

The vessel was disabled and short of provisions. He asked for assistance. The steamer sent her a boat load of provisions and took the schooner in tow and brought her to this port. The schooner's mate, John F. Pina, said that the Notice sailed from Brava, Cape Verde islands, on June 27, with 65 persons on board. Of these eleven were women. The schooner had no cargo and her hold was fitted up to accommodate the people.

On July 21, in latitude 34, longtitude 64, a squall struck the little schooner and disabled her. She drifted with the gulf stream. A spar was rigged for a jury rudder, but the little craft having no spare canvas for headsails, did not steer with it. The provisions were running low and the water was scanty.

About 10 o'clock one night Mate Pina heard three blasts of the captain's whistle. He rushed on deck to see what was the trouble, but the captain was nowhere to be seen. The vessel was searched, but no one had seen him. It was thought that while brooding over his misfortunes he jumped overboard and was lost. Pina the mate, is a navigator, but his craft was so disabled that all he could do was to let her drift along. On the 3d instant, the Sardinia came along and took her in tow. Pina said he had six days' provisions and a little water left.

The passengers on board the Notice are all natives of the Cape De Verde islands. They come to join friends at Providence, R. I., and find employment as laborers and fishermen. The schooner is owned by Anton Costa, of Providence. Her tonnage is 63 tons.

PENSACOLA HEADQUARTERS.

Rear Admiral Wise, of Navy, Is Making Inspection.

Pensacola, Fla., August 5—Rear Admiral Wise, United States navy, has been inspecting the harbor and navy yard here with a view, it is understood, of making this port headquarters for the winter maneuvers of the north Atlantic squadron, which will sail under command of Admiral Dewey.

DEATH SENTENCE FOR ASSAULT

John Lomax Will Be Hanged at Montross, Va., September 9.

Montross, Va., August 5.—In the Westmoreland county court, under guard of the Fredericksburg militia, the jury today returned a verdict of guilty in the case of John Homer, alias Lomax, colored, indicted for committing an assault on Miss Susie Costenbader, aged 15 years, daughter of Robert Costenbader, near her home at Potomac Mills. Judge Beale pronounced sentence of death and fixed Tuesday, September 9, as the day of execution. The prisoner was turned over to Captain Rowe, of the militia, and will be taken back to Alexandria, Va., for safe keeping.

OFFICER PASSES BOGUS CHECK.

Lieutenant McCoffey, of New York, Arrested in California.

San Francisco, August 5.—Lieutenant Edgar N. Coffey, of New York, has been arrested in Oakland, charged with passing a bogus check on the proprietor of a hotel.

His arrival at the hotel was preceded by a letter from Portland, Oreg., purporting to be signed by George W. McIver, captain of the Seventh infantry, United States army, stating that Coffey was a second lieutenant of the company, who had been sent south on official business, requesting that his name and business be kept secret and asking the hotel people to cash a check for $125 which had been given him.

The letter was written on official paper and the "lieutenant" brought with him many apparently genuine credentials. The check was cashed, but suspicions were aroused when a second check was presented by Coffey. An investigation was made and his arrest followed. At first he strongly protested his innocence, but finally admitted that he was not what he claimed to be, but asserted that it was his first offense against the law.

Ritchie To Succeed Hicks- Beach.

London, August 6.—The Daily Telegraph says it believes it has been definitely settled that the Right Hon. C. T. Ritchie, secretary of state for home affairs, will succeed Sir Michael Hicks-Beach as chancellor of the exchequer.

SHAW TALKS OF THE TARIFF

Secretary of the Treasury Opens the Republican Campaign in Vermont.

HE SAYS TARIFF REVISION WILL CAUSE TROUBLE

Also Declares That the Republican Party Never Attempts To Defend a Tariff Schedule, but Does Defend the Protective Principle.

Manchester, Vt., August 5.—The political campaign in Vermont, which is considered an extraordinary one, by reason of the bolting faction in the republican party, headed by Percival W. Clement, contesting against General J. G. McCullough, the regular republican nominee for governor, was opened here in General McCullough's behalf tonight. The chief speaker was Secretary of the Treasury Shaw, who dealt entirely with national questions, largely that of the tariff.

Secretary Shaw said he was doubtful if any tariff schedule had been devised satisfactorily in every particular to any person. The republican party never attempts to defend a tariff schedule, but does defend the protective principle. It is probable, he said, that many items of the present tariff schedule should be modified, but no modification could be made that would not still leave many items in dispute. The Wilson bill, passed in 1894, was so unsatisfactory that President Cleveland refused to sign it. The question is not whether there are inaccuracies, inequalities or imperfections in the present law, but whether it is wise to attempt a revision at this time. It is idle to suppose that any revision would satisfy those who have no revision policy of their own. No policy of legislation, no foreign policy, no insular policy, no expansion policy, no Philippine policy is or ever will be devised that will satisfy the opposition.

DEAL LINKS SOUTH WITH NORTHWEST

Continued from First Page.

cotton and other articles from the latter region. The 'Frisco connects with the Burlington at St. Louis and Kansas City. A glance at the map shows that from Omaha via the Burlington, the 'Frisco system would extend from there to Birmingham and thence via the Central of Georgia to Savannah. It is a pretty direct line and would strikingly carry out Mr. Hill's idea.

Mr. Morgan, of course, is vitally interested with Mr. Hill in the Northern Securities system, and being also the controlling factor in the Southern, the latter could also make somewhat similar arrangements with the 'Frisco for the use of the system as a connecting link to the west, southwest or northwest. Furthermore, the Morgan lines could probably share the advantages of the Eastern Illinois road, thereby having two Chicago outlets, including the Monon. Some of the advantages mentioned above will accrue if only a traffic deal between the 'Frisco and Central of Georgia is formed, but traffic deals are easily broken and the closest alliance is preferred by the interested parties, if terms can be satisfactorily arranged.

Morgan Makes Denial.

New York, August 5.—Representatives of two separate interests, one of whom is J. Pierpont Morgan & Co., deny the report that the absorption of the Georgia Central system by the St. Louis and San Francisco road is contemplated. It is even denied that anything like a "traffic agreement" is under way. Morgan & Co., according to report, control about $4,000,000 of the $5,000,000 stock issued by the Georgia Central.

If the St. Louis and San Francisco has secured control of the Central of Georgia, the long cherished hope of the promoters of the Kansas City, Fort Scott and Mimphis and the Kansas City, Memphis and Birmingham—that of a direct line from Kansas City to the Atlantic is to be realized.

The combination, if it becomes effective, will mean even more than this to the railroad men of the south as they will then believe that the Frisco system is controlled by the same interests that now have control of the Southern, the Louisville and Nashville, and the Atlantic Coast Line.

This belief is held because it is generally admitted that the Central of Georgia is a Southern property and no railroad man believes for an instant that the Morgan interests would voluntarily surrender control of such a valuable property as the Central of Georgia to any line in which they were not heartily interested.

The combination would introduce into this section an entirely new factor. Up to a year ago the Frisco system was practically unknown in the southeast. Its rails came to the Mississippi only at St. Louis and its entire business was done between St. Louis and southwestern points.

About a year ago the Frisco acquired the old Memphis route composed of the Kansas City, Fort Scott and Memphis and the Kansas City, Memphis and Birmingham. These two roads have the short line between Birmingham and Kansas City—a distance of 735 miles—and several small branches.

The line of the Central of Georgia between Birmingham and Savannah is 448 miles in length. If the two systems are combined the larger system would have an air line 1,183 miles in length connecting Kansas City with the Atlantic at Savannah.

The Frisco by its acquisition of the Chicago and Eastern Illinois has greatly strengthened its position. When this acquisition is made effective and a few connecting links constructed the Frisco would have a direct line between Chicago and St. Louis and what it is believed will be the short line between Chicago and Memphis.

Railroad officials believe that the recent purchase of the Louisiana and Arkansas by the Frisco shows that it is working for a line to the gulf. If the acquisitions credited the Frisco within the past few weeks are all true it will be only a short time when its net work of lines in the southwest will have an outlet to the Great Lakes at Chicago and an outlet to the gulf at New Orleans, and an outlet to the Atlantic at Savannah. With such facilities the position of the line would be of such strength as to make it one of the greatest railroad properties ever organized.

The present milage of the Frisco is 3,391 miles all of which, with the exception of the 251 miles between Memphis and Birmingham is located south and west of St. Louis in Missouri, Kansas, Texas, Arkansas, Oklahoma and the Indian Territory. In these states it now has 1,200 miles projected and under construction.

The total mileage of the Chicago and Eastern Illinois is 1,040. The Central of Geogia has 1,844 miles of track located in Georgia, Alabama and Tennessee. If the Frisco has secured the two lines its mileage is now 6,275 while with the construction of the lines necessary to complete the plans credited to it the system would have a mileage of between 8,000 and 9,000 miles.

The acquisition of the Central of Georgia, giving as it would an outlet to the Atlantic, would put the Frisco in a position to dictate terms to the lake lines at Chicago. On the other hand a vast amount of traffic in grain and cattle that now goes to Chicago would be turned to Savannah. This would not only give the Central of Georgia such a business as it has never known before but would greatly increase the importace of Savannah as a port.

The Frisco since it was left out of the reorganization of the Atchison, Topeka and Santa Fe has been built up under the direction of President B. F. Yoakum. It has had fierce competition in the Rock Island and the Gould lines, both of which have Chicago connections. Both systems have recently strengthened their positions at Memphis, the Rock Island by the purchase of the Choctaw and the Gould interests by the projection of new lines.

Predictions have been made that with the completion of the plans of the other two systems the Frisco would be put to a disadvantage as it would have to deliver its products to one or the other of them for marketing.

However if President Yoakum has made the coups credited to him he has given his road a unique position and has put it where no system in the country, no matter how strong, will be able to tie it up. At Kansas City the Frisco touches the Santa Fe and the relations of the two systems have always been cordial. If the rumored acqusitions are made, the two systems will control a transcontinental line of great value.

The Frisco system has always worked on the idea of building up traffic in the country through which it passes and has done much for that section of the country which its folders always term "The Great Southwest." The entry of such a system into the southeast would mean much to this part of the country while the diversion of traffic from Chicago to Savannah would give that port a prosperity that it has never known before.

Nothing is known of the terms upon which the Frisco is to get the Central of Georgia but it is generally believed that if such a deal is made it may be understood that the Morgan interests have control of the Frisco. Those who know Mr. Yoakum say that he will never surrender his control of the Frisco and it may be that he has managed to get the Central without selling the Frisco. There woud, of course, be no legal obstacle to the consolidation of the two systems as the two have not a mile of parallel track.

CUBA HURRYING AFTER MILLIONS

Bill Providing for Big Loan Passes the Senate.

Thirty-One Millions of the Loan To Be Used in Paying Debts Incurred During the Revolution Against Spain.

Havana, August 5.—The senate today passed the bill which has already been discussed and approved in part to empower the executive to raise a loan of $4,000,000 at the minimum price of 90 and at the maximum rate of interest of 5 per cent, payable in thirty years, to be used to assist the sugar cane growers of the Island.

This bill includes authorization to raise, within six months another loan of $35,000,000 to include the first loan. This second loan is to be used to pay the Cuban revolutionary army and the debts of the revolution referred to in the constitution.

Some changes in the original draft of the bill regarding securities have been made; at present the executive is empowered to pledge the customs receipts in general and the receipts due from increased duties on certain articles in particular as security, first for the loan of $4,000,000 and then for the loan of $35,000,000. As a result of this change the clause which provided that congress should vote special taxes before the end of the present session to secure the second loan of $35,000,000 is rendered unnecessary because, as the draft was first presented, the above mentioned security only referred to the $4,000,000 loan.

The bill provides that the duties on the following articles be raised:

That on coal, 25 per cent; tallow, 50 per cent; common soap, 150 per cent; pine timber, 40 per cent; chickens, 100 per cent; canned meat, 50 per cent; fresh meat and mutton, 50 per cent; pork, 100 per cent; salt beef, 50 per cent; the present duty on jerked beef is to be raised 50 per cent and may be raised 100 per cent should this be found necessary; bacon, 100 per cent; hams, 50 per cent; lard, cheese, condensed milk and flour, 100 per cent; butter, 75 per cent; codfish, 100 per cent; herrings, 50 per cent; rice, eggs, peas, onions, potatoes and olive oil, 100 per cent; coffee, 50 per cent; maise, 33 per cent; shoes, 10 to 17 per cent; wine, 70 per cent; liquors, 70 per cent; cider, 50 per cent; beer, 50 per cent; hats, 60 per cent, and preserved food, 100 per cent.

It is estimated that these increases will give a revenue of $520,000 a year.

MESSRS. PHILLIPS & CREW CO.,

Agents of the Kimball Piano Co., Atlanta, Ga.

Gentlemen:—Referring to the recent contest between the various secret organizations, churches, societies and clubs of Atlanta, which was inaugurated by the Kimball Advertising Company, we beg to say that our association early became impressed with the value of this contest, and entered the same with lively interest.

We felt that we were competing at all times with other very powerful associations, but take great pleasure in stating that throughout the past 16 weeks everything has been conducted in the most satisfactory manner, free from disputes and bickerings, and that the utmost courtesy has been extended to everyone by Mr. H. M. Wood, the referee agreed upon.

We worked with great energy, and are much pleased to receive notification from Mr. Wood that our association had surpassed all others in the number of votes cast.

We desire to tender to you our sincere thanks for the very elegant Kimball piano, with stool and scarf, making it complete in every way. We know that it will be a source of great pleasure to our members, and that it will continue sounding the praises of the Kimball piano for many years to come. Very truly yours,

ANDREW D. WHITE TO LEAVE BERLIN

United States Ambassador Mails Resignation to Washington.

It Is To Take Effect Early in November—Ill Health Caused Resignation—Hill and Bellamy Storer Mentioned as Possible Successors.

Berlin, August 5.—Ambassador White mailed his resignation to the United States several days ago. It is to take effect early in November. The resignation may now be in the hands of President Roosevelt. The date set by the ambassador for his resignation to go into effect was November 7. He is now at Homburg, where he is taking the waters and where he probably will remain till the end of the month.

There is much gossip at Berlin concerning Mr. White's probable successor and one circumstantial story is that the president intends to transfer Ambassador Tower from St. Petersburg to Berlin, Minister Storer from Spain to be ambassador to Russia and to appoint Henry White, now secretary of embassy at London, as minister to Spain. Mr. Tower, who has been dissatisfied with St. Petersburg, expressed months ago a wish to be transferred to some other equally desirable post, preferably Berlin.

Expected at Washington.

Washington, August 5.—No information has been received at the state department indicating that Ambassador White had resigned, but the announcement was not unexpected, as a report was current some time ago that he would retire from public life upon his reaching his seventieth birthday. Several gentlemen in the diplomatic service have been mentioned in connection with the Berlin embassy, should Ambassador White retire, the most prominent being Dr. David Jayne Hill, now first assistant secretary of state, and Hon. Bellamy Storer, at present minister to Spain.

Andrew D. White was appointed ambassador to Germany April 1, 1897. In March it was announced that he contemplated resigning because of ill health.

Will Return to Ithaca.

Ithaca, N. Y., August 5.—The resignation of Ambassador White has been expected by his friends in this city for many months, particularly since the death of his son, Frederick D. White, in July, 1901.

Dr. White will be 70 years old in November and the reason assigned here for his withdrawal from the post at Berlin is that he is ready now to devote himself to writing. He has completed a work on his experience and reminiscences as a diplomat at Berlin and St. Petersburg. He has maintained his home on the campus since he left Cornell university, and it is considered probable that he will return here to live.

SURGEONS TO USE THEIR KNIVES ON KING AFTER THE CORONATION

Report to That Effect Is Current in London, but It Is Stoutly Denied.

KING EDWARD RETURNS TO HIS CAPITAL TODAY

He Will Travel by Special Train from Portsmouth—Everything Is in Readiness for the Coronation—Ceremony Being Rehearsed.

London, August 5.—A story afloat for several days that a second operation for appendicitis will be performed upon the king after the coronation is denied here. According to all authoritative reports the king is making excellent progress and it is considered unlikely that his physicians would allow him to endure the fatigue of the coronation ceremonies if another operation was impending.

The emphatic denials of the sinister rumors of King Edward's condition are confirmed by all persons who have recently visited his majesty.

The king will land at Portsmouth and en train for London at half past 3 o'clock tomorrow afternoon and his train is due to arrive in London at half past 5. His drive to Buckingham palace will be by an extended route instead of the direct way in order that the public may have an opportunity to see and congratulate the sovereign.

The king has commanded that coronation day and the anniversary of his coronation be observed as collar day, a day of ceremony at the English court when the courtiers wear collars of their orders.

On account of the approaching coronation most of the volunteers are at present undergoing their annual training at Swisbury. It has been decided that they are to leave their camps August 8 instead of August 9.

The rehearsal of the coronation ceremony in Westminster abbey was the most largely attended and elaborate one which has yet been held. The king and the queen and other prominent personages who were not present were represented at the proceedings by substitutes. Colonel Brocklehurst, equerry to her majesty, impersonated King Edward, and Lady Suffield, one of the ladies of the bed chamber, took the part of the queen. Even the servants were drilled in their duties connected with the robing arrangements and the pages carried out, theoretically, their functions of coronet carrying and train bearing.

Although the religious and musical features of the ceremonies were omitted this afternoon, the instructions and repetitions by those who are not perfect in their part caused the rehearsal to occupy about the full time planned for Saturday's ceremonies.

PUT PRISONERS IN BLACK HOLE

Nearly Two Hundred Peasants Packed in a Stable by Soldiers.

LEFT IN HOLE FOR HOURS WITHOUT MORSEL OF FOOD

Strike of Galician Peasants Spreads, the Strikers Apparently Being Careless of Their Lives—Protests Are Made to the Austrian Premier.

Vienna, August 5.—The strike of Galician peasants is spreading to districts which have hitherto not been affected, and there have been many conflicts between the peasants and the military. A detachment of Uhlans attacked 500 peasants at Pothering; many of the latter were wounded and the soldiers made 173 arrests. The prisoners were confined overnight, densely crowded in a stable, and were taken to jail the next day in a fainting condition, not having tasted food in twenty-four hours.

Three Ruthenian members of the chamber of deputies have protested in this matter to Dr. von Koerber, the Austrian premier, declaring the peasants to be indifferent whether they die at the hands of drunken gendarmes, brutal soldiers or the legal executor. This protest alleges that officials are siding with the landlords instead of acting as mediators in the trouble.

CHINA GROUND TO PENURY

By Taxation To Meet Demands of Government.

Shanghai, August 5.—General Sharretts, the special American tariff commissioner, was given a banquet here tonight. In the course of an address he said the Chinese people were ground to the verge of penury by the taxation necessary to meet the obligations of the central government and that individually and unofficially he was opposed to the abolition of the likin and the substitution of a surtax, which, General Sharretts said, would prove disastrous to all nations, and especially to the United States.

London, August 6.—In a dispatch from Shanghai, the correspondent of The Times says he considers Viceroy Lu Kung Yi's unconciliatory attitude on the question of inland waters to be partly due to the declaration made by General Sharretts that the viceroy would oppose the abolition of the likin.

The correspondents regret such utterances, saying they tend to upset a treaty which is intended for the benefit of all commercial nations alike. He adds that Liu Kun Yi, in a telegram to Sheng, one of the Chinese tariff commissioners, adduces General Sharrett's statement as an argument against agreeing to the inland waters proposals.

GUIDI CHOSEN FOR DELEGATE

He Will Be Sent to Manila To Represent the Vatican.

PLANNED BY THE VATICAN TO CHOOSE AN AMERICAN

But the Plan Fell Through and Guidi Was Selected—Father Paya Says It Will Be Difficult To Remove the Friars.

Rome, August 5.—The Italia announces that Monsignor Guidi, at present in the office of Cardinal Rampolla, the papal secretary of state, has been appointed apostolic delegate at Manila.

It was reported from Rome August 2 that the delay in appointing an apostolic delegate at Manila was due to a desire of the vatican to please the Washington authorities by sending to the Philippines an American prelate, but should this plan fall through, the most probable candidate was said to be Monsignor Guidi.

Father Paya Discusses Friars.

Rome, August 5.—Cardinal Rampolla, the secretary of state, gave a farewell audience today to Father Santiago Paya, provincial father of the Dominicans of the Philippine islands, who will leave on the 7th instant for Manila. Cardinal Rampolla, in his conversation with Father Paya, limited himself to the statement that religious questions in the archipelago could be settled satisfactorily to all concerned.

Father Paya, in private conversation, expressed doubt as to the entire elimination of the Spanish friars of the four orders under discussion, though their total number in the Philippines has been reduced to 3,000. The Augustinians are the most numerous, but the American friars of that order are few in numbers, and, according to Father Paya, do not wish to leave the United States. Continuing, the dominican provincial said that the members of his own order in the Philippines already had been reduced to the number absolutely necessary to carry on the schools in their charge and that they had no desire to return to parishes, which they never had occupied in large numbers. It would be difficult to replace them in the schools, he said, as a special knowledge of local dialects is required in order to teach the natives.

Loubet May Go to Rome.

Paris, August 6.—The Eclaire this morning declares the vatican to be still preoccupied with the possibility of President Loubet's visiting King Victor Emmanuel, of Italy, and, rather than risk a rupture with France the pope would, says the paper, receive President Loubet, even if he visited the king.

CASTRO LEAVES FOR FINAL FIGHT

He Goes To Force Rebels to Decisive Engagement.

In the Event of His Defeat Castro Has Made Arrangements To Transfer Headquarters of Government to San Cristobel, in West.

Willemstadt, Island of Curacao, August 4.—President Castro, of Venezuela, left Caracas on Sunday to personally conduct the second and what he believes will be the final campaign against the revolutionists. He will proceed to Charayave and Cua, little places about a day and a half from the capital. He had with him 3,100 men and expected to meet on the route 3,500 more men brought back from La Victoria and Valencia. The revolutionists under General Luciano Mendoza are at San Casimiro and those under General Matos are at Orituco. Their junction is expected momentarily.

In consequence of the inexplicable delay of the revolutionists in advancing President Castro has had time to organize new armies and today he is nearly as strong in numbers as are the revolutionists. He expected reinforcements of 3,000 men from the Andes and Trujillo states, commanded by General Baptista. The only advantage the revolutionists have at present comes from the fact that they have in their ranks the better military leaders.

Plans of Castro.

Caracas, Venezuela, Sunday, August 3.—President Castro left here today for the mountainous district of Guarico, where the advance guard of revolutionists under General Mendoza appeared some days ago.

Four million cartridges and 10,000 Mauser rifles were received by President Castro last Saturday. Half of these were deposited in Caracas and the other half was sent to Maracaibo on a schooner.

This distribution of munitions of war is taken to be proof that if Castro's forces are beaten in the expected engagement with the revolutionists, and if the president can escape, he intends to prolong resistance and purposes to transport the headquarters of the government to San Cristobol in the extreme western part of Venezuela, where he was born. This apparent decision on the part of President Castro has created a feeling of depression in commercial and financial circles.

Barcelona Surrounded.

Port of Spain, August 5.—News has reached here from Venezuela that Barcelona, in the state of Bermudez, is being surrounded by revolutionists, estimated to number 800 men, under command of General Piatero. They demand the surrender of Barcelona.

The government soldiers in the town number only 300 men and it is not believed that they will offer resistance.

DYING OF STARVATION RATHER THAN ASK ALMS

New Decatur, Ala., August 5.—(Special) Lying in a shanty boat on the Tennessee river near here today in the midst of abject poverty and want, surrounded by his wife and several small children, whose frail bodies showed the want of food, John Wilson was found dying of starvation.

Nelson Campbell, a local boatman, made the discovery, but when found nothing could be done for Wilson and he died an hour later. The remains were buried on the river bank and Campbell brought the starving wife and children to town, where they are being cared for.

Wilson was too proud to beg and rather than let his wants be known he and his family did without food. Wilson formerly lived in Knoxville, Tenn., and Covington, Ky., and is said to have been well off some years ago, but losing his fortune, he traded for a shanty boat and followed fishing for a living.

DRUMHEAD COURTMARTIAL ORDERS GENERALS TO DEATH

Panama, August 5.—The revolutionary generals, Antonio Saurez, LaCroix and Juan Vidal, and Colonel Julian Lecama, who were sentenced to death by a courtmartial, composed of government representatives, have been shot at Barrigona camp, which is situated between Honda and Ambalema, on the Magdalena river. Other revolutionists were condemned by the same court to various terms of imprisonment, the longest of which is 25 years.

Antonio Saurez LaCroix belonged to one of the oldest and richest families of Colombia. He was a born fighter and during the Cuban revolution he fought for two weeks with General Maximo Gomez. Before he was shot he said: "Four individuals from Bogata are responsible for the sacrifice of our lives and perhaps for those of many others."

In a letter written to the United States four days before his death and before he was captured by government forces, General LaCroix said he would not surrender, because of the admirable position of the revolutionists throughout the country.

CRAZY WOMAN CAUSED HIM TO KIDNAP LITTLE CHILD

Chicago, August 5.—Interest in a sensational child stealing case is revived by the release from the Joliet penitentiary of John Collins on parole and his admittance to the Soldiers' home at Danville.

Collins was implicated with Mrs. Ann Ingersoll in the kidnaping of little Gerald LaPiner, from his home in Chicago, on Decoration day, 1900. The child was taken to Painesville, Ohio, and kept by the couple in a house about a mile from the town, where he was finally located after a long and sensational search. The kidnapers were sent to the penitentiary for indeterminate terms.

Both remained up to a few days ago, when Collins was paroled. Mrs. Ingersoll is still detained at the institution. It came out at the trial that Mrs. Ingersoll was demented. She had met Collins, who is 70 years old, in California, while he was an inmate of a soldiers' home. She persuaded him to leave California with her and it was while they were passing through Chicago on their way to Painesville that they met and kidnaped the LaPiner child. After the child had been restored to its parents Police Sergeant Broderick, believing that Collins had taken part in the case unwillingly, started a petition for the release of the soldier. At first the parents remained obdurate to the plans, but remembering the acts of kindness Collins had shown toward Gerald, they signed the petition for his release from the penitentiary.

Kaiser To Attend Launching.

Berlin, Aug. 5:—Emperor William will attend the launching of the North German Lloyd steamer, Kaiser Wilhelm II., at Stettin, on August 12. The ship which will be the largest, is designed also to be the fastest in the world. Her length is to be 707 feet and she will be of 39,000 horse-power and 19,500 tons displacement. She will accommodate 1,000 cabin passengers.

PAWNS POLICY ON WIFE'S LIFE

Boni Castellane Gives $400,000 Policy on Countess' Life to Creditors.

New York, August 5.—(Special.)—News that a policy for 2,000,000 francs ($400,000) on the life of the Countess Boni de Castellane is now in the hands of Archer Wertheimer, the London art dealer, from whom the count bought many of his art treasures, will probably be received with surprise by the friends of the countess on this side of the Atlantic. That this policy exists and is now in Mr. Wertheimer's possession was fully confirmed today by Mr. Maurice Untermeyer, the lawyer who represented the Goulds in the adjustment of the debt to Wertheimer. The policy is to secure Mr. Wertheimer for whatever balance is due him of the 2,000,000 francs owing should the countess die.

TERRIBLE FALL FOR DIAVOLO.

American Bicyclist Injured While "Looping the Loop."

London, Aug. 5.—Diavolo, the American bicyclist, sustained a terrible fall while performing his act of "looping the loop" at the Aquarium tonight. He was taken to Westminster hospital unconscious and is believed to have concussion of the brain. This is the third time in the last ten days that he has fallen.

ESCAPED CONVICT CAPTURED.

Caught While Trying To Cross River and Returned to Prison.

Nashville, Tenn., August 5.—One of the convicts who escaped from the state prison last night was captured this morning about 2 miles below the penitentiary while trying to cross the river. The men separated after getting out and they have been seen in different parts of the city, but efforts to capture them have been unsuccessful.

SISTERS BEING EXPELLED BY THE DECREE OF COMBES

Paris, August 5.—The expulsions of the sisters from their schools were continued in the provinces today and in most cases were conducted without trouble, but a few instances of disorder have been recorded, mostly from Brittany and Savoie.

At Regny, Loire, near Macon, the gendarmes were compelled to break down a school door with axes.

At Ravoire, near Chambrey, Savoie, the police found the school defended by stones. Masons were summoned to demolish the wall. The assembled crowd threatened to kill them if they did so, and the masons declined to work.

There was some disorder at St. Alban, also near Chambery. At this town, the sisters left the school on the arrival of the gendarmes and preceeded by two flags draped with crepe and followed by a group of school children shouting, "Long live the sisters," they marched into Chambery.

Several companies of soldiers who were stationed at Brest have gone to protect the police commissaries, who are expelling the sisters from the various localities in Finistere, where the peasants are still determined to resist the expulsions.

Abbe Gayraud, Catholic republican member of the chamber of deputies from Finistere, wearing the tri-color deputy's sash, addressed a meeting at Ptoudaniel today. He urged the sisters to compel the gendarmes to expel them one by one from the schools, but not to use force.

FEAR BARGAIN WITH MORGAN.

Magnate's Offer to Great Britain Opposed in Commons.

London, Aug. 5.—In the course of the consideration of the naval estimates in the house of commons today, Edmund Robertson (Liberal) alluding to the statement that J. Pierpont Morgan had offered the government the right to utilize the vessels of the ship combine company as British cruisers, said that he hoped that neither the admiralty or the government would make a conclusive bargain in so serious a matter without affording the public an opportunity to consider it.

Hugh O. Arnold-Forster, secretary to the admiralty, in reply said he was not in a position to make a statement on the subject, except to say that the admiralty certainly was not relying on any pledge made by any foreigners. The subsidies to which the admiralty was now committed, however, would be paid. With respect to the subsidy ships, Mr. Arnold-Forster said they were absolutely under government control during the subsidy period. Continuing, the secretary to the admiralty said he was not in a position to state what might be the ultimate decision of the government on the larger question of subsidization or in regard to the contribution toward the establishment of new lines between the United Kingdom and the colonies.

FIRMIN FORMS GOVERNMENT.

List of Men Selected To Aid Him Rule Haiti.

Port Au Prince, August 5.—The Firminist party has formed a provinsional government at Gonaives, with M. Firmin as president and the following cabinet:

Minister of war and marine, W. Killick.
Minister of finance, M. Bourand.
Minister of foreign affairs, M. Henriquez.
Minister of public works, M. St. Louis.
Minister of the interior, M. Chicoye.
Minister of agriculture, M. Lamour.

It is thought that this government will ask foreign nations to recognize it as a belligerent.

Troops are being prepared here to aid General Nord in his proposed attack on the Firminists at Gonauves.

Washington, August 5.—The gunboat Machias will not leave Cape Haitien for San Juan, Porto Rico, until some time later. The action of the department in ordering the Machias to remain at Cape Haitien was based on the following cablegram from Commander McCrea to the secretary of the navy:

"Your dispatch has been received. It is the desire of the minister to delay the departure awaiting some definite statement. Under the circumstances I shall remain until further orders, coal permitting.

OWNS NO STOCK IN CAR SYSTEM

Alderman Happ Says the Report Is False.

Macon Official Will Vote According to His Judgment—After Lighting Contract — Executive Committee Meets—Other Macon News Notes.

Macon, Ga., August 5.—(Special.)—At a meeting of the mayor and council tonight Alderman Happ arose to a question of personal privilege and said it had been intimated by certain persons that he owned stock in the merger street railroads in Macon, and it was not legal or proper for him to take part in the deliberations of council on the ordinance to ratify the consolidation of the roads or vote on any question bearing thereon.

Alderman Happ declared he did not own a share of stock in any of the street railroads of Macon and he was quite sure he knew his duty as an alderman and a man and would at all times discharge it according to his judgment, conscience and sense of propriety.

New Electric Light Plant.

A petition was read from President W. B. Sparks, of the North and South railroad, requesting council to call for bids not later than September 15 for the electric lighting of Macon, as his road would build an electric light plant if it obtained the contract to light Macon. The present light contract is with the Macon Electric Light and Railway Company, one of the merger. The petition was referred to a committee. The contract expires next year. Macon now pays $100 per arc light per annum and Sparks says he can furnish lights at a much lower figure.

Dr. Heard Elected Chairman.

The democratic executive committee of Bibb county, which has been in office for the past two years, held its last meeting today, and the new committee which was elected in the primary on June 5 for the ensuing two years took its place.

The old committee was called to order by Chairman Buford M. Davis. N. D. May was secretary. On motion, C. C. Anderson, who was nominated for surveyor, receiving the largest number of votes cast for any candidate for any office, but who failed on the day of the consolidation of the votes to make affidavit that he had used no money to secure his election, was declared the nominee. Mr. Anderson was absent from the city at the time the affidavit should have been made, and did not know an affidavit was required of him.

H. P. Loh, W. A. Goodyear and T. A. Cheatham were appointed a committee to burn the ballots that were cast in the primary.

Judge Davis made a short address [illegible]ony in the ranks of the party [illegible]sed that all democrats come [illegible] the regular state election and vote for the democratic nominees whether they have opposition or not.

The new committee was then duly inducted into office for the ensuing two years.

Dr. Heard, of the Rutland district, was chosen chairman; Major T. O. Chestney, treasurer; T. A. Cheatham, secretary.

The following compose the committee: Dr. J. H. Heard, chairman; T. O. Chestney, treasurer; T. A. Cheatham, secretary; J. C. Van Syckle, H. P. Loh, S. A. Crump, C. H. Hall, Jr., W. A. Goodyear, A. L. Miller, Dewitt McCrary, J. P. Ross, William Bedingfield, George W. Yates, C. C. Hamlin, C. W. Howard, William J. Willis.

News Notes from Macon.

The furneral services of Miss Florida A. Coleman were held this morning at the residence of her father, Mr. Robert Coleman, on Georgia avenue. The interment was at Riverside cemetery.

Mrs. J. B. Andrews was buried this afternoon. The funeral services occurred at East Macon Baptist church. Rev. J. M. Green officiated. Interment in Fort Hill cemetery.

Mrs. John R. Burnett is dead. The deceased was a noble Christian woman, a consistent and devoted member of the Methodist church. She is survived by her husband and three children. She was formerly Miss Jessie Herb, of Saginaw, Mich.

The painters of Macon are to organize. A temporary organization has just been effected.

A number of machinists and other workmen at the Central railroad shops were unexpectedly discharged this afternoon. The reason of their discharge was not given them, and their removal caused surprise, as there is said to be an abundance of work to do at the shops.

Wilbur Cherry and others petitioned for use of certain streets for street fair in October for the benefit of the Georgia Industrial home. Referred to committee.

Judge Felton, of the superior court, is now hearing evidence in a case involving the guardianship of young Lamar Washington, grandson of the late Henry J. Lamar. Contest for the guardianship is between Mrs. Valeria Lamar, Harris and her brother, Henry J. Lamar, Jr. By a decision of the ordinary the guardianship was given to the aunt, Mrs Harris. Henry Lamar claims the guardianship by the will of his father.

ALLEN DECLARES CHARGES UNTRUE

Says Mrs. Shotter Suffers from Paranoia.

On Various Occasions Dementia Was Displayed and Her Case Is Hopeless—Is a Clever Talker and Enlists Sympathy from Strangers.

Milledgeville, Ga., August 5.—(Special.) The story of Mrs. Shotter's release from the private sanitarium of Dr. H. D. Allen, as given in the Atlanta and Macon papers of Sunday created interesting comment in Milledgeville.

The Constitution's correspondent called on Dr. Allen to learn if he had any statement to make.

At first Dr. Allen was averse to bring what he considered a purely private matter before the public and declined outright to say one word for publication, basing his refusal entirely upon his consideration for the unfortuate lady and her family. But when he reflected that, having heard only one side of the affair, the public would naturally get a false impression of the character of his sanitarium and the principles upon which it was being conducted, Dr. Allen consented to talk and gave a very complete account of his connection with Mrs. Shotter from the day she entered his institution as a patient until he undertook to return the lady to her people in Savanah, in the care of Dr. Stone and a female attendant, last Saturday night. In this last step he acted upon instructions from G. W. Owens, Mrs. Shotter's cousin.

When asked for his professional opinion of Mrs. Shotter's sanity, Dr. Allen unhesitatingly declared that she was suffering from paranola and said he was satisfied that she was incurable. In this opinion he was sustained by Dr. T. O. Powell, superintendent of the state sanitarium, though Dr. Powell would not say, owing to his unfamiliarity with the case, that she was incurable. Dr. Allen cited many instahces which had occurred while Mrs. Shotter was an imate of his sanitarium and others happening elsewhere on divers occasions and under varying circumstances, which in his judgment as an expert, established beyond a shadow of a doubt the fact that she was suffering from this form of dementia. Many of these instances are of a character that forbids their publication. Mrs. Shotter was examined by Dr. Stevens, of New York, one of the most eminent allenists in America, and he pronounced her incurable.

"Before her family brought Mrs. Shotter here," continued Dr. Allen, "she had spent two years in the sanitarium of Dr. W. D. Granger, in Bronxville, N. Y.

Case Is Hopeless.

"After long study of the case Dr. Granger concurred in the opinion of the other specialists that the case was hopeless. But the family would not give up all hope of effecting a cure and brought Mrs. Shotter to Georgia, hoping that the change would prove beneficial. Like most persons afflicted as she is, Mrs. Shotter is under the delusion that she is the victim of persecution from her family. She imagines they placed her in my sanitarium not for treatment, but for confinement pure and simple, because they had ceased to care for her. Being a very clever woman and a good talker, she impresses the stranger with this view and easily wins sympathy."

Dr. Allen grew quite emphatic when he repudiated the suggestion of the Macon interview that Mrs. Shotter's family had cast her off. On the contrary, he said they lavished upon her the tenderest care and affections and were very solicitous about her mental condition. Indeed, they humored her in every possible way, doing everything they could for her comfort and pleasure. "As evidence of this," said Dr. Allen, "the family sent Mrs. Shotter to Europe some years ago, where she traveled a year under the watch-care of a trained nurse. They did this in the vain hope that an ocean voyage and a change of scene would prove of lasting benefit. No," concluded Dr. Allen, "those assertions by Mrs. Shotter are simply the emanations of a disordered brain and are perfectly understood by all who are familiar with the history of this case."

"Where does Lawyer Cooper figure in the affair?" the correspondent asked.

In replying to this question Dr. Allen related his interview with the Macon lawyer, which took place in front of the male building of his sanitarium last week.

"Mr. Cooper," he said, "came out here and demanded a private interview with Mrs. Shotter. When asked for his authority for making this demand the lawyer said he had been employed as her counsel, and, tapping his breast significantly with his hand, boasted that he had a hundred dollar fee in his pocket already and would have more before the matter was concluded."

Dr. Allen says he refused to grant the lawyer's demand for the interview with Mrs. Shotter, giving as his reason that the lady was his patient and he felt in honor bound to give her the same protection that he would give to a member of his own family. Some hot words then passed between the two men. The interview ended in the roadway near the gate leading to Dr. Allen's residence, the two men having covered the distance from the male building to this spot as they talked. Mrs. Shotter was sitting in a hammock only a few feet away in the yard and when she learned from an attendant that Lawyer Cooper was at the gate she went out of her own accord and engaged in conversation with him. They talked together for some minutes.

"That," said Dr. Allen with emphasis, "is all there is to the sensational story from Macon about Cooper's interview with Mrs. Shotter being carried on through a window with iron gratings."

Given Freedom of Grounds.

Since her residence at the sanitarium Dr. Allen said that Mrs. Shotter had always been given the freedom of the grounds in the company of an attendant, and had, under the same conditions, made frequent visits to Milledgeville, 2 miles away. Her wants were scrupulously looked after in the institution and her family kept her supplied with more money that she could possibly need. She literally lacked for nothing that looked to her personal comfort or the diversion of her mind. Dr. Allen stoutly maintains that Mrs. Shotter was in his sanitarium simply and solely for treatment—her family clinging tenaciously to the forlorn hope that a permanent cure might be effected.

"Where is the lady now, doctor?" asked the correspondent.

To this question Dr. Allen answered that a telegram received from Savannah that day informed him that Mr. Owens had come up to Macon and carried Mrs. Shotter to her home. Further than that he had no information of the developments after Mrs. Shotter declined to go on to Savannah Friday night under the care of Dr. Stone and a female attendant from the sanitarium.

With reference to the "Milledgeville friend" represented in the Macon account as figuring in the attempt release of Mrs. Shotter, Dr. Allen said he was totally in the dark. He learned from Dr. Stone that Henry Heard, who is a resident of Greene county, but who has spent some months in Milledgeville, was present with the Macon lawyer at the car shed in Macon and heard all that passed between Stone and Cooper. It is reported here that Heard was seen on two occasions recently in the vicinity of Dr. Allen's home. Heard is regarded by everybody here as an upright, honorable man and his connection, if any, with this affair is believed from the kindest and purest motives.

Dr. Allen asserts that the statements sent out from Macon that lady friends were interesting themselves in the release of Mrs. Shotter were utterly without foundation. He has it upon the very best authority that no lady has taken any such step. But that all the close, personal lady friends of Mrs. Shotter are perfectly aware of her condition and realize that a sanitarium is the proper place for her.

In closing the interview Dr. Allen asserted in the most positive terms that he always advises strenuously against the practice of deception in bringing patients to his sanitarium. In his advertising literature he has a paragraph on this subject in which he advises the use of force and arrest by the county sheriff in preference to deceiving the patient. He says never in a single instance has he been a party to such deception, though he admits that it is sometimes resorted to by friends of the patient from motives of delicacy. Dr. Allen repeated his abhorrance of newspaper notoriety and reiterated the statement that nothing could induce him now to speak publicly about a very regrettable incident, but the fact that the reputation of his institution has been attacked by insinuation and innuendo in the public prints. With those who know him and who are familiar with the conduct of the sanitarium, the publications of Sunday would carry no weight, but before the general public, he says, they place him in a false light. He has, he says, nothing to fear from the fullest publication of this and all other matters connected with the institution which he is conducting if things are put just as they occur.

Writ of Lunacy Hearing.

Savannah, Ga., August 5.—(Special.)—No date has yet been fixed for the hearing upon the writ of lunacy served upon Mrs. Spencer P. Shotter in Macon Saturday and upon which she is under surveillance at the home of George W. Owens, her cousin, in this city. It is said, however, that the hearing will take place this week. It is expected that it will be tomorrow or the next day, which will mean that it will precede the hearing that is to be held before Judge Speer at Mt. Airy on Saturday. There is great interest in the case in Savannah, where there was formerly considerable talk of the pyromania under which Mrs. Shotter was alleged to labor.

Forsyth, Ga., August 5.—(Special.)—The commitment trial of Jeff L. Cochran, charged with bigamy, took place here before Justice H. E. Chambliss this morning. In default of $750 bond Cochran was committed to jail to await trial before the Monroe superior court.

10 Cents per Week Delivered In the City by Carrier System

THE SUNDAY CONSTITUTION

From 50 to 56 Pages---Including The Sunny South.

AND THE DAILY CONSTITUTION

10 Cents per Week Delivered In the City by Carrier System

THIS means that you get The Daily Constitution for less than one cent a copy, delivered before breakfast by carrier in any part of the city, or in any local suburb that is reached by carrier system. If you do not subscribe to The Sunday Constitution it is because you buy it each Sunday---everybody does---and pay five cents for it. **Why not pay a nickel more---10 cents in all---and get The Daily and Sunday Constitution delivered by carrier at your home.** Thus, for the additional five cents you get six issues of the best daily paper in the south for less than one cent a copy. For ten cents you can secure each week The Sunday Constitution, which averages 50 pages, The Sunny South and the daily, which averages 12 pages; or, in concise figures, more than 12 ten-page papers for ten cents, delivered before breakfast.

The Sunday Constitution is not given away—it is not thrown into homes free of cost—for the white paper alone is worth the amount paid for it, without figuring the cost of special features, the telegraph tolls and the infinite amount of work by hundreds of trained men required to accomplish the feat of producing the best, biggest and brightest Sunday paper in the south. The Constitution, Sunday and Daily, has access to the cable service of two of the biggest and most enterprising dailies in the north. The Sunday Constitution prints the only really national funny features---all the others are admittedly outclassed. "After you, my dear Alphonse," is a phrase that usage has made historic; "Foxy Grandpa" is the acme of delight to old and young; and those funny Katzenjammer Kids, their Ma and Uncle Heinie remind the grown-ups of childhood days, and present to the children a mirror of their pranks. These features are great because they are simple, natural, not stilted, not weird---they are human!

Double the circulation of any other Sunday paper printed between New Orleans and Washington—a fact! That means **circulation!** The Sunday Constitution is too big and too good to be given away. People want it! They buy it. They get more than their money's worth. And by adding just a nickel they can get the daily—Sunday and daily, ten cents per week.

In the First Four Sundays in July, 1902, a Total of Advertisements Amounting to . . .	**427 Columns**
For the Four Corresponding Sundays One Year Ago the Total of "Ads" was	**360 "**
That Is a Gain of Nearly TEN PACES for the Four Weeks, or	**67 Columns**

For four weeks ending June 29, 1902, The Constitution contained **62 pages more than its nearest contemporary, three times as many advertisements and one-third more reading.** For three weeks ending July 20, 1902, The Sunday Constitution contained again more than three times as much advertising as its nearest contemporary; or the three Sunday issues combined of The Constitution's nearest contemporary contained 99 columns, while any one issue of The Constitution contained from 103 to 107 columns of ads. That is—

Each Sunday Constitution for the past three weeks contained more advertising than the combined three issues of its nearest contemporary.

TENNENT LOMAX SERIOUSLY ILL

He Is in New Orleans Where He Went To Undergo an Operation.

ONE OF MOST BRILLIANT YOUNG MEN IN ALABAMA

Rumor in Montgomery That He Was Dead, Proves False—Suddenly Stricken with Paralysis Yesterday — Family Physician Telegraphed For.

Montgomery, Ala., August 5.—(Special.) Hon. Tennent Lomax, solicitor for Montgomery county since 1886, has been in New Orleans for a very serious operation for several days. He was doing nicely till yesterday, when he was suddenly stricken with paralysis. His condition became very serious and his family physician was telegraphed for. The news spread that he was dead and the report was handed round in a whisper. But to the gratification of his many friends the rumor proved false.

Mr. Lomax is one of the most brilliant young men in the state. He has won distinction in the profession of his choice and he has been highly honored politically and at one time was a delegate to the national democratic convention. He is now scheduled for the position of supreme vice chancellor of the supreme lodge Knights of Pythias. He is reasonably sure of election unless his condition prevents his friends from carrying out their intention of pushing their claims. Mr. Lomax is one of the finest presiding officers and he would do great honor to the position of grand vice chancellor.

Another Election Necessary.

Jackson, Miss., Aug. 5.—The primary here today passed off quietly but resulted in no election for mayor, clerk, or street commissioner, so that a second contest must be had August 8, between the two highest for each place.

E. B. Taylor was nominated for chief of police; Dr. J. H. Rhodes, physician; F. B. Neal, treasurer; J. P. Cadwallader, assessor. The second race for mayor is between William Hemingway, the incumbent, and I. C. Enochs.

For Sale of Whisky.

Oxford, Ga., Aug. 5.—(Special.)—The prohibitionists and antis are lining up for the election for or against bar rooms, which will be held in Newton county, August 18. The county has been dry for a number of years and the advocates of bar rooms secured enough signatures to demand an election.

OLD PLANT SYSTEM OFFICES.

REMOVAL TO WILMINGTON MAY CAUSE TROUBLE.

Retail Merchants Are Up in Arms, and Fight on Atlantic Coast Line May Follow.

Savannah, Ga., August 5.—(Special.)—A meeting of the Retail Merchants' Association was held this afternoon, when the question of the removal of the old Plant system offices to Wilmington by the Atlantic Coast Line and the feared removal of the railway shops was discussed. The retailers are up in arms, and there has been talk of a boycott of the Atlantic Coast Line unless the offices are again located here.

It was decided to ask the mayor to call a mass meeting, at which the sentiment of the people generally may be expressed. All the commercial bodies of the city will be called upon to aid in preventing the removal of the shops and the few offices now remaining. The merchants want those that have been removed restored.

General Superintendent Dunham, of the Coast Line, declares that the merchantss have nothing of which to complain, and that the city, because of increased business, will be benefited rather than injured by the absorption of the Plant system by the Coast Line. He says the shops are to stay here.

Summer Bulletin Issued.

Athens, Ga., August 5.—(Special.)—The University of Georgia has issued its summer bulletin. It contains the chancellor's report, the alumni address by Hon. J. H. Merrill, of Thomasville; the baccalaureate sermon by Rev. W. J. Young, of Lynchburg, Va.; the baccalaureate address of Hon. Edward M. Shepard, of New York; the report of the treasurer of the alumni endowment fund; the report of the board of visitors; the address of Dr. H. C. White on "Agricultural Education in the United States," recently delivered in Ohio, and the report of the commencement exercises. It will be mailed to each alumni of the university.

United Mine Workers.

Knoxville, Tenn., August 5.—The first day's session of the annual convention of the district No. 19, United Mine Workers, embracing mines in east Tennessee and Kentucky was devoted solely to routine business. President J. W. Howe made his annual report suggesting several changes in the by-laws. A committee on scale of wages will be appointed tomorrow. About 70 delegates are in attendance.

JUDGE J. E. BYNUM INJURED BY FALL

Eminent North Carolina Jurist May Not Recover.

SKULL IS FRACTURED AT BASE

In Attempting To Descend Flight of Stair Steps He Stumbled Over Obstruction and Fell Headlong to the Bottom—Is Unconscious.

Greensboro, N. C., August 5.—(Special.) Judge John Gray Bynum, one of the state's best known lawyers, lies in a critical condition at a private hospital in this city as a result of a fall.

In attempting to descend the steps of the Merchants and Manufacturers' Club Judge Bynum stumbled over an obstruction and fell headlong down a flight of stone steps, breaking an arm and fracturing the base of his skull. He has not regained consciousness and his physicians have little hope of his recovery. He is 56 years old.

NINE HURT BY STEAM PLOW.

THROWN FROM TRESTLE NEAR TRENTON, S. C.

While Unloading Work Train Cable Becomes Tangled and Escapes Were Narrow.

Augusta, Ga., August 5.—(Special.)—A singular and rather serious accident occurred today on a construction train of the Southern railway near Trenton, S. C. A steam plow used for unloading a flat car that was hauling dirt got its cable tangled over a trestle and the plow was dragged off the car, carrying nine men with it. J. E. Sharp, right foot badly hurt; E. A. Drake, hurt internally; L. H. Matthews, hand crushed; H. S. Gregory, leg broken and back sprained; he is probably the worst hurt of them all. The colored men were Albert Schley, Andrew Sanders, Alfred Ropley, Joe Lee, Tom Ross. None of the colored men were badly injured so far as could at first be determined, but the first two may have internal injuries. The injured men were placed in an empty box car and brought to Augusta and placed in the hospital. It is not thought that any of them will die.

TEACHERS AT NORMAL SCHOOL.

Two Hundred Are in Attendance at Athens.

Athens, Ga., August 5.—(Special.)—The special session of the State Normal school is under headway with over 200 teachers in attendance. The dormitory capacity of the school is taxed to accommodate all those who are present.

During the session a number of excellent lectures are to be delivered. Professor W. M. Parks, of Savannah, will deliver his lecture on Rome, Italy, Switzerland and Paris. Professor Euler B. Smith will lecture on "Little Things." Professor D. L. Earnest will lecture on "The Story of Creation." Miss Parrish will deliver one of her splendid lectures. Miss Alvin Smith, of LaGrange, will be one of the lecturers.

President Bronson will lecture on "Robert E. Lee, Gentleman;" Mr. A. L. Hull, on "Nature Study" and Superintendent G. G. Bond on "The Frying Pan." Chancellor Hill, Professor Sylvanius Morris, Professor D. C. Barrow and Miss M. Rutherford have been asked to deliver lectures.

FIVE LYNCHERS ARE INDICTED

Virginia Mob Will Be Tried by the Courts.

Leesburg, Va., August 5.—The coroner's jury which has been investigating the lynching of Charles Craven, colored, the suspected murderer of William H. Wilson, completed its labors today.

Craven was taken from jail and hanged and his body was riddled with bullets. The jury finds that Craven was "willfully and feloniously killed by being shot by several persons," and implicates ten persons in the affair, whose names are withheld until the sheriff can make arrangements to have them arrested.

The first arrest made was that of Samuel H. Grimes, of Leesburg, who was committed to jail for hearing tomorrow, bail being refused. Two other persons heretofore have been arrested as participants in the lynching and another who, name has been mentioned at the inquest is also in custody.

KILLED BY UNKNOWN MAN.

William Thorpe Done to Death in New York Street Car.

New York August 5.—William H. Thorpe, manager of the Road Drivers' Association Club house, on the Speedway, was assaulted today by an unknown man in an Amsterdam avenue street car, and received injuries from which he died later at a hospital. The men boarded the car together and engaged in a heated argument when the unknown man knocked Thorpe down, it is believed, fracturing his skull. Thorpe has a wide acquaintance among horsemen.

LIGHTNING BOLT KILLS TWO NEGROES

Man and His Wife Electrocuted During Storm.

CROPS ARE DAMAGED BY HAIL.

Houses Wrecked by Wind and Stores Flooded by Rain—Electric Light Plant at Mad[illegible] Almost Wrecked—O[illegible]uses Are Blown Down.

Athens, Ga., August 5.—(Special.)—Athens and this immediate section were visited late yesterday evening by a heavy rain storm, in which hail and lightning played havoc.

It was known that the rain was quite heavy and that the lightning was terrific, and yet not until this morning was the news of its destructive work known.

Near Hull there was a big hail that damaged crops severely for several miles. The fruit orchard of Colonel W. H. Martin was badly damaged. The farms near Bryant were damaged by hail.

In Oconee county near Bethabara, church Silas Jackson, a negro, and his wife were struck by lightning and instantly killed. A woman and her baby, who were in the house with them, were unhurt. Stock on the farm of J. Y. Carithers, near the same place, was killed by lightning.

In Athens a few stores were flooded and one room of W. L. Wood's residence blown off its foundations.

Damaged by Lightning.

Madison, Ga., August 5.—(Special.)—The electric light plant of this place was damaged by lightning during a thunder storm yesterday. The building was fired but the flames were extinguished. The loss amounts to about $500. Several residences in the city and county were struck but no casualties have been reported.

Houses Wrecked at Helena.

Washington, Ga., August 5.—(Special.) A terrific wind storm visited Helena, in the northern part of the county, yesterday afternoon. A portion of Arnold Bros. store was blown off and the chimney of the building was blown down. The brick crushed through the roof and ceiling. Several people narrowly escaped serious injury. The rain poured through the opening, damaging goods to a considerable extent. Out houses on the farms of A. S. Richardson and Samuel Caldwell were blown down.

One Killed; Four Injured.

Chattanooga, Tenn., Aug. 5.—A special to The News from Harriman, Tenn., says:

"During an electrical storm accompanied by heavy rain William North, a contractor accompanied by five workmen, sought shelter in an unfinished building. Lightning struck the building, killing Charles Daniels and rendering the entire party unconscious. Two other members of the party are in a precarious condition and are not expected to recover."

DETECTIVE WAS OBNOXIOUS.

ROUGHLY HANDLED BY IRATE WASHINGTON CITIZEN.

Brought There To Break Up Illicit Sale of Whisky—Proposed To Repeal City Court.

Washington, Ga., August 5.—(Special.)—The prohibitionists, being determined to break up the illicit sale of whisky here, imported a detective to work up evidence. He succeeded in procuring evidence against John L. Hill and Frank Ray. Warrants were sworn out against these parties. A preliminary hearing was had before Judge Crafton. They were released upon a $50 bond in each case. The detective, before leaving, made himself obnoxious by making remarks about citizens and one of them landed a heavy blow on his face, knocking him out. When the irate citizen had been pulled off the detective boarded an early train and left for parts unknown. It is said the detective's name was Fuller and that he hailed from Louisville, Ky. Two detectives had been here previously, but as yet it is not known what evidence was procured. It is a notorious fact that whisky has been sold here openly and boldly since the prohibition law went into effect and several citizens have determined to break it up. They have the sympathy of all law-abiding people.

A notice of local legislation has appeared in the local papers. It is proposed to repeal the city court and establish a county court. This will bring about a warm contest in the next legislature, as the city court has many friends who will make a warm fight against any interference with the court.

JAMES E. SCHOOLFIELD DIES.

Well-Known Evangelist Passes Away at Danville, Va.

Danville, Va., August 6.—James E. Schoolfield, widely known as an evangelist, died here at 12:30 o'clock this morning. He had been ill for some weeks with typhoid fever, which became complicated with other ailments. He was prominent in this city, where he was identified with important industrial developments and enjoyed the esteem and unbounded confidence of all classes. He was a prominent Mason and was at one time an officer of the Grand Commandery Knight Templars of Virginia. He was the founder of the Riverside cotton mills of this city and was for years engaged in the hardware business. He was 52 years old.

NEW CONSTITUTION THEME OF ORATORS

Grand Rally in Interest of Governor Jelks.

POSITION OF GOV. JOHNSTON

Blessings of White Supremacy in Alabama—Large Audience Hears Speeches of R. M. Cunningham and W. H. Samford at Opelika.

Opelika, Ala., August 5.—(Special.)—Hons. R. M. Cunningham, candidate for lieutenant governor, and William H. Samford addressed a large audience here tonight. Many ladies were present. The occasion was a grand rally in the interest of the new constitution and Governor Jelks and the utmost enthusiasm prevailed.

Both of the orators explained the position Governor Johnston now held on the constitution and showed his animosity to it in the past and how the will of the people had been thwarted. They claimed that he did not hold the palm for financial excellence and that under succeeding administrations a better showing had been made. They showed the benefits of the new constitution, of the blessings of white supremacy and a pure ballot they claimed that the integrity of the new constitution can alone be preserved by keeping it in the hands of the men who framed it and fought for it. It was shown that the constitution was what the people had longed for for years and viewed with grave concern any effort to have it amended or overthrown. They asked if the people should commit it to its friends or enemies, and with one accord the great audience agreed that with its friends alone could it be trusted.

COMBINATION OF LIME KILNS.

All the Smaller Concerns in South Absorbed.

Chattanooga, Tenn., August 4.—As a result of the late alleged combination between the lime kilns of the south, in which it is said all the smaller concerns have been absorbed, the price of lime has been advanced from 16 to 22 cents per bushel.

It is given out by the leading lime makers of this section that the advance is caused by the increase in the cost of machinery, wages and other expenses. They state that while the advance is a stiff one, the price heretofore has been entirely too low.

CHATTAHOOCHEE RIVER WATER

Columbus Will Use This Water for the Present.

Columbus, Ga., Aug. 5.—(Special.)—At midnight tonight the Columbus Waterworks Company cut off the water from its Holland creek reservoirs in Alabama, and the city of Columbus is now being supplied with Chattahooche river water by the company. The reservoirs of the company have almost gone dry as the result of a four months' drought, and what water is left is unwholesome and unfit for drinking purposes. Officials of the company expressed a desire to turn in river water in this emergency and Mayor Chappell today gave them permission to do so. The river water is pumped into the mains at the city mills' dam at the rate of 1,500,000 per day.

FOR RURAL PUBLIC SCHOOLS.

Commissioner G. R. Glenn Delivers Address at Talbotton.

Talbotton, Ga., Aug. 5.—(Special.)—Hon. G. R. Glenn, state school commissioner, delivered an able address on education to a large audience here today.

He dwelt particularly on local taxation for public schools, as that would give longer terms, which should be at the lowest seven months in the year.

The schools of Talbot county are in a very prosperous condition under the supervision of Commissioner O. D. Gorman.

NEEDS OF FEDERAL BUILDING.

Government Officials in Knoxville Making an Investigation.

Knoxville, Tenn., August 5.—A committee consisting of Colonel H. D. Norton, representing the postmaster general; R. V. Ladow, representing the attorney general, and George Van Nerta, representing the secretary of the treasury, is now in Knoxville to investigate the needs of the federal building here. More postoffice room is needed and a separate postoffice is wanted. This committee will also visit government buildings at Watertown, Grand Rapids, Houston, South Bend, Duluth, Lima, Jersey City and Syracuse and report to congress how best to relieve the crowded conditions of public buildings. Jersey City and Syracuse will be visited next.

LOUISVILLE WANTS KNIGHTS.

After Next Biennial Convention of the Order.

Louisville, Ky., August 5.—Armed with invitations from Governor Beckham, Mayor Grainger and the commercial organizations of Louisville, a delegation of seventy-five Knights of Pythias left at 8:20 o'clock tonight over the Monon for San Franciso to make an effort to secure the next biennial convention of the order for Louisville. Every inducement will be offered to the grand lodge and the delegation has a written pledge from the Louisville biennial committee that an entertainment fund of $50,000 will be raised.

CONTRACTOR FILES BIG DAMAGE SUIT

President T. J. Simmons of Shorter Is Defendant.

ASKS FOR FIVE THOUSAND

Berry Chesser Charges Slander—Alleges That Simmons Called Him a Thief and Forger in the Presence of Others—Case Is Unique One.

Rome, Ga., August 5.—(Special.)—Berry Chesser, a well-known contractor, has brought suit against the president of Shorter college, T. J. Simmons, for slander in the sum of $5,000 damages, $2,000 special and $3,000 general.

It seems that some time ago Professor Simmons contracted with Chesser to do certain brick mason work at Shorter college for an agreed amount. It is alleged that Chesser entered into the performance of his contract, and when partially through he abandoned the work, having, it is said, used up all the money called for upon Professor Simmon's part, but leaving the work in a most unsatisfactory condition and unfinished.

Chesser, the plaintiff in the case, through his attorneys, Seaborn & Barry Wright, brings his petition for damages in which it is alleged that Professor Simmons used the following language to the plaintiff:

"You and your brother are in a clique to rob me; you have stolen my money and you are robbing other people. I am going to put you in the penitentiary and, if I don't, I'll kill you. You have forged and made false pay rolls and I am going to take you with a warrant."

Petitioner claims that the above words were spoken in the presence of W. P. Clark and Will Benjamin, and that they are slanderous.

Chesser also claims that similar words were used upon another occasion in the presence of S. J. Barney and that all such words were used by Professor Simmons in relation to petitioner's conduct of his business as a contractor.

The suit is unique in character and very interesting on account of the prominence of the parties involved and its final outcome will be watched with much interest.

COL. R. L. BERNER'S CHILD DIES.

Death from Double Pneumonia at Gainesville.

Gainesville, Ga., August 5.—(Special.)—The infant daughter of Colonel and Mrs. Robert L. Berner, of Forsyth, died here this morning from double pneumonia, aged about 9 months.

Colonel and Mrs. Berner came here with the child nearly a month ago, the child then being in a very low condition. For a while it seemed to improve and it was thought that she would recover. Colonel Berner has been here off and on for most of the time during the month. He left for Atlanta this mornig, the child being in a much better condition last night than it had been for some time. At an early hour this morning, however, and after Colonel Berner's departure, the child suddenly became very much worse, both lungs congesting and death resulting very soon.

The body was taken this afternoon to Forsyth, Colonel Berner returning here on the noon train today from Atlanta.

Jumped His Bond.

Huntsville, Ala., Aug. 5.—(Special.)—Dave Duskin, a white man on trial in the circuit court for assault upon Delia Guthrie, white, jumped his bond today and has disappeared. Trial was stopped and a forfeiture taken against the bondsmen.

LEFT HOME TO JOIN THE NAVY.

WILLIAM KRIMMINGER DIES IN HOSPITAL AT NORFOLK.

Ran Away from Charlotte and Wrote to Parents That He Wanted To Return—Claimed by Death.

Charlotte, N. C., August 5.—(Special.)—A telegram received here by J. B. Krimminger today announces the death in the naval hospital at Portsmouth of his son, William.

Young Krimminger disappeared from Charlotte a week ago and his family knew nothing of his whereabouts until a letter was received stating that he had enlisted in the navy, was sick and wanted to come home. This morning he died. The body will be brought here for burial.

FARMER KILLS APPLE THIEF.

When Discovered Negro Used Club and Was Shot.

Henderson, Ky., Aug. 5.—Ed Rudy, colored, was shot and killed by John O'Brien, a farmer who found him stealing apples. As soon as he was discovered Rudy attacked O'Brien with a club and the latter fired, killing the negro instantly. O'Brien has not been arrested.

TRAINMEN TO GO TO SPENCER.

Charlotte Chamber of Commerce Protests Against Southern Change.

Charlotte, N. C., August 5.—(Special.)—It was learned authoritatively today that the trainmen, including conductors, flagmen, brakemen and engineers of the Southern railway, are to be changed to Spencer. Most of the men have homes and families here and a great hardship will be wrought. The chamber of commerce will protest against the change.

BULLET PLOUGHED INTO VITALS

Y. A. Gay Killed by Accidental Discharge of Pistol.

Griffin, Ga., August 5.—(Special.)—Y. A. Gay, aged 26, was killed at Woolsey by the accidental discharge of his pistol. He had the weapon in the breast pocket of his coat and as he stooped for something it fell, exploding a cartridge, the bullet striking him in the breast and ranging downward. He leaves a widow and one child.

MISS JESSIE WALL FOUND IN FLORIDA

Disappeared from Her Home in North Carolina.

LOCATED BY HER RELATIVES

They Decline To State Exact Location—Plucky Woman with Gun in Hand Prevents Erection of Telephone Pole Near Her Residence.

Greensboro, N. C., August 5.—(Special.)—Miss Jessie Wall, of Randolph county, the beautiful young girl who mysteriously disappeared from her home seven weeks ago last Sunday, has been located.

Relatives of hers who were here today said that they had just learned that she was in Florida. For reasons of their own they declined to state precisely where she is, though they know the exact place. When the young woman left her home she left a note in her room saying that she would neither destroy nor disgrace herself. The relatives say that they have positive assurances that she kept her promise.

Woman Would Use Gun.

Linemen of the Greensboro Telephone Company sought to erect a pole here today against the wishes of Preston Scott. Scott was away from home. His wife, with a shotgun in her hands, forbade the linemen to proceed. For fear they would plant the pole in her absence she went into the excavation and with her gun by her side stood guard until the linemen gave up in despair and left.

Benedictines in Convention.

Atchison, Kans., Aug. 5.—The triennial meeting of the Benedictine Order of the United States opened here today. Tomorrow will occur the celebration of the jubilee of Right Rev. Innocent Wolf, who has completed 25 years as abbot. The double occasion has brought many Catholic dignitaries of the Benedictine order from all parts of the United States.

VIOLET RAYS DEFY GRIP OF CONSUMPTION

Cures That Rival Those of 2,000 Years Ago.

The Blind are Made to See; the Lame to Walk; the Rheumatic, Paralytic, Nervous and Dyspeptic Cured in a Most Remarkable Manner By This New System.

THE NEW LIGHT CURE.

So much has been written and said about this new system and the almost miraculous cures performed that it has become the craze all over Europe and America. Dr. Finsen, of Copenhagen reports over 800 cures in two years, the majority of which had been given up and pronounced incurable by all other methods. Dr. Jansen, of New York, now medical director of the southern branch of the American Violet Ray Institute, located in the Lowndes building, has visited Dr. Finsen's institute in Copenhagen and made a thorough study of the Finsen system in every detail. He has devoted his entire time to Electro and Photo-Therapy for four years, and has made hundreds of cures that border onto the miraculous.

Indorsed by Queen Alexandra. The New Light Cure has been investigated by the Queen of England and received her royal patronage, and has also received the patronage of some of America's most prominent citizens.

The Atlanta Institute is the most thoroughly equipped institute in the U. S., embracing Electro-Therapy, Photo Therapy and Ray Therapy. All sufferers from Chronic Rheumatism, Blood Disorders, Locomotor Ataxia, Bright's, Diabetes, Obesity, Neurasthenia in all its forms, Catarrh, Consumption and all wasting diseases will find relief in this new and most wonderful institution.

The "Black Terror" in Boston.

A few days ago the governor of Massachusetts, following the advice of some of his sentimental neighbors who see in negro criminals only angels of light, declined to honor the requisition of a southern governor for a negro criminal on the ground that he might be harshly dealt with. The refusal may not have been expressed in exactly those words, but that was the support. There was a breach of comity between the sates and of law, and all for maudlin senti-

The first fruits of this act have already been gathered. Right in the heart of Boston town there is great excitement over the depredations of negro criminals. The Boston Post tells with glaring headlines:

GIRLS ASSAULTED BY "BLACK TERROR."

TWO ATTACKS IN FRANKLIN PARK —POLICE AROUSED.

Assaults on girls by colored men have become so frequent during the past week or two that in some sections of the city the women are in a state of terror, and the police of some of the divisions are in a condition of frantic activity.

In Cambridge, in the south end, and in the Franklin park district the "black terror," as the colored assailant has come to be called, has caused a feeling of panic among women who have occasion to be out after dark. The chief scene of activity last evening was in the Franklin park district, where two girls were attacked.

The details of these two assaults in Franklin park district show them to have been exactly like similar assaults in the south. In both instances the assailants made their escape. The accounts in all the Boston papers tell of great excitement and terror on the part of women living in different sections of the city. "The streets of Old Hombridge were almost deserted last evening," says The Post. "The several assaults which have occurred in the city of late have frightened people. The officers on the routes in that district report that they saw but few people on the streets after 8 o'clock."

One negro was convicted for a criminal assault upon a white woman—not the negro involved in the above cases, for this one was in jail at the time the other assaults occurred. The Post tells the story of the crime, the arrest and the punishment:

Yesterday he was arraigned on two charges, assault and intoxication. On the former charge he was sent to the house of correction for two months and on the latter charge was convicted, but the case was placed on file.

Two months in the house of correction for a criminal assault upon a white woman! The courts of Boston seem to be becoming severe. Will these judges be called to account by Boston "best thought," or will the sentimentalists resort to the simpler method of getting a pardon for the negro from the governor?

House Bill 15,109.

The real significance of that Iowa tariff plank, which has called forth from the republican organs so many attempts to explain, is laid bare by The New York Sun, a paper whose loyalty to the tariff, the trusts and the republican party cannot be questioned.

The Sun does not agree with those of its republican contemporaries which claim that the tariff reform declaration of the Iowa republicans means nothing at all. The Sun quotes the Des Moines platform calling for "any modification of the tariff schedules that may be required to prevent their affording shelter to monopoly," and calls the attention of Iowa republicans to house bill No. 15,109, now before the ways and means committee, which "seems to respond pretty nearly to the suggestion contained in the Iowa republican platform." This bill puts on the free list all articles and commodities manufactured and controlled or produced in the United States by a trust or trusts, and reduces the rate of duty on any article or commodity manufactured in the United States and sold in a foreign country more cheaply than in the United States. In order that there may be no misunderstanding with regard to its provisions, The Sun quotes the bill in full, as follows:

Be it enacted, etc., that when it is shown to the satisfaction of the president and secretary of the treasury that articles and commodities are manufactured and controlled or produced in the United States by a trust or trusts, the importation of such articles and commodities from foreign countries shall be free of duty until, in the opinion of the president and secretary of the treasury, such manufacture, control or production shall have ceased.

Sec. 2. That when it is shown to the satisfaction of the president and secretary of the treasury that any article or commodity which is manufactured in the United States is sold in a foreign country more cheaply than the price at which the same article or commodity is sold in the United States, the rate of duty on such article or commodity shall be reduced by the president and secretary of the treasury 50 per centum of the present rate, or to such extent as to prevent the continuance of such irregularity and injustice, and remove the indirect tariff bounty which promotes the same.

This, The Sun points out, seems to meet the demands of the Iowa republicans as expressed in their platform. Was it fathered by the distinguished Iowan who is speaker of the house, or by any of the members of the solid republican delegation from Iowa? The Sun has endeavored in vain to find the name of any of these gentlemen connected with the measure. It says:

If the truth must be told, this trust tariff bill, which seems to be the practical legislative twin of the theoretical suggestion advanced by the Iowa republicans, was conceived and proposed by no other person than the Hon. James D. Richardson of Tennessee, the leader of the democratic minority; and, so far as democratic opinion can be said to be formed and established on any subject, this measure represents that form and that establishment.

There can be no question that The Sun has diagnosed the case perfectly. The resolution which the Iowa republicans put in their platform to meet the popular demand is democratic. The people of Iowa have acquired the habit of allowing themselves to be fooled by the republican party and they will roll up an old-time majority for the ticket this fall in the belief that this platform declaration indicates a purpose on the part of the republicans, if continued in power, to reform the tariff upon democratic lines. But the people of other states may not be so easily gulled. They know that a republican tariff is a trust-made tariff, and that the only possible way to secure the reform they desire is through democratic legislation.

The Great Nile Reservoir.

An event of momentous importance to Egypt is chronicled in the announcement that the last coping stone of the Nile dam at Assouan has been laid.

The construction of this Nile dam will mean great things in the development of the agricultural resources of Egypt. The Nile reservoir, with its dams at Assouan and Assoiut, is expected to enable wide tracts of land to bear two crops a year and will materially increase the sugar cultivation area in the Nile valley. It is claimed that the reservoir will supply one billion bubic meters of water annually for irrigation purposes. The primitive methods of irrigation will, when the entire works have been completed, be superceded with a system worked out under the direction of the most skilled English engineers. The total cost will be $24,000,000.

This Assouan dam is one and a half miles long and is pierced by 180 openings twenty-three feet high and seven feet wide. These are equipped with steel sluice gates by means of which the flow of water into the canals which carry it to the irrigated lands can be perfectly controlled. It is expected that the dangers to property from the Nile overflows will be to a high degree eliminated and that great addition to the vovlume of cultivable land will prove the construction of the reservoir by the Egyption government the best possible investment.

While the work has been done by English contractors, the labor employed has been Egyptian, more than sixteen thousand natives being continuously employed upon the works at Assouan alone.

Ireland and His Critics.

We have no doubt that Archbishop Ireland feels perfectly secure of the indorsement of the vast majority of the Catholics of this country in the issue drawn between him and his critics. Not only is he certain that the priests and communicants of the church will agree that there is no occasion to doubt that the pope has, in the negotiations with Governor Taft, at Rome, carefully safeguarded the interests of the church, but he may rest assured that his own attitude in the present controversy meets the hearty approval of all conservative men in this country.

The archbishop has been criticized because he has supreme confidence in the wisdom of the vatican, and says so. He feels certain the pope and his advisers at Rome, being familiar with conditions in the Philippines through long knowledge of the needs of the members of the church in those islands, are in a better position to act for the church than people in this country who know absolutely nothing of the islands and whose opinions have been influenced by a lot of misrepresentations sent from the islands by persons whose ignorance has been proven. He is not only confident that the pope is in better position to safeguard the interests of Philippine Catholics, but that his holiness has the interest of these people at heart as sincerely as any other member of the church can have.

The men who take issue with Archbishop Ireland and seek to stir up strife in the church seem to have assumed to themselves not only greater knowledge of conditions in the Philippines than is possessed at Rome, but also a greater loyalty to the church than is possessed by its head. They cannot, however, hope to impress their fellow churchmen with their right to be heard so long as they indulge in sneering criticisms of Archbishop Ireland as one who "wants to be the Richelieu of America," one who "sees in the formation of the American Federation of Catholic Societies a menace to his ambitions," any more than they can hope to impress their superiority of knowledge by the assertion that there is an inhibition, constitutional or legal, against a Catholic becoming president of the United States.

We would regard the present controversy unfortunate for the church if we believed it possible that the men criticising Archbishop Ireland were likely to secure any sort of a following. As it is, however, their criticisms will only serve to emphasize the wisdom of his advice. The Philippines complications will be wisely solved by the representatives of the church acting with the American authorities. Catholics certainly have no reason to doubt the loyalty of the pope to the interests of the church.

Some Disadvantages of Genius.

The real compensations usually come to genius after death; troubles come, and come plentifully, in this life.

Mr. Kipling is one of the few geniuses to have the satisfaction of enjoying general recognition during lifetime, and despite the air of apparent indifference he carries about him, it is pretty certain he appreciates the sweets of fame. He is too genuine not to do so.

But Mr. Kipling has his troubles, too. There was a brother in law once—but, as the historian of the "Soldiers Three" would say, that's another story. The brother in law is apparently out of his life for the present, but there are others.

Mr. Kipling has been making his home at the lovely and quiet English town of Rottingdean. He took a house there because it was a spot enshrined in peace and there seemed no possibility of his literary labors being disturbed. Hardly had he got settled, however, before the tourists and curiosity seekers began hunting him down, and he has had to flee before them.

Their methods, as told in The Pall Mall Gazette, were peculiarly annoying. They have been coming from all around, coming in select parties and in droves, to see the house where "the man who wrote 'The Recessional'" lives. Kipling would meet them in his walks along the village street, and they, not recognizing him, would insist upon his pointing out his own house to them. They would drag chairs upon the village green and standing on these peer over his garden wall. They would lasso branches of his overhanging trees to get twigs to take home with them as souvenirs. They would lie in wait in the shadow of the church yard wall to snap-shot him as he passed.

Finally it all became so unbearable that he pulled up stakes and sought a more secluded spot. He has longed for a quiet home, where he might work in peace and where his family might have a real abiding place. He thought he had found the ideal place when he settled in Vermont, but the brother in law fly got into the ointment there and he had to move; now it is a fly of another sort, but just as annoying. Is there no rest for genius anywhere?

General Jakesmith might ameliorate his condition by showing that he deemed it his duty to back up the Otis typewriter and the Taft proclamations ending the war in the Philippines. They certainly needed his help.

Senator Dolliver now has the most delicate job of his life in trying to elucidate the loyalty of the Iowa platform in eastern Dingley districts.

The mention of Judge Alton B. Parker as a presidential possibility cannot be taken seriously as long as it is unaccompanied by his portrait.

It looks as if peace in South Carolina politics will be impossible until Charleston is able to annex to herself the remainder of the state.

The New York Sun, with due apologies to the president, is making Littlefield's anti-trust act look like a ballyhoo turn on the free midway.

Any man with no prospect of carrying his own state will have a poorer prospect of controlling the next national democratic convention.

Wu Ting-fang is to remain a while longer in our midst and is still available for banquet programmes and women's club orgies.

Minister Buck's suave Georgia brand of diplomacy will probably save us from a fracus with Japan over that bum Pacific island.

Admiral Crowninshield is the hoodoo of the navy, and ought to be ordered not to go near the land while in command of a ship.

The successful pulling off of a lynching in sight of the national capitol has relieved the summer syncope in that vicinity.

The striking miners will strike the root of their troubles when they conclude to strike the republican party and its trusts.

Chairman Babcock ought to put up a sign over his headquarters reading, "All kinds of twisting and turning done here!"

Chairman Babcock is now engaged in the great feed-time act of swallowing his anti-trust record without the aid of vaseline.

Thinking of Old Times.

I.

A feller falls to thinkin' of the times that used to be
In the green fields an' the meadows an' the old-time homes of Lee;
An' he hears the corn blades rustle, an' the sighin' of the pines,
An' the winds that whispered sweetly to the honeysuckle vines.

II.

Across the reaped fields yonder he sees the gray doves fly,
An' the mockin'birds are singin' as in happy days gone by;
An' in twilight shadows solemn, across the misty hills
He listens to the callin' of the same sweet whippoorwills.

III.

Old scenes—they rise before him; old stars, they shine again,
An' he feels his eyes run over like a river after rain;
For what are towerin' temples, with domes as white as snow,
To the cots where Love found shelter in the lands of long ago?

IV.

So, a feller falls to thinkin' of the days that died away
An' left a life in winter, that had reaped the blooms of May;
An' old places, an' old faces through all time will dearest be—
The green fields an' the meadows of the dear old land of Lee!

Where the Rough Way Ends.

Weary the toil, my dearie,
But the twilight time descends,
And the stars bring dreams
With their golden beams;—

But 'tis soon laid down
For the victor's crown:—
There's rest where the rough way ends.

Real Estate Poem with a Moral.

A Florida poet, whose mind takes a practical turn, sends in these stanzas from a provincial town in that state:

"Beneath the blue of heaven,
On the date of August 2,
A barbecue was given
To friends and settlers new.

"Their daily toil forsaking,
They came from far away;
Considerable speech-making
Was the order of the day.

"Of land there was great selling,—
The foremost man did win:
There really is no telling
What dash was taken in.

"Oh, friends, and gentle neighbors,
Of all the climes and nations,
Let Love reward our labors,
As Paul said in Galatians!"

LETTERS FROM THE PEOPLE.

Plea for Better Rural Schools.

Editor Constitution: I read with a great deal of pleasure and profit an article in your issue of July 26 by S. R. Blanton on "Compulsory Education for Boys on the Farms." He hit the nail on the head in every sentence and I agree with him in his remarks about the unfavorable conditions of the rural schools.

As a teacher of country schools, I am pretty well acquainted with conditions that surround them in this part of the state. The time has come when something must be done to place more liberal advantages in reach of the country boys and girls. The farmers are the backbone of every country and the laws and ideals of no nation surpass the knowledge of this great ruling class.

It may be that compulsory education, as Mr. Blanton suggested, will partly solve the problem, but it will take something more than stringent laws to reach the sympathies of and stir up enthusiasm among the masses. It will take a general crusade against ignorance, backed by brain, tact and skill. In other words, the people must be educated to the place where they will realize that their children can never succeed in life without at least a thorough common school education. The children of this generation will witness great competition for the responsible positions and the wisdom of the Darwinian adage, "The survival of the fittest," will be more completely proven. The illiterate man must take a back seat and look on in a bewildered way at the enterprises of men.

We must have more commodious, more comfortable, better heated and better ventilated school houses. The pitiable conditions surrounding south Georgia schools, as described by Mr. Blanton, obtain in many counties in north Georgia. The school houses in Bartow county are in better condition and the schools more healthy than in any county in this part of the state that I have visited. Many new school buildings have gone up within the last three or four years, all nicely painted, well heated and ventilated. The property on which nearly all of these buildings stand is deeded to the board and in return it paid one-third the cost of erection. This financial aid helped a great deal. Every county in the state should do this.

The school term should be increased to seven months. These short term schools will never educate the people. It would be a wise investment for the state to advance money for two more months each year. She would be repaid in intelligent voters and in the helpful influence of intelligent citizens.

The teachers must be paid more. No young man will consent to spend $1,000 or $1,500 to properly equip himself for the profession of teaching, one of the most noble on earth, when he knows it will take him in ordinary country schools ten years to pay it all back. Most of the ambitious young men are avoiding this profession because the work is so short and at present unattractive, and the pay so poor. There must also be a revolution in the character of most of our text books. The price must be reduced, they must be more compact, more practical or our short term schools will be of little advantage in equipping a boy to enter real life.

I trust Mr. Merritt will direct his efforts to the betterment of our country schools, and I believe he has wisdom enough to help a great deal. The city schools are in a very commendable condition. It is in the rural school system that needs to be revolutionized.

The laurel wreath of honor and the everlasting gratitude of a great army of teachers await the legislator who has wisdom and statesmanship enough to contrive a public school system that will meet the demands of this progressive age. When this is done our future farmers will mix brain with their soil, happiness and intellectual enjoyment will fill their homes; they will gather inspiration from the things of real life, breathe enthusiasm into their work, widen their horizons, prove an honor to their country, patent factors of civilization and then "milk and honey" will flow freely in Georgia.

VERNER VINCENT.

Ligon, Ga.

WITH THE STATE PRESS.

A Sure Sign.

Macon News: Morgan wants to invest in southern railroads. Now we know the south is progressing!

The Convict Lease System.

Exchange: The present convict hire system is the best that Georgia has ever had. The condition of the convicts is better. They fare better, receiver better treatment and more consideration and are better provided for. The revenue for the state is $200,000 per year according to this last quarter, and the present system is better for the convicts and better for the state.

The Railroad Merger.

Savannah News: It is of course impossible to foresee what the outcome of the conferences between the representatives of the big railroad systems of the south will be, but it is practically certain that nothing definite will be done until the government's injunction suit against the Northern Securities Company is decided, because it is probable that a company, similar to that company, is a part of the proposed merger scheme.

Tribute to Money.

Savannah Press: Undoubtedly the majority of the human race pursue money and in some degree love it. It is a universal necessity. Mortals have to eat, be clad and sheltered. Rents have to be paid and taxes also. Money is desirable, not because it has any intrinsic value of itself, but because, by law, it exchanges for anything else in the material universe. It brings power and influence. It commands labor and attracts friends. Even the church, on the human side, depends upon it. We once heard a clergyman say that you could not get to heaven without money—that is, unless proper use were made of it. It opens every door and confers every favor except health and happiness, which may be lost in its quest. Used nobly, it is an honorable distinction and a true gift of God. Abused and desecrated, it is the fiercest weapon in the devil's arsenal.

Food for Thought.

Waycross Herald: The buying, packing and shipping of 1,500 barrels, 4,500 bushels, of pears from Waycross by an eastern firm furnishes food for thought. It affords a text from which a lengthy sermon on southern neglect, carelessness and thriftlessness might be preached. But the gist of the argument is obvious to all, it needs no elucidation. We waste what a yankee community would live upon; we throw away thousands of bushels of vegetables and fruits in their season and when they are gone, buy the canned goods put up by our considerate northern friends who know that we must have them. Corn from Maine, peaches from Jersey, tomatoes from Maryland, and even sweet potatoes raised and canned in Massachusetts have been sold in the Waycross market. We are sleeping over our rights and throwing away our opportunities. We must turn over several new leaves if we would be independent, and as the natural outcome—happy.

TALKS ABOUT ATLANTA.

Macon News: Atlanta seems to have some cosmopolitan robbers.

Ellijay Times: Atlanta is arranging to have a most interesting fair this coming fall.

Washington Chronicle: Captain Carter is to be transferred to a more congenial climate—Atlanta.

Savannah Press: Atlanta folks complain of a dog nuisance and clamor for partial extermination. A barking dog is a good one—when dead.

Elijay Courier: Atlanta's new sky-scraper hotel will be one of the finest and best upholstered hotels in the southern states. Beat Atlanta, if you can.

Columbus Enquirer-Sun: Atlanta is happy in the belief that it is free from the dangers of earthquakes. However, it has a three-cornered mayoralty fight on its hands.

Washington Chronicle: Savannah has a new passenger station. Augusta will soon have one, while Atlanta continues like unto the label on the bottle—all around it, but not in it.

Augusta Herald: It seems that Atlanta has a surplus of "daffy" folks. This state of affairs was probably induced by too much worry trying to locate the Bobby Walthour hoodoo.

Acworth Post: The Atlanta police are on the lookout for a dog poisoner in West End. If they get too hot after him we would be glad to have him come here and spend a few months provided he would work at his trade while here.

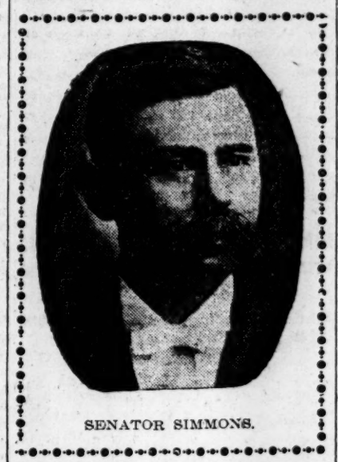

SENATOR SIMMONS AGAIN CHAIRMAN

For Fifth Time He Is Elected by Democrats.

HE WAS GIVEN AN OVATION

North Carolina State Executive Committee Holds Enthusiastic Meeting at Raleigh—Alex J. Field Selected as Secretary.

Raleigh, N. C., August 5.—(Special.)—The meeting of the democratic state committee late this afternoon was fully attended. Senator Simmons was elected chairman for the fifth time by acclamation and a rising vote. He was given an ovation and made a stirring speech. He declared the party was never in better fighting shape in North Carolina.

SENATOR SIMMONS.

P. M. Pearsall, secretary to the committee, being unable to serve longer, was thanked by a rising vote for his services and the chairman was informed to select a secretary himself. He chose Alex J. Field, of Raleigh. A central committee of forty members was chosen.

Prizes Will Be Awarded.

Quitman, Ga., Aug. 5.—(Special.)—It will be remembered that during the Press convention here two prizes were offered for the two best articles on Brooks county and Quitman by the delegates; the first prize was six Brooks county hams and the second a barrel of Brooks county cane sirup. The board of trade was to receive copies of the weekly papers containing the articles and a committee was appointed to act as judges. The papers have been coming in by hundreds and the judges are kept busy examining the articles and grading them. The contest has narrowed down to about two dozen and the result will be announced in a few days.

FLASHES FROM THE CABLE.

There were earthquakes yesterday at Genoa and Pisa. The shocks lasted a few seconds and were accompanied by subterranean rumblings. No damage was done.

The steamer Wordsworth, Captain Graham, which sailed July 19 for South American ports, has stranded about 40 miles north of Bahia. Assistance has been sent.

The first reports of the accident to Former Secretary and Mrs. Don Cameron, of Pennsylvania, appear to have been greatly exaggerated. Mrs. Cameron has telegraphed that she and her husband were only slightly injured.

The Most Rev. Robert MacHeray, archbishop of Rupert's land, is seriously ill in London. Archbishop MacHeray is archbishop of all Canada, chancellor of the University of Manitoba and delegate of St. Michael and St. George.

A body of Siamese troops numbering 2,000 men has been sent north to punish the Shans, who recently attacked and seized the town of Phrae. The town is now in possession of 600 Shans, who are preparing to resist the forces sent against them. The Shans have killed twenty-five Siamese officials, but have not molested any of the other inhabitants of the town.

SPARKS FROM THE WIRES.

Hunter Sharp, of North Carolina, has been appointed by the president as interpreter of the United States consulate at Kobe, Japan.

The governing committee of the New York stock exchange today decided to close the exchange next Saturday in honor of the coronation of King Edward.

At Newark, N. J., Vice Chancellor Stevens has ordered the public sale of the assets of the Automobile Company of America. The company's liabilities amount to $210,000.

At the general offices of the Santa Fe railway it is announced that the strike of boiler makers at San Bernardino and The Needles, Cal., which has been on since May 28, has been settled.

A heavy wind storm that swept over St. Louis wrecked two of the four towers of the Varied Industries building, in course of erection on the world's fair site. The towers were 200 feet high. The damage is not yet estimated.

The contract for the construction of the liberal arts building has been awarded by the Louisiana Exposition Company for $475,000. The building must be completed by April 1, 1903, in time for the dedicatory ceremony of the exposition.

Fire has destroyed the boiler house, engine house, two power houses, tipple, half a mile of tramway and half the box cars at Peerless mine in Aguilar, Colo., owned by the Northern Coal and Coke Company. The loss is estimated at $100,000.

At Chicago, the striking blacksmiths and their helpers who threatened to tie up work at the Pullman car shops decided today to return to work for 10 days, pending the settlement of their grievances by arbitration. The officials of the company promised that their difficulties should be overcome.

The German army and navy veterans have decided to hold the next annual meeting at Terre Haute, Ind. The election of officers resulted: president, William E. Embs, of Pittsburg; vice president, Julius Franz, Dallas Texas; secretary, Mylius Langehahn, Cleveland; treasurer, Martin Gas, Cincinnati.

One thousand delegates to the annual convention of the Photographers' Association of America are in session at Buffalo. A. N. Griffith, of Detroit, welcomed the delegates, and the president, George M. Edmonson, of Cleveland, made his annual address. The members of the association have placed on exhibition hundreds of photographs.

Archbishop Riordan, of San Francisco, has arrived in New York, accompanied by his legal adviser, en route to The Hague. The archbishop will appear before the international court at The Hague in the claim which he has brought against the republic of Mexico for the payment of the interest of California's Pius fund. The sum involved is nearly $1,000,000.

BIG IMPROVEMENT IN CROP PROSPECT

Frequent Showers Reported in North Carolina.

DIVERSITY IN CONDITION

Ample Rains in Close Proximity to Continuous Drought—Corn Is Much Better Than Expected. Other News Notes of Interest.

Raleigh, N. C., August 5.—(Special.)—The crop and weather report for this state for the week ended last night was issued today. It was:

Reports of correspondents indicate considerable improvement in crop prospects, as a consequence of frequent showers, although the rainfall was local in character. It is remarkable that ample rains have fallen in some sections in immediate proximity to others which have suffered from continuous drought, bringing about extreme diversity in the condition of crops. Rains occurred over many counties on three days of this week, especially July 31 and August 1, which were highly beneficial. The counties chiefly suffering from severe drought are, in the east, Nash, Duplin, Bladen and Wilson; in the central portion of the state, Richmond, Alamance, Rowan, Cabarrus, Iredell, Yadkin and Clay. In these all crops have suffered for want of sufficient moisture and have undoubtedly been considerably injured. Where showers occurred crops revived wonderfully, but a general rain over the state is needed. The temperature during the week averaged about 3 degrees above normal, with maximum temperatures over 90 degrees on several dates.

In some localities local rains came too late to make a full crop of old corn, which was too much injured by drought to fully recover, but young corn has greatly improved; in many counties both early and late corn are reported to be in very fine condition still and promise a large yield, as the ears are filling well. Saving fodder on forward corn has begun. Cotton has not been seriously injured by drought, and where showers fell its healthy appearance has been restored; it is forming bolls rapidly; in the drought stricken sections shedding continues and rust has appeared. Tobacco is being cut and cured rapidly, and on the whole is curing well, but some farmers have been obliged to cut green to prevent firing, and this will give a light crop. Peanuts look fairly well; sweet potatoes will be late and short; rice is heading; threshing wheat is practically completed. Special reports on fruit indicate generally a very inferior crop; peaches are scarce; apples knotty and inferior, and the late apple crop continues to fall from the trees; pears are somewhat better; grapes are very fine and are coming into market in abundance.

North Carolina News.

The Illinois Life Insurance Company, which recently reinsured the Kentucky Mutual Life, applies for admission to this state.

Ex-Chief Justice James E. Shepherd, of Raleigh, and George Rountree, of Raleigh, leave in a few days for Pierre, South Dakota, to appear in the very notable case in which the state of South Dakota seeks to force North Carolina to pay the full principal and interest on certain bonds issued in aid of the Western North Carolina, which bonds were scaled under the act of 1879, "commuting, consolidating and settling the state debt."

It is asserted that Rufus H. Horton, of Raleigh, is the holder of the world's record for the longest term of consecutive service as a locomotive engineer. He served fifty-six years and eight months.

Professor W. F. Massey, of the horticultural department, goes to Athens to speak on the 16th at what he terms a wheat and corn show.

While various communities are being paraded as the "banner" democratic county or township, the township of Steele Creek, in Mecklenburg county, must not be overlooked. It is asserted that it has never contained a resident who was a republican or populist, and that only one resident over 21 years of age is unable to read and write.

State Auditor Divon has gone on a tour which will last two weeks and which is in the interest of the great educational movement now so earnestly begun in North Carolina. It is to be pressed in every county.

Duncan McEachern (pronounced McCairn) was here today from Moore county, and was asked what had become of the "Crofters" from some of the Scotch isles, who to the number of 135 emigrated to North Carolina in 1888, following that other notable migration of Scotch headed by Flora McDonald, to this state in 1746-7. He said that all had returned to Scotland save one family, that of McTavish, which lives at Linville, up in the Blue Ridge, the coldest spot in the state where a weather record is kept. The remainder of the Crofters were seized with a desire to go home again, so money was raised for them and their passage paid. They were, he says, a most impracticable folk, used to fishing in a cold country, and their transplanting to the warm sand hills of North Carolina did not suit them.

The commissioner of agriculture has completed the arrangements for holding a series of farmers' institutes in the Piedmont section, beginning August 14.

State Entomologist Sherman reports that the clover leaf beetle is doing damage to trees in Charlotte and Winston. He finds that spraying the trees at the time the leaves fully expand is a preventive. Another spraying later in the season is recommended also.

Louis N. Glidrart, editor of The Insurance Herald, of Atlanta, is here. He is much pleased with the operations of the new North Carolina insurance law, and also the new law to prevent and punish incendiarism. Both laws are working admirably.

Newton Fire Insurance Company.

Oxford, Ga., Aug. 5.—(Special.)—At the annual election of officers of the Newton County Fire Insurance Company which was held today at Covington, Judge J. M. Belcher, ordinary of the county, was elected president; L. D. Adams, secretary and treasurer. The company has just passed through the first year of its existence. The patrons and stockholders pronounce it an unqualified success. The company is capitalized at over $100,000. It assumes risks only on buildings outside of the incorporate limits, and takes those which are refused by the old line companies. Losses are met by the cooperative plan, each stockholder paying proportionate to the amount of stock held.

LEADERS OF THE RACE DIFFER IN THEIR VIEWS

Bishop Turner Calls Professor Sledd a Humanitarian--R. D. Stinson Says Article Was Unfortunate.

Three of the leaders of the negro race who live in Atlanta were seen yesterday and asked to give an expression of opinion as to the article on the negro by Professor Andrew Sledd, which appeared recently in a northern magazine.

Bishop J. W. Gaines was approached on the subject, but said that he preferred not to give expression to an opinion.

Bishop H. M. Turner, in the following interview, states that he believes Professor Sledd is a creature of providence and intended to do good.

R. D. Stinson, collecting commissioner for Morris Brown college, states that he believes the article has done harm to the negro race and that it was inopportunely written.

R. D. STINSON, collecting commissioner of Morris Brown college, well known as a leader among the negroes, and a man who stands for the best interests of his race in the matter of advancement and enlightenment, when seen yesterday in regard to the recent article on the negro by Professor Andrew Sledd, said:

"Just at this time it is dangerous for a man in the position of Professor Sledd, or for any other southern white man, to write an article like that which Professor Sledd has written, for this reason: The northern people oftimes use arguments put forward by dissatisfied and disgruntled white men and negroes to force a point that is at issue between sections, and for the further reason that the negro attempts to feel that he is to profit by such discussion and criticism every time he thinks he is injured.

"The article in question has in my opinion done harm to the negroes right here in Atlanta. Now those of my race all know that there is no representative of the race who stands more distinctly than I do for the best interests of my race. I am a negro and am always on the lookout for that whereby my race may gain something.

What Is the Gain?

"When the world has finished reading the statements of this critic, what is the negro to gain by them?

"If a man persistently tells you what your rights and privileges are according to his ideas, and awakes in you all the emotions of your being to the high sense of what belongs to you, and does not tell you how to obtain it, and you cannot do it yourself, I do not see the real good that is accomplished. We may in this light look well to what has been said in this article.

"The negro is in the south to stay, here he will live and die, and to enjoy whatever privileges he can and must enjoy demands that he seek to be friendly with his neighbors, and any sort of friction where the negro is made a party must evidently be hurtful to him from whatever point it is viewed.

"There is not a white man or colored man in the south that keeps abreast with the happenings of the times but who knows that great improvement is being made throughout the south in seeing that justice is meted out to every citizen, whether white or black. Officers of the law have been urged to protect persons held in custody by them, no matter what the giving of that protection costs.

Lawlessness Denounced.

"The newspapers of the south have been outspoken, and none more so than The Constitution, in denouncing lawless bands and the reckless conduct of persons who participated in such scenes as those enacted when Sam Hose was lynched.

"We can no more judge all white people of the south by the conduct of a few in certain localities than we can judge all the negroes of the south by their actions in certain localities. The environment of a people has much to do with the actions of that people.

"The negro can no longer give ear to these sensational statements, whether they come from white men or black men, but must remember that when the storm is all over, that we will still be in the south, where our interests are and where we will be buried.

"Property is being acquired in the south by black men; for him the best educational facilities are here to be found, and church-going opportunities abound. Here in the south ignorance among the negroes is being removed, law and order is being accepted by all thoughtful people of the race.

"And speaking of the advantages the negro has here for material prosperity, there are not a few of the best business firms in this city that will handle the paper of an honest colored man in a business transaction as quickly as they will a white man's. Hundreds of colored men in this state can negotiate notes and do business at the leading banks. The negro has rights and privileges in the south, and these rights and privileges are respected by the white men."

BISHOP H. M. TURNER, when seen yesterday in regard to the article on the negro by Professor Sledd, and asked for an expression of opinion by him, said:

"Now remember that I am a negro, and that I am an advocate of the separation of the races.

"I am not surprised that the position taken by Professor Sledd has excited the country, for he has taken a new and novel position for a southern white man, but God will raise up other southern men who will speak out along the same lines and who will be even more radical than he appears to be.

"The United States government, from the supreme court on down, has stripped my race of all its civil rights. When the supreme court rendered its decision of May 16, 1896, whereby it stripped my race of all rights under the law save those which the state gives it, my race was done a great injustice.

Lines Tightly Drawn.

"Personally I do not believe that millions entertain such radical views as those held by Professor Sledd, but the lines are drawn so tightly between the white and black man in this country that those who disagree with Mr. Sledd when he says that the negro has no rights or privileges will not hazard their reputation by taking sides with the negro sufficiently to rise up and make an effort to put down these drunken lynchers and reckless mobs which do exist and which I have seen with my own eyes scouring the country in their search for a negro to lynch.

"Two-thirds if not three-fourths condemn lawlessness, whether perpetrated upon the negro or any one else, but they have not the courage to speak out and act if the victim is black.

Would Withhold Opinion.

"I do not care to express any further opinion upon the question at issue, for the best white friends I have on earth are southern people with whom I was raised and have been associated all my life. I care to say nothing that will alienate their good will, and were I to express an opinion either commending the statements of Professor Sledd, or taking exception to his position I might diminish that friendly feeling which exists.

"I will say this, however. I believe that Professor Sledd is only showing himself a humanitarian, and while he may have used some expressions and given utterance to some opinions that will provoke a difference of opinion, yet he is a creature of Providence and meant to do the southern whites no harm, but to assist the lowly who are in need of help.

"The only solution of the negro problem is separation, for the white man will not consort with the negro on terms of political or social equality. The government should assist in this separation, must assist in it and shall assist in it."

DAUGHTERS OF CONFEDERACY.

Tennessee State Division Meets at Monteagle.

Monteagle, Tenn., August 5.—The state division of the United Daughters of the Confederacy met here today with notable women in attendance. Mrs. Matthew McClung, of Knoxville, presided. Mrs. John P. Buckman, of Nashville, recording secretary of the United Daughters of the Confederacy since its organization, delivered an address on "Origin and Object of the United Daughters of the Confederacy."

A number of papers were read and short talks made, the features of the sessions being the rendition of southern songs by Miss Horton, of Nashville; a poem by State Poetess Mrs. William Hume, of Nashville; original piano solo by Mrs. Vickers, of New Orleans; one of her own poems by Mrs. Watson, of Memphis; a poem read by Miss Decker, of Louisiana; a poem on Sam Davis, by Mrs. Pilcher, of Nashville, and sketch of Davis' life by Mrs. Hatcher, of Columbia.

NEGRO IS SAVED FROM MOB.

Negro Assailant Placed in Jail at Jasper, Ala.

Montgomery, Ala., August 5.—A special from Jasper, Ala., says:

Reuben Burris, a negro, was placed in jail here this morning, after barely escaping a mob at Carbon Hill. Burris attempted to enter the house of Mrs. Snoddy, at Carbon Hill. He was frightened away the first time by the cries of Mrs. Snoddy and her daughter, but returned. He was caught and taken in charge by the marshal. Hearing that there was talk of lynching the negro, the marshal concealed the prisoner in the woods and succeeded in saving his life, as several shots were fired into the little calaboose by a mob that had gathered.

FOR SEIZURE OF A VESSEL

Suit Is Brought Against the United States.

Washington, Aug. 5.—The question of the right of the government to seize and use private vessels in the harbor of a dependency of an enemy for war purposes during war-time is involved in a case in which an appeal was docketed in the United States supreme court today. The case is that of S. Ribas Hijo, a company with offices in Vigal Spain, and Ponce, Porto Rico, against the United States for the payment of $10,000 for the alleged lease by the United States of the company's vessel, "The Paz," since wrecked in a Porto Rican hurricane.

The appellants claim that the vessel was leased by the quartermaster's department as a collier and the war department has refused to pay any money whatever for the use of the vessel. The case is appealed from the district court of Porto Rico, which upheld the seizure as a use of an enemy's property by a war power for war purposes as recognized by international law. The United States claims its relinquishment of the vessel was purely an act of grace.

NEGRO CONGRESS CONVENES TODAY

Everything in Readiness for the Big Gathering This Afternoon.

MANY DELEGATES ARRIVE

Governor A. D. Candler and Mayor Mims Will Address the Congress at the Opening Exercises at Piedmont Park—Today's Programme.

After months of hard work and persistent effort on the part of the board of managers, all preliminaries have been arranged for the opening of the negro young people's congress, which will open this afternoon in the auditorium at Piedmont park at 2 o'clock.

The number of delegates from every part of the country greatly increased yesterday, and the immense throng will be swelled to tremendous proportions during today.

The opening this afternoon will have for its introductory a song service, after which will come the welcome exercises.

This morning at 10 o'clock there will be a meeting of the board of directors in Floyd Street Methodist church for some important unfinished business.

Among the delegates that have arrived are found some of the foremost men of the colored race, who have come to this meeting with a singleness of purpose in aiding the full accomplishment of its object.

The local committee has displayed excellent taste in the decoration of the auditorium, where all of the large meetings of the congress will be held. This same committee is handling well the difficult matter of locating the delegates, so that no one will be neglected.

KEPT MONEY HE COLLECTED.

Serious Charge Against Rev. W. M. Robinson, a Negro Preacher.

Rev. W. M. Robinson, pastor of the Shady Grove Negro Baptist church at Fort McPherson, was arrested yesterday and locked up on the charge of fraudulently collecting money for the Negro Young People's Christian and Educational congress now meeting in Atlanta.

Robinson was arrested by Detective Simpson and the charge docketed against him was "suspicion."

Rev. Robinson admits that he collected money in the city for the congress, but disclaims any intention of acting dishonestly. He came to Georgia from Mobile seven years ago. He has been a preacher for twenty-five years.

Detective Simpson says that those in charge of the entertainment of the delegates to the congress requested the arrest of Rev. Robinson and stated they would prosecute him.

RELIC OF RED BATTLE MAY SOON BE SENT TO GEORGIA

Tattered Flag of the Second Georgia Battalion of Sharpshooters.

THE battle scarred flag of the Second Georgia battalion of sharpshooters is now in the possession of a lady in Michigan, and it is probable that it will soon be returned to this state.

The flag was found in an old satchel by a federal soldier on his return home through North Carolina in 1865. At the time of his death he bequeathed the relic to his daughter, who has retained it ever since. The Second battalion of Georgia sharpshooters was recruited from Decatur and surrounding counties. It went out under the command of Major J. J. Cox. He was succeeded before the close of the war by R. H. Whitely, formerly of Company A. The other officers of the battalion were Captains Thomas B. Gowen, W. H. Brown, E. W. Ansley, M. G. Hester, Sam D. Oliver and O. C. Myers. During the war the Second battalion established a splendid reputation for gallantry and was recognized as one of the bravest and most daring commands in the western

A letter received by The Constitution, giving the story of how the flag was found, is as follows:

South Bend., Ind., August 1, 1902.

Editor Constitution: I inclose you herewith a photograph of the flag of the Second Georgia battalion of sharpshooters, which was found by Thomas D. Bivins, of the Twelfth Michigan regiment, when marching through North Carolina in 1865. He discovered it in an old black carpet bag, hidden in a bush heap. There was nothing in the satchel to indicate the owner. The soldier who found the relic is long since dead, and it is now held by his daughter, who lives in Niles, Mich. I will be glad to have you mention this matter with the view of putting me in communication with any of the surviving members of this command. GORDON LISTER.

If the flag is recovered by the gallant sharpshooters, as seems probable, it will be preserved as a sacred relic.

CENTRAL TO BE TAXED ON BONDS

Attorney General Says Securities Are Subject to Taxation.

MEANS ABOUT $8,000 A YEAR

The Securities Are Pledged with New York Trust Companies To Secure an Issue of Bonds—Central May Fight Decision in Court.

Attorney General Boykin Wright has finally decided that the Central of Georgia Railway Company must pay taxes on about $1,600,000 worth of bonds in Georgia and South Carolina railroads, of which it is the owner, though the securities have been pledged with New York trust companies to secure an issue of bonds made by the Central.

The question as to the taxability of these bonds has been under consideration and discussion for some time. The bonds in question are $1,460,000 first mortgage bonds of the Port Royal and Western Carolina, $25,000 first mortgage bonds of the Louisville and Wadley, $10,000 first mortgage bonds of the Sylvania railroad and $25,000 first mortgage bonds of the Talbatton railroad. The list of securities in dispute as to their taxability formerly included $53,000 bonds of the Eatonton Branch railroad, but the attorney general has decided that these are exempt.

When the matter first came up Comptroller General Wright called on President Egan, of the Central, for a sworn statement with regard to these securities, because he said he would have to assess them. Mr. Egan filed an affidavit claiming the bonds were not taxable. The matter was submitted to Attorney General Wright, who gave an opinion to the effect that they were taxable.

Says Taxes Must Be Paid.

The opinion of the attorney general was submitted by President Egan to Lawton & Cunningham, attorneys for the Central, who presented their views, combatting the position taken by the attorney general. This opinion from Lawton & Cunningham was submitted to the attorney general, who rendered his second opinion in the case yesterday, holding that all of the bonds are taxable with the exception of those of the Eatonton Branch railroad, as stated.

The attorneys for the Central took the position that as the bonds had been conveyed by the Central under a deed of trust to the Central Trust Company and the Mercantile Trust Company, of New York, absolute title to them had passed from the Central to the trust companies. Therefore the Central contends the bonds are not taxable in Georgia.

Attorney General Wright holds that the deed of trust to the New York trust companies does not divest the Central railroad of title in the securities at all, because the deed of trust was made simply as security for a debt, and the bonds are pledged under this deed to secure an indorsement by the trust companies on bonds issued by the Central.

It may be that the Central will not be satisfied with this decision of the attorney general and will take the matter into the courts before a final settlement is reached.

Should the state finally win its contention in this case it would mean about $8,000 additional taxes each year.

DEADLOCK KILLS EXTENSION PLAN

Charter Revision Committee Divided Over Problem of Greater Atlanta.

MANY CHANGES ARE MADE

It Is Decided Not To Interfere with Present Ward Lines—Idea of Having Seven Aldermen Receives Unanimous Approval.

It is now certain that the city limits will not be extended so as to take in North Atlanta unless the council should take up the matter and vote in favor of such a plan. The special charter committee of council, to which was referred the proposed new charter as prepared by the committee of forty-nine, is still in a deadlock over the question. The committee now stands 5 to 5 on Councilman Winn's motion to extend the limits.

On Monday, when the matter came up, the committee stood 4 to 4 on the proposition. Councilman Beck was absent, and it was thought that when he returned the tie would be broken, but at the meeting of council in the afternoon another member was added to the committee. This was Council Malvern Hill, and yesterday he voted against extension. Mr. Beck voted for annexation, and the committee had made no more progress than on Monday.

Then the committee took up other phases of the proposed charter. It was decided not to change the ward lines. The section providing that the mayor's salary be fixed at $2,500 a year was adopted after considerable discussion, some of the members favoring the idea of letting council fix the salary of the city's executive. The committee was unanimous in voting for a section providing that the mayor not be authorized to preside over or vote in the aldermanic board.

Seven Aldermen Favored.

It was decided that the quorums of the general council, council and aldermanic board remain as at present. The committee favored having an alderman from each of the seven wards. Councilman Hill moved that the present law be substituted for that section of the proposed new charter which provides that ordinances must be read one time at two different meetings of council before being adopted. The motion prevailed. The section which provides that members of council cannot sell anything to the city was, upon motion of Councilman Fincher, amended so as to include members of all department boards.

While the discussion was on in regard to this particular clause, Alderman LaHatte said he thought councilmen ought to be allowed to compete with outsiders for city contracts. He stated he could not see where any harm would be done. The lawyers on the committee were a unit in expressing an opposite opinion.

"I have already lost some practice because I was a member of council," said Chairman Key. "Several people have come to me since my election asking that I represent them in suits against the city, but on account of my official connection with the city, I was forced to let the cases alone."

It was upon the motion of Alderman Woodward that the terms of office of ministerial officers were made two years instead of four years, as was contemplated in the recommendation of the committee of forty-nine.

The committee will meet again this morning at 10 o'clock, at which time the chapter of the proposed new charter having reference to the city primaries and elections will be considered. Prominent members of the local bar have been asked to meet with the committee and give their opinions concerning the subject.

KILLED HER AS HE KISSED HER.

Father Accidentally Shoots His Ten-Months-Old Babe.

Baltimore, Md., August 5.—While stooping over his 10-months-old daughter to kiss her goodby today, a revolver slipped from the pocket of Charles H. Thornton and fell to the floor. The weapon was discharged and the bullet instantly killed the child. The grief-stricken father was released by the police after witnesses corroborated his version of the accident.

GRAIN EXCHANGE TO BE OPERATED

Produce Men Arrange To Meet at Chamber of Commerce.

PLAN HAS BEEN APPROVED

Board of Directors of the Chamber, at a Meeting Yesterday, Granted Grain Men the Use of the Rooms at the City Hall.

The old custom of having a grain and produce exchange at the chamber of commerce is to be revived.

In 1885 there was such an exchange in existence, but it was operated for only a few years. The grain and produce men of the city are now arranging to revive the old plan and the indications are that it will prove a success in every way.

Atlanta is, perhaps, the only large city in the country that is without its board of trade, or exchange, and the plan now on foot has met with approval on all sides among the dealers. When organized the produce men will meet daily and prices for grain and the like will be fixed for the day. It is highly probable that wires will be run from Chicago, New York and the other big centers giving the quotations in those cities.

At a meeting of the board of directors of the chamber of commerce yesterday afternoon the use of the rooms of the chamber of commerce on the third floor of the city hall building was tendered the produce men. At present the rooms of the chamber of commerce are occupied by the secretaries of the chamber and the Southern Interstate Fair Association, and their assistants, and there is but little unoccupied space.

CLIO HAS REFRESHING NAP.

Sick Elephant Is Recovering from Nervous Spell and Enjoys Sleep and Rest.

Clio, the sick elephant at the zoo, was resting better late last night. The nervous and restless spells she has been having were almost entirely gone. "The sick lady" took several naps during the day, which seemed to do her much good.

Only twice was morphine injected into the elephant. She slept more yesterday than any other day during her sickness. She also drank a large amount of water and ate some fresh grass. Last night she was turned over, and the change caused her to rest much better. The attendants and the doctor are now confident that she will get well. Crowds of people continue to go to the park to see the immense patient.

Miss Rushton to Entertain.

MISS ALICE MAY RUSHTON will be the lovely young hostess at a series of entertainments this week in compliment to her guest, Miss Irene Walker, of Monroe, Ga.

Between forty and fifty guests will be entertained this evening at her home on Capitol avenue. A number of jolly games will be played and during the evening dainty refreshments will be served.

She will give a picnic on Thursday and will entertain at a small and informal party again on Friday evening. Miss Walker is one of the most attractive young women in the state, and during her stay in the city as the guest of Miss Rushton has been a popular and admired visitor.

Euchre Club Entertained.

THE Wednesday Morning Euchre Club will be delightfully entertained this morning by Mrs. Peter Erwin at her home on Spring street.

A dainty luncheon will be served at the end of the game and among those who will be present are: Mrs. W. E. Foster, Mrs. George Adair, Mrs. Floyd McRae, Mrs. W. E. Hawkins, Mrs. B. M. Blount, Mrs. Henry Peeples, Mrs. H. H. Cobb, Mrs. Carlton Miller, Mrs. John S. Candler, Mrs. John Oliver, Mrs. Luther Rosser, Mrs. W. L. Reynolds and Mrs. Woestman.

To Miss Stilson.

MISS JULIAN PERDUE and Miss Katrina Ruse have issued invitations to a 6 o'clock tea on Friday afternoon at the home of Miss Perdue in Inman Park.

The occasion will be in compliment to Miss Edna Stilson and a number of guests will be entertained in her honor.

Those who will assist in receiving are: Miss Sarah Connally, Miss Cordelia Gray, Miss Josie Lee Williford, Miss Hortense Horne, Miss Elle Patterson, Miss Lula Callaway and Miss Mabel Stilson.

A Pleasant Occasion.

AMONG the enjoyable events of last week was the entertainment given by Miss Bertha Banks at her home on South Pryor street.

The summer parlor was decorated with ferns and blooming plants and the lawn and veranda were hung with Japanese lanterns.

The punch bowl was presided over by Miss Georgia Banks and Miss Florie Hirsch.

A number of interesting games added of to the pleasure of the evening.

Silk Gloves Embroidered.

A RECENT New York fashion letter has the following to say on the subject of gloves:

"Embroidered silk gloves are one of the extravagances of the season, the vogue for embroideries in fabrics having reached handwear. The embroidered gloves have tiny pansies, daisies, violets or forget-me-nots embroidered in a section 2 inches wide around the wrist. They are executed either in the natural colors or in the exact shade of the glove, the latter style being undoubtedly destined to greater popularity. In better grades the embroidery extends to the back of the hand, where it occupies the place of the usual points.

"In the elbow gloves for evening wear, where the embroidery is most appropriate and beautiful, it is found both on the backs of the hands, and in a section 4 inches wide around the wrist. Half way up the arm there is also a 4-inch semi-transparent, elliptical medallion, also embroidered. These gloves have double tipped fingers, unusual in long silk gloves, and are shown in black, pearl, white, mode and light gray."

MISS MARIA BLAIR RICE, OF RICHMOND, VA.
Her Marriage to Mr. Charles W. Beebe, of New York, Occurred at Sunrise This Morning.

A Charming Acquisition.

MR. AND MRS. BURGESS SMITH of West End on last Saturday evening informally entertained Mr. and Mrs. L. H. Putney, who, after several weeks of travel after their marriage in Lincoln, Nebr., in June, reached Atlanta on August 1.

Mr. Putney is the general southern manager of the Macmillan Company. Mrs. Putney was Miss Isabel Hamilton, of Lincoln, Nebr., the daughter of the late Colonel John M. Hamilton and Mrs. Isabel B. Hamilton. Colonel Hamilton was colonel of the Ninth regiment, United States cavalry, and was killed in the battle of San Juan, Santiago, Cuba. Mrs. Putney is a woman of charming address and captivating manners and will be an acquisition to Atlanta society.

Dutch Furnishings.

WALLPAPER men, furniture dealers and all manner of interior decorators, say that there is to be a revival of the Dutch and Flemish influence in the arts devoted to household decoration, says The Upholster. Every national art has had its distinctive characteristic. That of Greece was beautiful and cold; that of Rome first severe, then effeminate; that of France luxurious first of all, while that of the Dutch expressed simplicity and strength as its salient quality. The important thing about this to Americans is the fact that the Flemish artisans formed the English taste. Back as far as the first crusade they were the manufacturers and traders of England. The astute Elizabeth welcomed great numbers of them, driven out of their homes by her good cousin, Philip, and later, in the time of Cromwell, and, of course, in the reigns of Anne and Mary, Dutch influence was prominent. Politics was reflected in table legs, and chairs changed their shape by reason of religious wars. The popular mission and arts and crafts furniture of the moment is a direct Dutch revival, and Flemish tapestry, patterns and blue delft effects are being sought by wall decorators.

SHORT ITEMS OF LOCAL INTEREST

CITY COMPTROLLER GOLDSMITH was busy yesterday moving his offices from the ground floor of the city hall building to the second floor. This floor was originally occupied by the council chamber, but when council moved to the top floor the old chamber was turned into a number of office rooms.

EDGAR DUNLAP HAS SECURED the sole agency for the Phoenix Fire Insurance Company of London, having bought up the second agency, which was held by Robson and Holleman.

COLONEL ROBERT F. SHEDDEN, general agent for the Mutual Life Insurance Company of New York, has gone to New York and will be gone for two weeks.

ANGUS ANDERSON, OF JACKSONville, Fla., who is now division superintendent for the International Correspondence schools of Scranton, Pa., passed through Atlanta yesterday. Mr. Anderson lived in Atlanta for a number of years and has many friends in the city.

HELEN JENNETTE, THE 16-MONTH-old infant of Mr. and Mrs. Charles F. Scarratt, died at 4 o'clock yesterday morning at the residence, 16 Oak street. The funeral will take place this afternoon at 3:30 o'clock from the Church of the Immaculate Conception. Interment will be at Westview.

YESTERDAY WAS ANOTHER HOT one, although the thermometer did not record a temperature as high as on the preceding day. The mercury rested at 69 at 4 a. m. At 8 a. m. 76 was recorded, and at noon the mercury was at 90. The maximum reached was 2 p. m., when 92 degrees was registered. The temperature fell after 3 p. m. until 6 p. m., when 82 was shown on the tube. The day was much cooler than the day before, owing to the showers on the preceding evening. The night was pleasant.

GUS JOHNSON, A NEGRO, WAS bound over yesterday by Judge Orr on the charge of stabbing. His bond was fixed at $200. The prosecutor endeavored to have the warrant dismissed, but owing to the serious charge the judge refused to do so.

BEGINNING LAST SUNDAY TRANSfers are now being given from the trolley line in the city to the river line. Transfers will be given on the river line to any line that crosses the tracks of the river cars. The inauguration of this rule will prove convenient to the patrons of the river line.

POLICE COMMISSIONER W. O. Jones was out yesterday for the first time since he was taken ill last week. He was at his country home for three or four days, too much indisposed to visit the city. His friends were glad to see him at his office again.

THERE WERE NO DEVELOPMENTS yesterday in the police captain election. At least none that any of the commissioners would give out. It is said that Detective Ozburn now stands the best chance to get the office. Captain Brotherton is a close friend of the detective, and it is believed that Commissioners Day, Johnson and Jones will give him the other three votes necessary to elect. Sergeant Moon is also spoken of as a strong probability. While a number of candidates are seeking the office of captain, an equal number are seeking that of sergeant in case a sergeant is promoted.

RECORDER BROYLES IS AN ENthusiastic tennis player, and when he made the following remark at yesterday's session of his court while commanding his audience to stop talking, many did not know whether he was rushing off a joke or not: "Hush that noise. We don't allow that sort of a racket in this court."

P. F. SMITH WILL BUILD A TWOstory brick store on Peachtree street, next to the property owned by Dr. W. A. Monnish, and upon which was erected the house which recently caused such a commotion in council. The building is to cost $10,000 and the work will begin without delay. A permit to build was granted Mr. Smith by the city building inspector yesterday.

AT 4:30 O'CLOCK THIS AFTERNOON the members of the amusement committee of the Southern Interstate Fair Association will hold an important session at the city hall building. A contract for a band is to be let and other matters, such as arranging for fireworks and various amusement features, will be taken up and disposed of.

SECRETARY FRANK WELDON, OF the Southern Interstate Fair Association, yesterday received a letter from Jack Prince, in which that promoter of bicycle races declared his intention to come here shortly to arrange for a big race for August 15. Another race is scheduled for Labor day—the first Monday in September. After that date the race track in the Coliseum building will be taken out to make way for the arena for the horse show. Prince is now in Philadelphia, where, on Saturday, he will open his new 8-lap bicycle track.

THE BOARD OF EDUCATION IS NOW awaiting the favorable action of the aldermanic board tomorrow afternoon on the resolution by the finance committee setting aside $6,150 for school purposes. It is generally understood that the board will concur in the action of council and that the mayor will approve the paper. As soon as this has been done the work will begin so that all the improvements may be completed before the schools open in September.

THE ATLANTA CHAMPIONS AND the Atlanta Deppens, two negro baseball teams, have secured Piedmont park for a series of three games, to be played while the negro conference is in session.

THERE WILL BE A CONVENTION of Christian workers at the Associate Reformed Presbyterian church, corner of Garnett street and Central avenue, Wednesday and Thursday of this week. Interesting papers and discussions will be heard and singing of the Psalms will be a feature.

DR. F. C. McCONNELL, CORRESponding secretary of the home mission board of the Southern Baptist convention, will conduct the midweek prayer meeting of the Second Baptist church tonight at 8 o'clock.

THERE WILL BE A MEETING OF the poultry committee of the Southern Interstate Fair Association this afternoon at 3 o'clock in the rooms of the association at the city hall. Matters of interest will be considered.

Will Lecture.

Mrs. William H. Felton will lecture at Gainesville, Ga., Friday evening, August 8. Her subject will be "The Women of the South in War Time." Mrs. Felton is making quite a reputation for herself as a lecturer.

Great Is the Victory.

It has not taken very long for Uncle Sam to bring Spain to time, neither will it take very long to convince you that the Wheeler & Wilson sewing machine is the lightest running sewing machine in the world and the best in every respect. If you need a new sewing machine, don't buy until you first investigate the victorious and celebrated No. 9 Wheeler & Wilson. Atlanta office 71 Whitehall street.

WESLEYAN FEMALE COLLEGE,

MACON, GA.

This college, which has the honor of being the oldest college in the world for women, is one of the very few institutions in the south that are doing real, high-grade college work. The teachers in its literary, music, art and elocution departments are all specialists and have been carefully selected from two continents.

The institution had nearly four hundred students last year and did not have a vacant room in its boarding department, though a new thirty thousand dollar brick dormitory, accommodating one hundred additional students, had just been erected. Another big overflow is in sight for this fall, and the trustees have authorized the erection of another building. Young ladies who desire admission to this time-honored institution will do well to write early to the president, Dr. J. W. Roberts.

The Wesleyan has seven large rooms devoted to the department of natural science alone. Its chemical laboratory is one of the finest in the south. The college is fortunate in this respect, for every educator knows that natural science cannot be taught without proper apparatus and equipment. 7-30 wed 4t

CARD FROM MR. WARWICK.

Tells Some Details of the Meeting of Methodist Ministers Monday.

Loy Warwick, secretary of the Atlanta Methodist preachers' meeting, has written a card in reference to the exclusive story The Constitution published of the meeting Monday. In this card Mr. Warwick states that The Constitution's account of the meeting was accurate and fair, but he desires to go into certain details that were not brought to the fore in Tuesday's Constitution.

He writes as follows:

Editor Constitution: Your reporter in his account of what took place at the Methodist preachers' meeting yesterday morning unintentionally placed some worthy men in a wrong light. He was right in saying that there was no personal feeling in the matter. There never is at any of these meetings, as a matter of course. No doubt it all looked and sounded somewhat more serious to your reporter than to the members of the body, as he is not one of them, and does not understand them as well as they do each other.

It is due Dr. C. W. Byrd and Rev. W. B. Dillard to say that they had no lively discussion. Dr. Byrd may have said some things that could be characterized as lively in common vernacular, but they had no personal bearing and were spoken in good humor. Mr. Dillard did not discuss anything. He spoke only a few words of any sort. Dr. Byrd and Rev. Mr. Dillard are warm friends. In the meeting Monday Dr. Byrd read a brief paper explanatory of some remarks he had made a week previous on Sabbath observance. It refers to the fact (as he thought) that his remarks on that subject had been misquoted and misunderstood by some who were present and heard them. He was under the impression that some one had told Bishop Candler that he (Dr. Byrd) had abolished the fourth commandment.

After Dr. Byrd had finished a member arose and said that he felt sure that there was some mistake about it, and that it might have grown out of a remark one of Dr. Byrd's friends had made to Bishop Candler in a jocular way. He then went on to state that after the meeting referred to in which the question of Sabbath observance was discussed he was standing not far from the church talking with Bishop Candler, when two other preachers came up, and one of them, with a laugh said, in substance: "Well, we did away with one of the commandments today. Now we will just take them up one by one and get rid of all of them." After this was said Mr. Dillard arose and stated that he was the man referred to, and then repeated what he had said.

I was present on all these occasions and beg your indulgence to give this version of what occurred that no wrong impression may go out concerning these good men.

Bishop Candler did not say that he hoped they would abolish the third commandment that he might, with propriety, cuss out the whole business. The reporter meant to be accurate, but he failed to get the remark down as he heard it. What he did say, to the best of my recollection, was about this: "Well, when you get rid of them I may want to do some cussin'." This was said in the same light vein that characterized the whole conversation and in the presence of two or three preachers, not in a crowd nor for the public ear.

The preachers' meeting is a sort of family gathering. The conversations and discussions are often semi-confidential, and if they get in cold type have a different sound and sense to what was intended.

I desire to add that I am personally acquainted with the reporter who was present Monday, and this is intended as no reflection on him, for his report of the meeting was substantially correct and fair.

EFFORT TO BREAK MRS. FISHER'S WILL

Caveat Is Filed by J. E. Jackson and Cornelia R. Jackson.

CLAIM WILL IS NOT LEGAL

County Commissioners Will Meet This Morning and Discuss the Recent Pittsburg Riot—Other News of State and City Courts.

Through their attorney, W. T. Moyers, J. E. Jackson and Cornelia Rawlins Jackson filed a caveat Monday afternoon in Ordinery Wilkinson's office seeking to set aside the will of Mrs. Ellen G. Fisher on the grounds that she was mentally incapacitated to make a will and that she had been unduly influenced to the prejudice of the caveators.

Mrs. Fisher died some months ago and left an estate of about $7,500 to be divided among a number of relatives in Atlanta and Massachusetts. Among the Atlanta relatives are Miss Ella B. Groom and Miss Clara B. Hills. A. J. Orme was appointed executor.

The first will made by Mrs. Fisher was dated July, 1897. She left $500 apiece to J. E. Jackson and Cornelia R. Jackson, her nephew and niece by marriage. In the second will, which the caveators object to, dated January 1, 1898, these names do not appear as beneficiaries.

The allegations in the caveat are that Mrs. Fisher was mentally incapacitated to make a will; that the will was not properly attested or legally executed and that it was procured by fraud and artful practices on the part of Miss Ella Z. Groom and Miss Clara B. Hills.

Jury Commissioners Busy.

The jury commission which began work revising the jury lists of Fulton county Monday, held its second session yesterday morning. In addition to amending the lists by striking the names of the dead, insane or those who have moved from the county, about 400 names will be eliminated on account of the fact that they have paid no taxes. For some years past a certain class of professional jurors have been in the habit of giving in property for taxation purely in order to get on the just list and the letting the taxes go to fi. fa.

Charter for Club.

A. J. Orme filed an application for charter yesterday for the "Transportation Club of Atlanta." The list of incorporators includes about 125 of the most prominent railroad men in the city. The club is to be of a social nature and its membership will be composed exclusively of railroad men.

Commissioners To Meet.

At a meeting of the county commissioners which will be held this morning at 10 o'clock, the recent riot at Pittsburg and the burning of the house in which Will Richardson was concealed will be matters which will principally occupy the attention of the commission. Among other things in this connection the claim of Genie Youg, who alleges that she had furniture and personal belongings destroyed to the extent of $209.50 will come up. County Attorney L. Z. Rosser in a formal opinion that the county cannot legally pay the funeral expenses of Bailiff Ed Battle or of City Policemen T. S. Grant and C. E. Crabtree.

Through his attorney, Burton Smith, J. T. Mulligan filed a suit for $4,000 damages against the Georgia Railway and Electric Company for personal injuries said to have been received on July 30. The allegation states that he was violently thrown from a moving car.

WANT GARBAGE CREMATED.

Board of Health Will Advertise for Bids Based on Five-Year Contract.

The special committee from the board of health having charge of the matter of advertising for bids for the collection and cremation of the city's garbage, met yesterday afternoon in the office of Dr. B. W. Bizzell, chairman of the committee, and desided to request bids to be based upon a five-years' contract.

Each bid submitted must be accompanied by a certified check for $5,000. The present contract with the Lester Furnace company expires January 1, 1903, and the committee is taking such steps as will enable possible bidders every opportunity to make arrangements to bid with a knowledge of the situation.

After the meeting Dr. Bizzell said:

"We have purposely opened this matter months ahead of the expiration of the present contract so as to allow bidders plenty of time to get in shape to take advantage of the opportunity. A five-year contract has been decided on for the reason that no person or company would be willing to bid on a year's contract when it would necessitate the building of a crematory at considerable expense, to be able to carry out the terms of the contract. We shall reserve the right to reject any and all bids, but hope to secure a good contract for the city."

TRIXY LA VIGNE WEDDED WHILE SINGING IN CHORUS

TRIXIE LA VIGNE.

TRIXIE is married!

And she wedded right here in Atlanta, under the very noses of the youthful devotees of light comedy, who used to flock to the Grand nightly last spring to revel in the smiles of the sprightly ladies in the chorus of the Bijou Musical Comedy Company.

She is now and, in fact, was, soon after reaching Atlanta, Mrs. Alfred A. Early, wife of one of the best known and most popular of the young correspondents at the national capital. He comes of a very wealthy family, it is said. It has now leaked out that she and the clever newspaper man were wedded in Atlanta just two weeks after the company came here for a season of ten weeks. Not a word of it did she breathe to her most intimate girl friends, but it all came to light a day or so ago when she was taken ill at Richmond and her husband went there hurriedly from Washington to see her.

Mrs. Early was known here as Trixie LaVigne and was one of the prettiest of the bevy of young women that Jake Wells brought here as members of the Bijou chorus. She admitted being 19 and was exceedingly fascinating. Her vivaciousness made her conspicuous among a number of attractive young women who nightly sang and danced before the footlights at the Grand. Her sister, Pauline Harrice, was also a member of the company. The news of the marriage will, doubtless, prove a great surprise to theatergoers here who remember her.

By an odd coincidence there was another Mrs. Early in the company. She was the wife of John Early, the stout, auburn-haired vocalist, whose singing won him many friends. Mrs. John Early's stage name was Pearl Tormie. Whether her husband and Alfred Early are related has not developed.

The story of Miss LaVigne's marriage is told in the following special from Richmond:

"Richmond, Va., August 5.—(Special.)—The interesting news that Trixie LaVigne, one of the prettiest of the shapely girls of the Bijou Musical Comedy Company, is married, became known here today and created a sensation in theatrical circles.

"Not even the chums of the pretty actress knew she had a husband. The lucky man is Alfred A. Early, a well known Washington correspondent. The presence of Mrs. Early, who is stopping at Newford's hotel, gave the secret away. His bride has, for some weeks, been a patient at the Retreat for the Sick, and he is here to see her.

"The wedding occurred in Atlanta two weeks after the Bijou company opened there for the spring season. Only Miss LaVigne's sister, Miss Pauline Harrice, knew of her quiet marriage. Mr. Early, who is a member of a wealthy family, hopes to take his wife to New York the latter part of the week."

BARRETT RESIGNS OFFICE OF STATE OIL INSPECTOR

Dr. W. C. Bryant, of Jackson, Named in His Stead. Franklin Company Again Gets State Printing Contract--Capitol Gossip.

DR. W. C. BRYANT, of Jackson, Butts county, was yesterday appointed state oil inspector by Commissioner of Agriculture O. B. Stevens, to succceed Glascock Barrett, resigned.

Mr. Barrett has held the position about two years, and resigns now because of the fact that owing to a recent promotion by the round bale compress people, his duties are such that he cannot give the proper time and attention to oil inspection.

Dr. Bryant is a well known Georgian, and one who, it is said, will give satisfaction in this position. He has filed the required bond of $1,000 and taken charge of the work. His appointment became effective yesterday. Dr. Bryant has served as oil inspector at Jackson and is familiar with the duties of the office.

Mr. Barrett has just returned from an inspection tour through the state, and found everything in good condition. His resignation, which was accepted yesterday, is as follows:

Atlanta, Ga., August 1, 1902.—O. B. Stevens, Commissioner of Agriculture—Dear Sir: Following the several conversations that we have had on the subject of my resignation as oil inspector, owing to the unprecedented and unlooked for increase in the Lowry bale business, of which I am manager for the south Atlantic states, and in accordance with the agreement that we have reached, I hereby tender you my resignation as state oil inspector to take place this date.

I desire to, in severing my official relations with you and your department, express to you my sincere appreciation of the many courtesies that you have shown me, and without wishing to be egotistical, would like to express my satisfaction at the present condition of the department of oils. You and Dr. Bryant, my successor, must feel at any and all times at perfect liberty to call on me for any services that I can render, with the assurance that it will be a pleasure to me to serve either of you in any way that I possibly can. Yours very truly,

GLASCOCK BARRETT.

STATE PRINTING CONTRACT.

The contract for the state printing for the next two years was awarded yesterday by the state printing commission to the Franklin Printing Company, of which George W. Harrison is president. This company has had the contract for the state's printing for several years past.

Only Secretary of State Phil Cook, chairman, and Comptroller General W. A. Wright, were present at the meeting, as Treasurer Park did not arrive from Macon in time to attend. On account of this fact the commission fined him his day's salary by a unanimous vote, and it has been decided to use the fine to have a watermelon cutting at the capitol.

There were five bids before the commission, the bidders being the Franklin Printing Company, Foote & Davies, the Byrd Printing Company, the Atlanta Lithographing and Printing Company and the Mutual Publishing Company. The bid of the Franklin Printing Company was the lowest and the best, though it is said that this bid was slightly higher than that of last year. Foote & Davies pressed the successful bidder very closely on many of the items, being only a half cent higher on composition.

The state printing generally amounts to something like $25,000 to $30,00 a year, and the contractor is required to give a bond for $20,000 for the faithful performance of the service required.

The arbitration of the Southern Railway Company's tax returns did not take place yesterday as was expected, but at the request of the out of town arbitrators was postponed until this morning. The hearing will be had in the office of the railroad commission in the capitol. It is expected that considerable evidence will be taken before a decision is the matter is reached.

Tax return from seven counties were received at the office of Comptroller General W. A. Wright yesterday. The increases were as follows: Gwinnett, $227,-000; Henry, $63,632; Butts, $24,551; Camden, $8,743; Clay, $70,395. Total increase, $394,321. Decreases: Jones, $991, and Haralson, $1,867. Total, $2,858. So far 102 counties have been heard from and the returns of general property in ehese counties show a net increase of $433,263. The total net increase promises to reach about $6,000,000.

Comptroller General W. A. Wright will recommend in his forthcoming annual report that hereafter the returns of express, telephone and telegraph companies be made direct to the tax receiver in the various counties. He says this property is scattered and in such shape that it is difficult for him to accurately estimate its value. With the railroads he has less difficulty and has no objection to the handling of these returns. He does not object to attending to the other returns, but thinks the state could get much better results by having it done by the tax receivers.

Among those who will go to Macon to attend the convention of the State Horticultural Society today from the capitol are State Treasurer R. E. Park, who is vice president of the society for the sixth congressional district, and State Entomologist Scott, who attends all of the society's sessions, and is a prominent figure on its programmes. The society will be called to order this morning by President P. J. Berckmans, and an interesting and profitable session is anticipated.

Adjutant General J. W. Robertson yesterday issued a commission to A. H. DeVaughn, of Augusta, as major of the Third regiment, infantry, Georgia state troops. Major DeVaughn succeeds Major J. A. Teague, who, some time ago, removed across the river into South Carolina and could, therefore, no longer hold his commission. Major Teague was regarded as one of the best officers in the service.

Judge W. D. Nottingham, of the city court of Macon, was among the visitors at the capitol yesterday. Judge Nottingham is an applicant for reappointment by Governor Terrell. His opponent is Marion W. Harris, one of Macon's well known lawyers.

Governor Candler heard yesterday that W. B. Freeman, whom he pardoned several days ago, was still in jail in Montgomery county, the sheriff having failed or refused to release him. Freeman was serving a sentence for selling whisky illegally. Governor Candler was very much wrought up over the action of the sheriff and says he ought to be made to spend the time in jail for which Freeman had been pardoned. He says he will investigate the matter and act accordingly.

Secretary J. D. Massey, of the railroad commission, has gone to New York on a brief vacation trip.

Judge C. J. Wellborn, state librarian, has gone to his home in Union county on his vacation. Mrs. John Milledge, assistant librarian, will be in charge during his absence.

It is stated at the capitol that Justice Hal T. Lewis, of the supreme court, who has been spending some time at Atlantic City, will return to his home at Greenesboro about September 1.

FUNERAL SERVICES TODAY

John G. Martin Lived in Atlanta Fifty Years.

ONCE HELD VALUABLE REALTY

For Fifteen Years He Was Conductor on the Western and Atlantic Railroad.

The funeral services over the body of the late John G. Martin will be held at 10 o'clock this morning from his late residence, 75 Crew street.

Mr. Martin, who died Monday afternoon at his residence, after an illness of three weeks, as stated in yesterday's Constitution, was a resident of Atlanta for fifty years and during all that time was one of the city's most respected citizens.

He was born in Habersham county. In 1851 he was married to Miss Mary Rucker, a sister of the late Colonel J. W. Rucker, of this city. He moved to Atlanta shortly after his marriage and resided here until his death.

For fifteen years Mr. Martin was a conductor on the Western and Atlantic rail road and during that time built up a wide acquaintance. After he left the railroad service he entered the real estate business in Atlanta.

At one time he owned some of the most valuable realty in the city. He had extensive holdings in the center of the city, which have since become of the greatest value. Fifteen years ago Mr. Martin retired from active business life.

He is survived by one daughter, Mrs. C. V. Tutwiler, and by a sister, Mrs. G. W. Evans, both of whom live in Atlanta.

LIVERPOOL WEAK AFTER HOLIDAYS

The Government Report Was Considered Bearish by That Market.

FOREIGNERS LIGHT SELLERS

Weekly Report Favorable—Prices Closed 1 Point Higher to 3 Lower. Cereals Closed Decidedly Lower—Stock Market Dull and Heavy.

New York, August 5.—The cotton market opened steady with prices unchanged to 4 points lower, this being an indifferent response to weak Liverpool cables and to light foreign selling. American selling orders and a bearish interpretation of yesterday's bureau report was given as the factors which most disturbed the foreign bulls and invited bear pressure. The chief support of the local market was active Wall street buying of October, December and January and the demand from spot cotton houses for August. Trading was active in a spasmodic way during the session, though fluctuations were at no time broad. Before midday the Wall street orders had rallied the market to a shade above the closing of yesterday. Then came the weekly crop weather report from Washington and proved to be more favorable than anticipated by the trade as a whole. Prices settled back several points but at the decline Wall street became a large buyer of the distant months. Near the close the market fell a trifle under profit taking by local interest and was finally steady with prices net 1 point higher to 3 points lower. Total sales were estimated at 125,000 bales.

Review of New Orleans Market.

New Orleans, August 5.—Spot cotton dull and easy. Offerings showed no improvement and though a few buyers as usual made the rounds of the sample rooms, their bids were not particularly attractive to holders, who were loth to give way to the extent of the demands made upon them. Sales 200 bales. Quotations unchanged.

In the future market during the early part of the session today the long element had rather the best of the argument. The opening showed a loss of 1 to 2 points, but almost immediately there was a free covering of shorts by one of the largest local houses that sent prices up briskly for a while. Notwithstanding this spurt of buying, however, the undercurrent of bearish sentiment was too strong for the improvement to last, and when the weekly crop condition report came in there was a sharp turn in the opposite direction, in which the figures dropped away 4 to 5 points on the several months. This was followed by a rally among leading bulls, who strove hard to bolster up prices, but the result was only a few rapid fluctuations, covering a range of 3 to 4 points either way that left the market at the close net 1 point down to 1 point up.

The Dry Goods Market.

New York, August 5.—Buyers are arriving in cosiderable numbers and jobbing trade shows more activity. Business at first hands continues quiet on both home and export account in cotton goods, but no quotable change in prices. Silks and ribbons are in fair request and prices are firm.

H. & B. Beer's Cotton Letter.

New Orleans, August 5.—Liverpool advices were disappointing, and our market in sympathy opened about 1 point lower and subsequently declined 1 point additional. Later however, shorts covering, fearing the weekly weather report might not be favorable, caused an improvement of 6 points from the bottom. The report when issued was much more favorable than expected and occasioned an easier feeling, making the net loss about 1 point on near months, whereas the late were practically unchanged. The summary of the weekly weather report was as follows: "The central and eastern portions of the cotton belt have experienced more favorable weather and a very general improvement in the condition of cotton is indicated, the rainfall of the week having largely relieved the drought. The Carolinas, portions of Georgia, Louisiana and Missouri, however, contiue to suffer from drought, and shedding and rust are more or less extensively reported in the central and eastern districts. In Alabama, Mississippi, Tennessee and Arkansas the rainfall has been generally ample and excessive in the last named state, where cotton has been beatn down to some extent. Central and northeast Texas in common with Arkansas and the north portion of Louisiana, Mississippi and west Tennessee received during the forepart of the week from 2 to 10 inches of rain. In Texas cotton is making heavy bush and as a rule continues to fruit satisfactorily, but there is considerable complaint of shedding, boll worms and boll wevils, especially in the lower portion of the Brazos and Colorado valley. The latter part of the week was more favorable and picking, while it is in progress as far north as the Red river valley, with a continuation of the weather of the latter part of the week will be general in ten days." Outside of Texas, Arkansas, Tennessee and Oklahoma light showers occurred, but the weather was generally clear over the greater portion of the cotton belt. During the next thirty-six hours fair weather is predicted throughout the cotton region. The recent heavy rains in Texas interefered with the picking and marketing of new cotton. For nearly a week, though, the wealther has been favorable for gathering the crop, and the chances are, with the resumption of railroad traffic, the movement of new cotton will be on a more liberal scale. This crop is much earlier than last year, and with a fair demand for spots the probability is the September movement will be large. There is no evidence of supeculative short selling to any extent, as operators are fearful that the crop may yet receive some setback; therefore with the existing discounts in the new crop months it was observable that considerable covering took place today. The movement of new cotton and daily weather conditions will continue to influence values.

Unadilla Gets a New Bale of Cotton.

Unadilla, Ga., August 5.—Unadilla received her first bale of new cotton today. It was grown by . H. Gooding. It weighed 668 pounds and sold here for 10c per pound.

O'Dell & Co.'s Cotton Letter.

New York, August 5.—The local market for cotton futures today opened steady in tone with first prices unchanged to a decline of 4 points. This was a great surprise to the bear element, which had fully counted upon a break of 4to 10 points in sympathy with weak advices from the English market. There was an active demand for August cotton, however, led by a prominent local spot house, while the Wall street representatives were identified on the long side of the account. The southern crowd was also a buyer of the new crop months, and there was a conpsicuous absence of liquidation. This caused the market to show a rather healthy tone, whereas the speculative element had been inclined to look for a rather bearish turn of affairs. The buying movement continued a fair scale as the session wore on. The room element for a time was disposed to take the bull side for a turn, but on the establishment of better prices offerings increased appreciably. Still the demand up to the last was fair, and much weekly held long stuff was quite readily absorbed. Considerable attention was given to the spot situation, and opinions were highly conflicting. The August option seemed to be a matter of considerable contention between the bulls and bears, and there was a growing belief that something is developing in this option.

Hubbard Bros. & Co.'s Cotton Letter.

New York, August 5.—The feature today has been the relative strength of this market in face of the decline in Liverpool due to heavy buying by brokers believed to represent the recent large sellers. From Washington the weekly government report was about what was looked for, and it caused a slight reaction from the best prices. In the trade the temper is exceedingly bearish and the buying today from outside sources could only be attributed to the influence of the decline in condition since the June report to that of yesterday upon what has been a aggressive short interest. Whether the bureau is correct or not an examination of its previous reports shows that so persistent a decline in condition has but once in fifteen years brought a large crop. On the other hand, the trade is bearish.

Murphy & Co.'s Cotton Letter.

New York, August 5.—Early cotton prices showed a decline of 2 to 4 points in some instances when good buying set in, some of which was for Liverpool. The bureau report of yesterday was lost sight of for the time being, but its character was satisfactory to the bull element, who took the ground that figures of 81.9 would prove more helpful to their cause than figures of 75 since the latter would have been construed as exaggerated by so many in the trade as to have discouraged intended speculation, hence the figures of 81.9 were, they contended, so conservative as to disconcert the bear element who were anxious for an excuse to put forth claims of absurdity, etc. Prices have reached the level where they are admittedly reasonable, and expectation of a good demand from spinners at an early date appears to be more widespread than for some time, especially since new cotton is moving slowly and is not likely to pick up very rapidly, since many roads in the south are in bad shape. People who have been prominent in gathering crops have been covering freely of late, and this leads to the suspicion that the crop is less prosperous than generally supposed. The weekly crop report was rather bearish. The Carolinas, Georgia and Louisiana suffer from drought. Rust and shedding in some districts. Wall street interest bought January extensively during the forenoon ad prices rallied before noon.

Southern Exchange Cotton Letter.

New York, August 5.—Liverpool partially responded to the drop in our market, but the cables were a slight disappointment to most of the traders. Spots were very firm at 4¾d for middling, which, it thought, was responsible for the strength shown in futures. The close was irregular but firm, with spots unchanged from the opening. Our market was nervous and unsettled. Opening 2 to 3 points lower, it gradually got up to last night's close, but in spite of the semi-bullish crop report given out from Washington this morning there was never much disposition to buy after noon and prices held dull but steady for the rest of the day. New Orleans showed a slightly bearish tendency early. Opening on a parity with the last sales of yesterday it broke slightly just after the opening, but gained a few points in sympathy with the other markets. Experts claim that cotton has declined sufficiently to see a recation soon. The market at present is in a demoralized condition, and if the natural course of events follow up the old adage in this instance, we will doubtless witness a further drop of a few points before any move is made towards a higher level.

THE DAY IN WALL STREET.

New York, August 5.—There were only a few diversions in today's stock market to relieve what was otherwise a dead level of dullness and monotony. Dealings during the first hour were somewhat more active than yesterday and the movement upward became quite general. Only a few stocks moved more than a few points and the interest promptly died away. The execution of orders in a few high grade investment stocks, of which the small floating supply is closely held, caused some striking advances. The rise in the Vanderbilts, led by New York Central, was apparently based on an expectation that today's meeting of directors of the Manhattan Elevated Railroad would have led to some action in regard to the rumored plan to lease Manhattan. The adjournment without any announcement led to reaction in the stocks thus affected. American Express and United States Express rose easily on the accumulation of some small amounts of stock. Missouri Pacific resisted some pronounced selling pressure and moved irregularly all day. The refusal of a Montana court to vacate an injunction granted to the Amalgamated Copper Company against the working of a contested mine by a rival gave a firm tone to Amalgamated Copper, but the dealings in the stock were small. The rumors of a combination between St. Louis and San Francisco and Central of Georgia was responsible for the advance in the former and for the buying of the income bonds of the latter. Denials of the report from well informed quarters took the animation out of the movement. Money was in active demand in London, presumably in preparation for the 20 per cent installment of subscriptions to the $160,000,000 consol issue, which is payable on Thursday. Sterling at Paris advanced a centime further today. London sold some stocks here today. This selling is supposed to represent the retransfer to New York of securities sent to London in June to be held there for American owners who were taking advantage of cheaper rates. The liquidation of an account in Metropolitan securities, the reduction of the dividend rate on Standard Oil, a report that the dissolution of the Reading voting trust would be deferred by not declaring the full dividend on the first preferred stock and the rate cutting on packing house products from Kansas City were minor factors in the dullness and heaviness which overcame the market.

There was a firm tone in the bond market, but no feature. Total sales, par value, $1,375,000.

United States bonds were unchanged on call.

Total sales of stocks today were 299,800 shares, including Atchison 12,100, Illinois Central 7,400, Manhattan 20,100, Missouri Pacific 18,900, New York Central 26,000, Norfolk and Western 6,900, Pennsylvania 10,700, St. Louis Southwestern 7,900, Southern 9,800, American Smelting 5,300.

Money on call 2½@3 per cent; last loan at 2¾ per cent. Prime mercantile paper 4½@5 per cent.

Sterling exchange firm at $4.87½ for demand and at $4.85⅝ for 60 days; posted rates $4.86@4.88½. Commercial bills $4.84½@4.85⅝.

Bar silver 52⅝.

Murphy & Co.'s Stock Letter.

New York, August 5.—The dealings were again restricted today, but the majority of the list made upward progress, although there was some irregularity in spots. Outside interest was light, but the traders finding there was no pressure of stocks were induced to purchase moderately of both accounts. Southern Pacific, Atchison, Big Four and Wisconsin Central, Copper and Pan Handle had fractional improvements; also Manhattan. Reports of a 'Frisco Southern deal involving control of Georgia Central accompanied an advance of 2 per cent in 'Frisco. The only important development in the monetary situation was a gain by the banks at the clearing house, chief ly on account of domestic gold deposits at Pacific coast points more than sufficient to extinguish the loss sustained by the banks in their dealings with that institution up to close of business yesterday.

Commercial Advertiser's Financial Cable.

New York, August 5.—The Commercial Advertiser's London financial cablegram says: Stocks today were inanimate. The remainder of the week on the exchange is expected to be a blank for the reason of all-absorbing interest in the coronation. The tone was discouraging on renewed weakness of the Kaffir section ascribed to market troubles in Paris. Consols were 5-16 down to 95 1-16. The settlement is disclosing a still unwieldy bull account.

To all intents Americans did not really open. Rio Tintos were ¼ down to 43 on Paris difficulties.

Gold to the amount of £32.000 has gone out to Ecuador. Gold is selling at 77s 9d on the rise in Paris exchange, which is 25.19; Berlin 20.49¼.

O'Dell & Co.'s Stock Letter.

New York, August 5.—The general market opened steady today with trade fairly active and well distributed. There was more or less indisposition evident among operators, and many waited for fresh developments to give the market new impetus. The outside business through commission houses was rather sluggish throughout the day. The selling came from this source at the better prices. There was considerable difference of opinion in the street with regard to the various deals which are being exploited at this time, and conflicting reports, denials etc., in this connection simply serve to increase the anxiety of the stock holders and restrict the dealings of the speculative element. The movement of 'Frisco stock, Missouri Pacific and certain other so-called specialties indicate the prevalence of a moderate manipulation, and this is also a matter which works to the detriment of the speculative activity. The industrial situation was mixed and all stocks in this part of the list were inclined to proceed rather sluggishly over a narrow range. Trade reports and business advices were favorable in all respects. The Vanderbilt stocks showed some increase in activity. The late news lacked feature and the trading element seemed inclined to wait for fresh developments of some sort. The trade was limited.

Available Supply Changes.

New York, August 5.—Special cable and telegraphic advices received by Bradstreet's show the following changes in available supplies as compared with last account:

Wheat—United States and Canada, east of the Rockies, increase 1,748,000; afloat for and in Europe, decrease 3,900,000. Total supply, decrease 2,152,000.

Corn—United States and Canada, east of the Rockies, decrease 832,000.

Oats—United States and Canada, east of the Rockies, increase 690,000.

Coffee and Sugar.

New York, August 5.—Coffee, spot Rio barely steady; No. 7 invoice 5 13-16; mild steady; Cordova 8@11½. Futures opened quiet with prices 10@15 points lower. The day proved one of active fluctuations, generally toward a lower level. Cable news was disappointing, primary receipts were well up to the heavy totals of a year ago and an increase of 328,678 bags in the world's visible for August over the previous month tended to dampen the ardor of room bulls. The "clique" operated extensively on both sides of the market. Near the close the bulls were active buyers of September, this option and August showing the smallest net loss for the day. The market was finally barely steady, August and September 5 points lower and other months 10 to 20 points net lower; sales 84,750 bags; August 5.60@5.65; September 5.55@5.70; October 5.30@5.35; November 5.30@5.40; December 5.35@5.45; January 5.45; February 5.40; March 5.45@5.50; May 5.60@5.65; July 5.75@5.80.

Sugar, raw steady; fair refining 2⅞; centrifugal 96-test 3⅜; molasses sugar 2⅝; refined steady.

New Orleans, August 5.—Sugar strong; open kettle 2½@3 3-16; open kettle centrifugal 3@3½; centrifugal yellow 3½@4¼; seconds 1⅝@3¼. Molasses dull; centrifugal 5@15.

CHICAGO MARKET REVIEWED.

Chicago, August 5.—Grains were heavy today and prices declined sharply. September wheat depressed by almost perfect harvesting weather in the spring wheat country and by heavy receipts, dropped to the lowest price so far this season. Corn also ruled weak on heavy selling, notwithstanding receipts were falling off. At the close of trade September wheat had lost ¾@⅞c, September corn 1⅝@1½c and September oats 1@1⅛c. Provisions closed 2½@12½c higher.

Wheat momentarily showed a good front at the opening of trade. Cables were firm, grading was poor and there were rains in the western states and in the Ohio valley. September started ⅛c up to ⅛c down at 70@69⅞c and sold at 70⅛c. Soon, however, the perfect weather northwest began to have a decidedly bearish effect on the crowd. Receipts here and in the southwest were large at primary points, the total being much above last year. This started free selling and September dropped to the low level for the crop—69c. Bradstreet's reported a decrease of 2,152,000 bushels in the world's visible and the seaboard cleared equivalent to 756,000 bushels. These factors had a checking influence on the decline, but the close was weak and heavy. September 1⅜@1⅞c down at 69@69⅛c. The seaboard did a fair business. The volume of trade was not large and mostly of a professional character. Receipts were 546 cars, 8 of contract grade. Minneapolis and Duluth reported 173, a total for the 3 points of 719, against 788 last week and 680 a year ago. Primary receipts were 1,925,000 bushels, against 901 last year. The seaboard reported 39 cars taken for export.

Corn receipts today were only 69 cars and estimates for tomorrow but 25. For a moment prices edged above the closing figures of yesterday, but the bullish statistics could not overcome the decidedly bearish sentiment. Heavy selling of September shortly after the opening caused the slump. Offerings were abundant and there was no let up to the pressure until September had dropped from 57½ to 55⅝c. The big interests identified with the dealings of the last several days were selling. In the absence of anything that resembled support no one wanted corn. Stop loss orders came out and helped in the decline. Liverpool was strong and as much as ⅜c higher, but exerted no influence. At the bottom there was some buying by commission houses and shorts who covered. This brought a slight rally, but September closed weak 1⅝@1½c down at 55⅞c. The weather west, while rainy, was considered favorable to the growth of the crop.

Oats held up well against the depression of the other grains. There was a dip early and again late, influenced by liberal receipts and the corn break, but the weather was against oat harvests and reduced estimates of arrivals checked any sympathetic declines of moment. The cash demand was also fair. September sold from 32½c@32⅝c to 31⅞c and closed easy ¼@⅜c down at 31⅞@32c. Receipts 316 cars.

Provisions were quiet, but somewhat irregular. Hogs were weaker for poor grades and higher for the best. Early liquidation depressed products, but good Milwaukee support brought a brace to the market and everything advanced. September pork closed 12½c up at $16.85; September lard 2½c higher at $10.85 and September ribs ½c advanced at $10.47½.

Estimated receipts tomorrow: Wheat 300 cars; corn 25 cars; oats 85 cars; hogs 21,000 head.

Weekly Summary of Crop Conditions.

Washington, August 5.—The weather bureau's weekly summary of crop conditions is as follows:

A drought prevailing in the previous week from Virginia and the Carolinas westward to Arkansas has been largely broken, the rains being excessively heavy over the western part of the region named. The drought, however, continues in portions of the lower Ohio valley, the Carolinas and northern Georgia. The central and northern portions of Texas have again received heavy rains, and the lake region and the northern portion of the middle Atlantic states also have suffered to some extent from excessive moisture. Portions of Kansas, Nebraska and the north Pacific coast region are in need of rain. Generally the temperature conditions have been highly favorable.

CORN—Corn has made excellent progress in the principal corn producing states and an unusually fine crop is promised. In a small part of the lower Ohio valley and in southwestern Missouri, central and western Kansas, Tennessee and Virginia a part of the crop is, however, suffering from drought.

WINTER WHEAT—Some winter wheat remains to be harvested in extreme northern districts, where harvesting has been much delayed by rains and considerable damage has been much delayed by rains and considerable damage has been done to wheat in stack and shock. Harvesting is in general progress in the northern Pacific coast under favorable conditions.

SPRING WHEAT—Spring wheat harvest has been somewhat delayed by showers in Minnesota. Nn North Dakota high winds and hail have lodged and damaged spring wheat slightly, and rust is appearing on the late sown. The crop is ripening rapidly in the Dakotas, somewhat too rapidly in South Dakota, and harvest was begun in extreme southern North Dakota. In Oregon and Washington spring wheat has made favorable advancement.

OATS—Oats harvest in the northern districts has progressed under more favorable conditions than in the previous week and is nearing completion except in the more easterly sections.

COTTON—The central and eastern portions of the cotton belt have had more favorable weather and there is a general improvement in cotton, the rainfall of the week having largely relieved the drought. The Carolinas, portions of Georgia, Louisiana and Missouri, however, continue to suffer from drought, and shedding and rust are more or less extensively reported in the central and eastern districts. In Alabama, Mississippi, Tennessee and Arkansas the rainfall has been generally ample, but excessive in the last named state, where cotton has been beaten to some extent. Central and northeast Texas in common with Arkansas and the northern portions of Louisiana and Mississippi and western Tenesessee received during the forepart of the week from 2 to 10 inches of rain. In Texas cotton is making heavy bush and as a rule continues to fruit satisfactorily, but there is considerable complaint of shedding, boll worm and wevil, especially in the lower portions of the Brazos and Colorado valleys. The latter part of the week was more favorable and picking, which is in progress as far north as the Red river valley, with a continuation of the latter part of the week, will be general within ten days.

TOBACCO—Rains have benefited the tobacco crop in Tennessee, Kentucky, Virginia and Maryland, and the conditions have been favorable for curing in the Carolinas.

APPLES—The reports respecting apples continue generally unfavorable except in Kansas, Michigan, New England and portions of the middle Atlantic states.

R. M. Seale & Co.'s General Market Letter.

Atlanta, August 5.—Cotton—It is rather peculiar that January selling at 7.60, sold around 7.68 nearly nine weeks ago, as a result of about three months of summer weather, cotton has lost about a dollar a bale. It would not at all be improbable to find January around 7.50 two or three weeks from date. Under the circumstances we canot encourage short selling; besides August is the most trying month of the season. Cotton men the world over are awaiting developments. Two weeks of hot weather would cut down yield 550,000 bales, perhaps more. The visible supply is 400,000 less than last year. Last year's crop amounted to 10,500,000, because some 300,000 was carried over from the 1900 crop. This year starts bare, no 300,000 to come from last year and we will start the visible 400,000 or 500,000 less, say a total of 700,000. This means a yield of 11,000,000 would not be much more than a yield of 250,000 of this season. We do not believe the government points to more than 11,000,000. In August the crop loses about three times as much as in June and July together. In a normal this is 80. What reasons are there for boaring cotton until the crop is assured? We would continue to buy on declines, although the disposition of conservative traders seems to be to wait and observe the manner in which early receipts will affect prices.

Stocks—The dealings in today's market continued in small volume, but the tone was in the main firm. Really extensive advances were noted in Louisville and Nashville, Missouri Pacific, Kansas and Texas and St. Louis and San Fracisco. The strength in Louisville and Nashville was again attended by reports that a settlement of the deal in the stock was to be had. The Southern railway shares were more active. The strength in Manhattan did not extend to Metropolitan or Brooklyn Rapid Transit. Although the day's news went to indicate that a crisis was approaching in the anthracite region, the coalers were dull. Copper was fairly steady, while American Smelters were reactionary. Tennessee Coal and Iron was firm. London exchange brought no increase in animation to any extent. Transactions here for foreign account resulted on balance in sale of 8,000 of stocks. Money market continues easy.

Wheat—There was buying at the start by local operators and commission houses, due to strength abroad and showers, but selling was liberal and kept up through the session, the large movement in the southwest and most favorable advices from the northwest being the incentive. Statistical figures were bullish, but they did not count. The close was heavy, and while the market may work somewhat lower on account of the bearish feeling of the professionals, we would favor purchases on the breaks.

Corn—Displayed strength early on quite light receipts, but weather conditions were too fine and the expectation of an early movement for the new crop in southwest made local operators very bearish. Six loads reported sold for export. The close was soft, and should there be any further decline witnessed we would favor taking profits on short corn, as values are in line for a good reaction, especially considering the small movement to this market.

Oats were weak with wheat and corn. The cash demand is very slack, and it looks as if values would rule lower.

Provisions—There was selling early by commission houses, but there was buying of ribs by Armour an dthe packers that started covering of shorts. Should any further advance be met with we would favor sales.

O'Dell & Co.'s Grain Letter.

Chicago, August 5.—Operations in the local grain pits were fairly active today and well distributed, and consequently there was a fair movement of prices. At the lower prices there was an inclination to support the several commodities, but on the bulges there was an unmistakable disposition to sell the cereals. This gave clear evidence that the scalping element is more or less in control, and it is naturally inferred that trading opportunities are to be offered in all pits for some time to come.

Wheat was rather adversely affected by the better weather and crop news for the northwest, the liberal receipts and the rather bearish foreign crop advices. There was considerable selling during the forenoon, but the lower prices there was fair support, and there was a semblance of a rally, but the latter lacked the strength essention to encouraging active support, and the market closed rather irregularly with sentiment mixed.

Light receipts held corn for a time this morning, but later there was a distinct pressure and values responded appreciably, but there was excellent support on the promise for only 25 cars for tomorrow, and the late market showed a better tendency, but up to the last there was a nervous and uncertain feeling.

Oats sympathized with corn early in the day, but later fell appreciably to pressure and succumbed, though at the lower prices, as in other cereals, there was a moderate degree of support from the more confident local longs.

There was liquidation at the opening today, but the lower prices encouraged moderate support in the provision pit. The outside element was disposed to sell at the better prices.

Murphy & Co.'s Grain Letter.

Chicago, August 5.—September sold at the lowest price on this year's crop. There was a fairly firm undertone to the market during the first part of today's session, but local sentiment was against the market and liberal offerings shortly before the close caused a break of about 3c for September, this option selling at 69⅛c and closing weak at this price. December was relatively firm, showing only a small loss, closing ⅜c lower. Local sentiment during the early part of the session was bearish on favorable weather crop news and large receipts, but there was a change later on the unexpected large decrease in world's visible supply and good clearances. The volume of business in the aggregate was not large and toward the end of the session the market was inclined to dullness, except just before the close, when a selling movement started which resulted in the break that carried September down to the low price for the crop. Cables were higher, particularly on the continent. Clearances were 750,000 bushels wheat and flour, and a fair export business was done at the seaboard.

Heavy selling of corn shortly after the opening caused a very weak market. September sold down to 55⅝c before there was any let up to the offerings. Large houses identified with the selling movement during the past four or five days were in the pit with rafts of corn for sale, and in the absence of a buying demand the market broke. At the bottom there was general buying by commission houses, some of it in the way of profit taking. The market responded to this buying and advanced 1 cent from the low point, but broke again with wheat just before the close, and the last price is 1⅝c lower than yesterday. Liverpool was strong and as much as ⅞ higher.

The feature of the oats market has been the weakness of the cash market. There has been heavy selling of the future, and it is not easy to say where all of the offerings have gone. Richardson, McReynolds, Barrett and Kidston have easily sold between 3,000,000 bushels of September oats. There has been buying by Clarke & Early. There was buying by Cudahy Bros.

There was weakness in provisions early, with a drop of 10c to 15c in pork, 5@7½c in lard and 2½@5c in ribs. On this decline, which was on commission selling with no support, appeared finally large September buying by Wolff. He took enough pork and ribs to turn the whole market up and to finally make it a strong instead of a weak [illegible]. The supposition is that the packers [illegible] as the buyers. The pit thought it [illegible] mour.

Birmingham, Ala., August 5.—(Special.) Atlanta won from Birmingham today by hitting the ball and as a result of the errors of the locals and their failure to hit the ball. Henley was in superb form, and but for one bad inning would have let the Coal Barons down with only one hit. As it was, only four are charged against him, while one was struck out by Deaver.

The visitors secured eleven hits, one of which was a two bagger and another a three bagger. Taylor led the hitting for Atlanta, getting three safeties out of five times up. Winters and Valdois made two each.

For Birmingham Lawler made two hits, while Leidy and Cavender secured one each. Wilhelm and Billie Smith each made costly errors.

In the second inning Leidy, second up, hit safe and stole second. He went to third on a fielder's chioce and scored on an error by Henley in handling a grounder by Cavender.

Atlanta was unable to get a man across the home plate until the fifth, when, with one out Delehanty was safe on first by Wilhelm's error. He stole second and scored on Frank's hit. In the sixth Atlanta made two more runs on B. Smith's error, Valdois' single, Hoffmeister's fielder's choice, which caught Valdois at second, and a three bagger by Hurlburt. Birmingham tied this score in her half of the same inning on a hit by Lawler, a base on balls and a two bagger by Cavender. In the seventh singles by Delehanty, Taylor, Winters and Valdois gave Atlanta two more and the game. One more was made in the ninth on Taylor's singles and Winters' two bagger. Birmingham could do nothing in her half. Two games will be played today-the first called at 2:30 o'clock. Wilson and Baker will oppose Campbell and Wilhelm.

POWELL DEFIES LEAGUE PRESIDENT

New Orleans Again Refuses To Admit Memphis Outlaws.

CLINE IS ALSO EXCLUDED

Charley Frank Again Encounters a Brick Wall — Powell Receives Congratulations on His Action from Little Rock Management.

New Orleans, Aug. 5.—Monday's farce was repeated today at Athletic park. There was no game between New Orleans and Memphis. Although it was generally anticipated that Powell would not recede from his position, Manager Frank again took his team out to the ball park.

The advertisements of the game had been withdrawn from the papers and at the gates those in charge refused to sell tickets. When the Memphis men arrived, accompanied by Umpire Cline, Powell and some of the local management with a policeman were present. All the players were allowed to enter with the exception of St. Vrain, Evans and Babb.

When Cline attempted to go in he was stopped under orders of Powell and told that he could not have admission. The eight Memphis players practiced until the hour for the game came.

Then Umpire Chabot, whom Powell had selected yesterday, called "play ball." Gfroerer, for Memphis, went to the bat and French, for New Orleans, pitched four balls, whereupon Chabot declared the game forfeited to New Orleans on the ground that Memphis had only eight players when the rules require nine. Frank and his men immediately returned to the city.

Frank showed a telegram today received from President Nicklin, after yesterday's event, had been wired to him, saying that the Memphis agreement required all clubs to play Evans and Babb until after the coming meeting of the league. A similar telegram was received by Umpire Cline.

Manager Powell exhibited a telegram signed Little Rock base ball club and saying "Congratulations upon your firm methods. We will stand by you." It is assumed from this telegram that Little Rock will also refuse to play Memphis.

PAR EXCELLENCE WINNER AT 40 TO 1

Selling Plates Captures Classic Alabama Stakes at Saratoga.

GUNFIRE A HOT FAVORITE

But Whitney's Filly and Hatasoo Were Raced Into the Ground Before Stretch Was Reached. McChesney Is Beaten at Harlem.

Saratoga, N. Y., August 5.—Par Excellence, quoted at 40 to 1, as selling plater of only ordinary class, won the Classic Alabama stakes for 3-year-old fillies in a hard drive by a neck from the 30 to 1 shot, Luxcasta. The result was one of the greatest upsets of the present racing year.

William C. Whitney's Gunfire was an odds on favorite, but she, together with Hatasco, was raced into the ground before the head of the stretch was reached and both were badly beaten at the end, Josepha finishing third. The start of the race caused a lot of crowding, Par Excellence and Femesole coming together, the latter being thrown out of he stride.

The California owned and bred 2-year-old Alonso gave a great exhibition of speed and stamina in the opening dash making up a gap of 20 lengths and winning by a neck from Boutonniere. The track was fast, Zoroaster running a mile in 1:39 3-5, establishing a new record for the course. The attendance numbered over 4,000. Three favorites won. Summary:

FIRST RACE—Five and one-half furlongs: Alsono, 112 (Odom), 9 to 5, won Boutonniere, 103 (Wonderly), 3 to 1, second; Lady Albercraft, 112 (Brennan), 8 to 1, third. Time 1:07. Scoffer, Grantsdale, High Chancellor, Grey Park, Old Fort, Squanto, Empress of India, Wax Candle, Decoration and Dazzling ran.

SECOND RACE—Selling, mile: Zoroaster, 110 (Redfern), 5 to 2, won; Conundrum, 102 (Lyne), 7 to 10, second; Mosketo, 101 (H. Michaels), 10 to 1, third Time, 1:39 3-5. Hans Wagner, Musidora, Locket ran.

THIRD RACE—Five and one-half furlongs: Yardarm, 112 (Snyder), 5 to 1, won; Parisienne, 109 (Hughes), 9 to 5, second; Flying Jib, 112 (Ely), 5 to 2, third. Time, 1:08. Leader, Michaelmas, Medal, Dainty, Far Craft, Ornature, Mollie Brant, Mr. Dingle, Showman ran.

FOURTH RACE—The Alabama, 1 1-16 miles: Par Excellence, 116 (Redfern), 40 to 1, won; Luxcasta, 116 (Wonderly), 30 to 1, second; Josepha, 116 (Odom), 5 to 2, third. Time, 1:47 3-5. Gunfire, Bessie McCarthy, Femesole, Patasoo ran.

FIFTH RACE—Six furlongs, selling: The Musketeer, 111 (J. Martin), 1 to 2, won; Belvino, 112 (Odom), 20 to 1, second; Sadduccee, 106 (O'Connor), 5 to 1, third. Time, 1:13. Roue, Bellario, Flying Buttress, Delagoa ran.

SIXTH RACE—Handicap, 1 mile and 1 furlong: Morningside, 110 (T. Burns), 8 to 5, won; Himself, 110 (Odom), 8 to 1, second; Caughnagaw, 107 (Wade), 100 to 1, third. Time, 1:53 4-5. Janice, Highlander, Numeral and Daffodowndilly ran. Lance left at the post.

FLEET LED BY THE MURIEL.

Initial Run of New York Yacht Club Satisfactory.

Newport, R. I., August 5.—The initial run of the New York Yacht Club fleet from New London to this port today was on the whole satisfactory, the light, fluky weather at the start and the soft breezes along the Rhode Island shore being forgotten in the splendid 7-mile dash in an increasing southeaster from Point Judith to the finish at Brentons Reef lightship.

Charles Smith's crack 70-foot schooner Muriel led the fleet practically all the way, and covered the distance, 37 miles, in a trifle under five hours and three quarters. Commodore Ledyard's schooner Corona was a close second, and J. Roger Maxwell's 70-foot sloop Yankee a good third. These three yachts won in their respective classes.

The rest of the fleet made a long procession, but all had finished by dark.

AT HARLEM

MUCH TOUTED McCHESNEY IS BEATEN BY HUACHUCA

Chicago, August 5.—McChesney, the much-touted colt, backed from even money to 4 to 5, was badly beaten at Harlem today. McChesney, who was recently sold for $15,000, met with a bad fall at the former meeting at Harlem and this was his first start since. The colt was reported to have fully recovered and was played today almost to the exclusion of everything else in the race. The race went to Huachuca at 9 to 1, with Corrigan, at 15 to 1, second, and Herodiade third. At the head of the stretch McChesney was far back, but came strong and finished fourth. Dodona was made the medium of a heavy play in the first race, which she won easily, being backed from 25 to 1 to 15 to 1. Albert Enright, backed from 100 to 1 to 60 to 1, captured the fourth event. Weather perfect; track slow.

FIRST RACE—Five furlongs: Dodona, 106 (Buchanan), 15 to 1, won; Vestry, 106 (Beauchamp), 7 to 2, second; Versifier, 106 (Birkenruth), 40 to 1, third. Time 1:04 1-5. Penance, Smyrna, Lady Churchill, Adios, Maolis, The Fisher Girl, Countess Reasoner and Hattie Walker also ran.

SECOND RACE—Six furlongs: Inspector Shea, 107 (Prior), 12 to 1, won; Golden Glitter, 98 (J. Walsh), 6 to 1, second; Zyra, 102 (Ransch), 4 to 1, third. Time 1:16 2-5. Huzzah, Leneta, Emma A. M., go also ran.

THIRD RACE—Six furlongs: Huachuca, Jane Holly, Red Tip, Postillion and Lin- 108 (T. Knight), 9 to 1, won; Corrigan, 111 (Ransch), 15 to 1, second; Herodiades, 107 (Coburn), 8 to 1, third. Time 1:14 4-5. McChesney, Talpa, Lass of Langdon and Flora Pomona also ran.

FOURTH RACE—Mile and 70 yards: Albert Enright, 97 (W. Waldo), 60 to 1, won; Dewey, 98 (Ransch), 4 to 1, second; Silurian, 102 (J. Walsh), 9 to 1, third. Time 1:47. Gonfalon, John A. Clark, Omdurman Little Scout and Illuminate also ran.

FIFTH RACE—Five and a half furlongs: Lampoon, 103 (Helgeson), 4 to 1, won; Miss Manners, 107 (Coburn), 3 to 1, second; Goodma, 105 (Hoar), 2 1-2 to 1, third. Time 1:08 4-5. Pericles, Almaric, Senor, King Dodo, Overlace, Adirondack and Rankin also ran.

SIXTH RACE—Mile and 100 yards: Bab, 103 (Hoar), 6 to 5, won; Guy H, 100 (Buchanan), 15 to 1, second; Chorus Boy, 107 (Coburn), 5 to 1, third. Time 1:49 2-5. Marion Lynch, Ida V, Dark Secret, Somersault and Queen of Dixiana also ran.

Today's Entries at Harlem.

First Race—Five furlongs: Kite Star, Tancred, Egg Nogg, 108; Licorice, Daddy Bender, Shoes to Plates, Camembert, Capable, Dan McKenna, Love, Small Talk, 105; Tabellarius, Zepho, Tucker Cox, 102.

HARNESS RACES AT BUFFALO.

Direct Hol and The Roman Repeated Their Wins.

Buffalo, August 5.—The second day of the grand circuit was rather tame. Direct Hal and The Roman repeated their wins of earlier in the season, both getting their races easily. The only excitement came in the first heat of the 2:24 pace, when there was a collision on the first turn, the drivers of King Charles and Grasshopper being unseated. Grasshopper made the circuit of the track without a driver, but King Charles was stopped. Cooper, who drove the former, was not hurt, but Maloney, the owner of King Charles, got a black eye and a badly skinned cheek. The judges ruled that as the collision seemed unavoidable all horses would start in the other heats. Maloney got up behind King Charles, and in the third heat made a plucky drive, getting second place and third money in the race.

Direct Hal had the pole and was always in front of the 2:24 pace, Geers not being compelled to reduce the horse's record to win. The Roman drew sixth position in the 2:18 trot, but went through the horses and won easily. Both were heavy favorites. Summary:

2:24 pace, $5,000: Direct Hal, blk., h., by Direct, dam Bessie Hal (Geers), 1—1—1; Junius, ch. g. (Saunders), 2—2—3; King Charles, ch. g. (Maloney), 11—9—2; Tertimin, 3—3—4; Free Advice, 5—6—5; Bousant, 6—7—6; International Queen, 7—10—7; Grasshopper, 10—8—8; Vice Regal, 4—5—dis; Cherry Lass, 9—4—dis; Hallie K, 8—dis. Time, 2:07 1-2; 2:08; 2:07 1-2.

2:18 trot, $2,000: The Roman, b. g., by McKinney, dam Wanda (Benson), 1—1—1; Allie Wood, b. m. (Miller), 2—2—2; Baron Dillon, Jr. (Fuller), 3—3—3; Allabrieve, 4—4—4; Minka, 5—5—5; Lauretta, dis; Lord March, dr. Time, 2:11 1-4; 2:12 1-2; 2:11 1-2.

2:30 pace, $1,200: Gold Brick, blk. g., by Hal Parker, dam unknown (Spear), 1—1—1; Funston, r. o. g. (Snow), 3—2—2; Orin B, b. g. (Hudson), 2—3—3. Time, 2:11 1-2; 2:09 3-4; 2:11 3-4.

Dynamited for Working.

Scranton, Pa., August 6.—James Elias, of Vanling, returned to work last week at the Richmondale colliery. Early today dynamite was exploded under the front part of his house. The lower part of the building was badly wrecked, but the occupants, who were on the upper floor, escaped with a few bruises.

PRIMARY DATE MAY SOON BE DECIDED

Chairman Hopkins, of Executive Committee, Will Consider Matter Today.

NOTHING DECIDED AS YET

Probable Action of Special Charter Revision Committee of Council This Morning May Have Bearing on the Subject of City Primary.

Within the next few days Chairman Charles T. Hopkins, of the city executive committee, will issue a call to members of his committee to meet some time this month to fix the date for holding the municipal primary. Just what day will be selected as a time for meeting has not been definitely decided by Mr. Hopkins, but he expects to take the matter up today and may reach a decision.

Chairman Hopkins stated last evening that he had taken no active steps in the matter up to this time because of the uncertainty of the action of the special charter revision committee of council regarding certain phases of the proposed new charter. The special subject of primaries is to be taken up this morning by the committee and some of the ablest members of the Atlanta bar have been asked to give the members of the committee their opinions concerning this provision of the charter.

Mr. Hopkins will doubtless be largely influenced by whatever action the committee takes. He explained that he had not personally consulted any of the members of his committee regarding the primary date, and therefore could not anticipate what the committee would do when the question comes up at the first meeting. It has been generally believed that the committee would meet about the middle of this month and would decide upon an early day in October for the primary. But just what action will be taken is of course problematical at this time.

Interest in Primary Date.

Considerable interest is now being manifested in the question of the primary, and, while a number of candidates have already been announced, it is expected that the campaign will open up in earnest when this all-important subject has been settled. Mr. Hopkins states that, in his opinion, the matter of calling the primary is important and should not be disposed of hastily. He will no doubt attend the meeting of the council charter committee this morning for the purpose of hearing what the attorneys who have been invited to speak will have to say about the primary question.

At Monday's session of the committee it was decided to take up today that chapter of the proposed new charter, as prepared by the committee of 49, having special reference to the manner of holding city primary elections. Chairman Key, at the time, expressed some doubt about the constitutionality of the custom, and, at his suggestion, certain prominent attorneys were asked to meet with the committee this morning. These gentlemen are City Attorney James L. Mayson, County Attorney Luther Z. Rosser, Judge John L. Hopkins, Colonel John B. Goodwin, Hoke Smith, Colonel John C. Reed and Judge James A. Anderson.

PASSING THRONG.

"Did you ever stop to consider what it costs to mourn for the death of some people?" asked the mathematical crank yesterday afternoon. "Not in tears and sighs and regret and all the other grief-tinctured emotions, but in cool hard cash. No? Well, I'll tell you that the sum total spent in funerals will lay all over the amount of money that it costs to bring us into the world or to get married. I have been figuring on the proposition in its entirety, but it will take me some months yet to arrive at anything like an accurate estimate.

"What called my attention to the subject was the extensive signs of mourning which have been indulged in on account of the death of John Mackay. You will notice that the Postal Telegraph Company's local office on Broad street is literally covered with black cloth of a more or less expensive quality, and that the branch offices in the Empire and Prudential buildings are similarly draped in black. I am told that every Postal telegraph office in the world—and there are some 15,000 of them—is similarly decorated. Of course, many of the offices in remote towns and stations are small and the mourning decorations correspondingly insignificant, but it would be safe to assume that of the 15,000 offices in this and other countries it cost at least $10 an office. This would make $150,000 spent in mourning cloth alone. One hundred and fifty thousand dollars for crape looks like a great big sum—almost a sinful waste of money—but when you stop to think that the Postal Telegraph Company, of which Mackay was the principal owner, foots all the bills for the grief that its thousands of employees are supposed to feel the matter assumes an entirely different aspect. In fact, by Mackay's death the country is just $150,000 better off than it would have been otherwise in the actual amount of cash put in circulation, for every dollar of it will go into the regular channels of trade. But what do you suppose the John Mackay of 1849, with his pick and shovel and prospecting pan, would have said if some one had told him that his funeral would cost in the neighborhood of $200,000?"

"It is a strange fact of human nature that nine men in ten are cranks on the subject of medicine," remarked the doctor yesterday, "and instead of trying to keep well by proper habits and hygiene they are continually stimulating their jaded machinery with all sorts of drugs. It is another strange fact how many men are their own doctors. Men who would not think of attempting to build a house without an architect, or conduct a law suit without the best lawyer money could procure are continually tampering with themselves in a way that eventually hastens them along the highway to sure death. And they all have a sovereign remedy which is a universal panacea for all the ills to which mankind is heir. With one man it is calomel; another pins his faith to quinine; still another has a favorite variety of pills (usually the size of a marble); a fourth swears by castor oil, and so on all through the catalogue of medicine.

"I noticed this peculiarity out at Grant park the other day as the crowds were watching Clio, the elephant, as she reclined on the ground in the throes of some disease which none of the laymen could have possibly known anything about. And yet, each and all fancied they knew just the thing to put Clio on her feet and cause her to live until the millennium. Everything under the sun was suggested from ashes and lye to an internal application of soap and water; but the most ridiculous suggestion I heard came from an old, dried up chap who looked like a walking death's head that a mustard plaster was the thing she needed. He had the thing all figured out—the exact amount of mustard that would be required and the manner in which it was to be applied. He never seemed to consider that an elephant's hide is fully two and a half inches thick, and that it takes nothing less than a heavy application of red-hot coals to cause even a comfortable warmth. If Clio dies I venture to say the old fellow will lay all the blame to the fact that she did not have a mustard plaster."

A NEW MAN.

George S. Scally, of 75 Nassau St., New York, says: "For years I have been troubled with rheumatism and dyspepsia and I came to the conclusion to try your pills. I immediately found great relief from their use. I feel like a new man since I commenced taking them, and would not now be without them. The drowsy, sleepy feeling I used to have has entirely disappeared. The dyspepsia has left me and my rheumatism is gone entirely. I am satisfied if anyone so afflicted will give Radway's Pills a trial they will surely cure them, for I believe it all comes from the system being out of order—the liver not doing its work."

Broyles and Grant defeated Smith and Howell—6-3, 3-6, 6-2.

Seibles and Warren defeated Peters and Daniels—6-3, 6-0.

The diminutive Agelasto, of Norfolk, whose tennis ability is at an inverse ratio to his height, took off the honors in the second day's play in the south Atlantic championship tournament. Cowan Rodgers, the Tennessean, caused Agelasto temporarily to lose a little of his nonchalance yesterday, but the Virginian let out a few links and suavely took the deciding set of what was perhaps the best match played on the Athletic Club courts.

The Agelasto-Rodgers match was in point of interest decidedly the feature of the day. A large gallery viewed the contest and repeatedly applauded the plays and the players.

Cowan Rodgers, who has won an enviable reputation for sportsmanlike play by his work in the tournaments in 1900 and 1901, was a decided favorite with the audience, but Agelasto's superb tennis received its meed of applause from the spectators.

The Virginian played a beautiful game against a worthy opponent and proved conclusively that the title of expert, when applied to him, is no misnomer. He has a fair service at his command, plays a strong net game and in back court work is head and shoulders above any other man in the tournament.

A Pretty Exchange.

Agelasto began his match with Rodgers in a whirlwind fashion and took the first set with six games to his opponent's one. No volleying or net play was attempted by either man and each attempted only passing strokes varied with lobbing. In the sixth game of this set occurred a magnificent exchange of lobbing and slow placing—the most spectacular feature of the tournament so far. In the deciding game of the match Agelasto, while engaged in a swift exchange, fell, but by his quick recovery in time to receive Rodgers' return provoked the plaudits of the gallery.

Agelasto varied his tactics in the second set and as a result was outplayed by his big opponent. The Virginian attempted net play, and before he realized Rodgers' strength at this game the latter had annexed the second set, 6-2. The sunny-haired Knoxville crack was at the top of his game in this heat and put up a fine exhibition.

In the third set Agelasto returned to his favorite method of play and with unerringly placed strokes in the corners and at the base line left Rodgers among the also rans. Score, 6-1.

Prophecy in tennis is about as unreliable as weather forecasting, but the concensus of opinion among the followers of the game gives Agelasto a clear way to the championship this year, though he will strike no little opposition when he plays Sam Williams this afternoon. One who is in position to speak with authority said last night that the Virginian is the best tennis player that has ever appeared on an Atlanta court.

Williams' Good Head Work.

The match between Sam Williams and Charles Rodgers was the event of the morning. Owing to the rain of the preceding night the court was rather soggy and fast tennis was impossible, but the clean, open aspect of the contest made it interesting. The Atlantan played his characteristic cool, heady game and outgeneraled his antagonist. Williams won in two sets, 6-4 and 6-4. Both men kept away from the net and lobbed repeatedly.

As the wise ones prophecied Nat Thornton defeated his older brother in a three-set match. The younger player was out of practice and drove into the net and out of bounds frequently, but by brilliant spurts took the match.

Play in the doubles was begun and Scott and Agelasto, who played together for the first time, had trouble in defeating Glenn and Colquitt. Individual ability alone won the match for victors, as team work was conspicuously absent. The two sets went to the new team by the scores of 6-3 and 7-5.

Broyles and Grant vanquished Smith and Howell, 6-3, 3-6, 6-2, and Seibles and Warren, of Montgomery, found Peters and Daniels easy, winning in two sets, 6-3, 6 love.

In featureless exhibitions Daniels beat Heath, 6-4, 6-1; Cowan Rodgers ran away with Peters, 6-1, 6-0; Sam Williams defeated Gude, 6 love, 6-3; Tyson finally got the better of Tichenor, 6-1, 4-6, 6-3; "Jedge Briles" took Kealhafer into camp, 6 love, 4-6, 6-2, and Seibles won the deciding set of the postponed match with Alfriend, 6-2.

Today's programme will furnish some of the prettiest play of the tournament. The Agelasto-Williams match will, of course, be the star event, but the consolation event, which begins this morning, will furnish some rare sport.

Schedule of Today's Contest.

MISSOURIANS ASK PARDON FOR WHITE

Senator Cockrell and Governor Dockery Write the Governor.

WHITE IN FOR FIVE YEARS

General E. W. Price Here To Urge Young Man's Pardon — White Killed a Man in Macon. Comes of a Fine Missouri Family.

Some of Missouri's most prominent citizens and politicians are taking an interest in the case of Charles R. White, who is serving a five-year sentence in the Georgia penitentiary for voluntary manslaughter.

General E. W. Price, of Keatsville, Sheridan county, Mo., called on Governor Candler yesterday with letters from Senator Cockrell, Governor Dockery, two justices of the Missouri supreme court, and other prominent men of that state, who urged that executive clemency be extended to White who, it seems, is a member of a prominent and influential family in that state.

White got into an altercation with another man in Macon last year and killed him. He was convicted of voluntary manslaughter and sentenced to spend five years in the penitentiary. He has already served seven months of that time, and influential friends are now seeking to have him pardoned.

White's widowed mother and other members of his family live at Keatsville, and it was at the instance of Mrs. White that General Price came to Atlanta to see the governor and urge that the young man be pardoned. General Price was a brigadier general in the confederate army and is prominent in the affairs of his state.

Will Hear Case Today.

Governor Candler, General Price and Chairman J. S. Turner, of the prison commission, were closeted for a short while in the governor's office yesterday, and as the result of the conference it was decided that the prison commission should take the case up for a hearing this morning at 10 o'clock. General Price will appear before the commission in White's behalf.

"White belongs to one of the best families in Missouri," General Price said yesterday to a representative of The Constitution. "That is evident from the interest which prominent men of the state have taken in the case at the request of his mother and relatives. Governor Dockery for a long time boarded at Mrs. White's house.

"We think the young man has been sufficiently punished for what he did. The physicians testify that he is suffering from a disease of the heart, and that he is an invalid. Every member of the jury by which he was convicted has signed a petition for his pardon. I have some very strong letters from Senator Cockrell, Governor Dockery, Judge Rucker and others which I have presented to the governor in White's behalf, and we hope it will be possible to secure his pardon."

Most of those who wrote letters to Governor Candler on the subject were personally known to him, he having met them in Washington during his service in congress.

Killed by Chicken Thieves.

Lexington, Mo., Aug., 5.—George W. Johnson, aged 45, one of the wealthiest men in this county, was shot and killed early today by chicken thieves whom he surprised in his hen house. Four suspects are under arrest. If the murderer can be identified a lynching may follow.

A Farmer's Physician.

J. T. Porter, DeKalb county, writes: Am remote from medical aid, but I have a physician ever with me to check sudden attacks of the bowels in keeping Dr. Biggers' Huckleberry Cordial. Simply beats them all.

ONE KILLED AND FOUR HURT.

Freight Wreck on the Norfolk and Western Road.

Peebles, Ohio, August 5.—In a freight wreck on the Norfolk and Western road near here today one man was killed, four injured and two are missing. The dead:

ROBERT FOLEY, brakeman, Portsmouth.

The injured:

Harvey Norman, brakeman, McDermott; will die.

John MacArthur, conductor, Portsmouth; critical.

— Davis, engineer, Portsmouth; result doubtful.

D. Brown, fireman, Peebles; not serious.

Two tramps who got on the train at Peebles are missing. The coal train, drawn by two engines, fell through a trestle 72 feet high, which was being repaired. The foremost engine passed safely, but the second, with the cars, made the plunge.

THE MUTUAL BENEFIT LIFE INSURANCE COMPANY
Of Newark, N. J.

Mr. Clarence Angier, Esq., State Agent, The Mutual Benefit Life Insurance Company, Atlanta, Ga.

Dear Sir: Your favor of even date is received, and in reply would say that I am very much pleased with my $25,000 policy in the Mutual Benefit. The dividends which I have received from year to year have more than met my expectations. I wish it were possible for me to take out $25,000 more with you, as I consider it one of the very best investments that I could possibly make. I regard the policy contracts of the Mutual Benefit to be most liberal, and the solvency of the Company is beyond question. Yours truly,
H. C. Stockdell.

GERMANY'S NEW MEAT LAW.

It Will Go Into Effect on April 1 of Next Year.

Washington, August 5.—The state department today made public reports from Ambassador White, at Berlin, dated July 12 and 14, that according to an official proclamation the meat inspection law will go into force in its entirety on April 1, 1903, with the exception of the section which relates to doing away with the second examining of meat once officially inspected. This paragraph will not go into effect until October 1, 1904.

A report on the new regulations received from Consul General Richard Guenther, of Frankford, says the following meat imports into Germany are prohibited under the new act:

Meat in hermetrically sealed boxes and similar vessels as well as sausages and other mixtures of chopped meats, dog meat, also prepared meat of horses, asses, mules and other solipeds; meats which have been treated with one of the following substances or with a preparation containing such:

Boracic acid and its salts, formaldehyde, hydro oxides and carbonates of akalis, sulphurous acid and its salts, hyposulphurous salts, fluor hydrogen and its salts, salicylic acid and its salts, chloride salts and coloring substances of whatever nature. The latter, however, may be employed for coloring coverings if not otherwise prohibited.

Fresh meat may be imported into Germany in whole carcasses only.
